However, there are certain risk factors where the effect is not quantifiable and hence has not been disclosed in the below risk factors. The numbering of risk factors has been done to facilitate ease of reading and reference, and does not in any manner indicate the importance of one risk factor over another.

In this section, unless the context otherwise requires, a reference to “our Company”, is a reference to Indiabulls Housing Finance Limited on a standalone basis and references to “we”, “us”, and “our” are to our Company and Subsidiaries on consolidated basis. Internal Risks and Risks Associated with our Business

1. Our business has been growing consistently in the past. Any inability to manage and maintain our growth effectively may have a material adverse effect on our business, results of operations and financial condition.

We have experienced consistent growth in our business in the past. Our consolidated revenue from operations grew at a CAGR of 23.8%, from ₹54,064.0 million in Fiscal Year 2014 to ₹82,899.3 million in Fiscal Year 2016. Our consolidated profit after tax grew at a CAGR of 22.3%, from ₹15,685.4 million in Fiscal Year 2014 to ₹23,447.5 million in Fiscal Year 2016. Our consolidated assets under management grew at a CAGR of 29.2%, from ₹411,694.0 million as of March 31, 2014 to ₹686,825.5 million as of March 31, 2016.

Our growth exposes us to a wide range of increased risks within India, including business risks, operational risks, fraud risks, regulatory and legal risks and the possibility that the quality of our AUM may decline. Moreover, our ability to sustain our rate of growth depends significantly upon our ability to manage key issues such as selecting and retaining key management personnel, maintaining effective risk management policies, continuing to offer products which are relevant to our target base of clients, developing managerial experience to address emerging challenges and ensuring a high standard of client service. Going forward, we may not have adequate processes and systems such as credit appraisal and risk management to sustain this growth.

Our results of operations depend on a number of internal and external factors, including the increase in demand for housing loans in India, competition, our ability to expand geographically and diversify our product offerings and also significantly on our net interest income. Further, we cannot assure you that we will not experience issues such as capital constraints, difficulties in expanding our existing business and operations, and hiring and training of new personnel in order to manage and operate our expanded business.

Our business depends significantly on our marketing initiatives. There can be no assurance in relation to the impact of such initiatives and any failure to achieve the desired results may negatively impact our ability to leverage its brand value. There can also be no assurance that we would be able to continue such initiatives in the future in a similar manner and on commercially viable terms. Furthermore, any adverse publicity, about or loss of reputation of, our Company could negatively impact our results of operations.

If our Company grows its loan book too rapidly, or fails to make proper assessments of credit risks associated with new borrowers or new businesses, a higher percentage of the Company’s loans may become non-performing, which

would have a negative impact on the quality of our Company's assets and its business, prospects, financial condition and results of operations.

Any or a combination of some or all of the above-mentioned factors may result in a failure to maintain the growth of our AUM which may in turn have a material adverse effect on our business, results of operations and financial condition.

2. *We are vulnerable to the volatility in interest rates and we may face interest rate and maturity mismatches between our assets and liabilities in the future which may cause liquidity issues.*

Our operations are particularly vulnerable to volatility and mismatch in interest rates. Our net interest income and profitability directly depend on the difference between the average interest rate at which we lend and the average interest rate at which we borrow. The cost of our funding and the pricing of our loan products are determined by a number of factors, many of which are beyond our control, including the RBI's monetary policies, inflationary expectations, competition, domestic and international economic and political scenario and other factors. These factors could affect the interest rates charged on interest-earning assets differently than the interest rates paid on interest bearing liabilities. While any reduction in our cost of funds may be passed on to our customers, we may not have the same flexibility in passing on any increase in our cost of funds to our customers, thereby affecting our net interest income. Similarly, competition pressures may require us to reduce our cost of lending to our customers without a proportionate reduction in our cost of borrowing from our lenders. Further, if we do not pass on the reduced interest rates to our borrowers, it may result in some of the borrowers prepaying the loan to take advantage of the reduced interest rate environment, thereby impacting our growth and profitability. If interest rates rise, some or all of our lenders may increase the interest rates at which we borrow resulting in an increase in our effective cost of funds. We may or may not be able to pass on the increased interest rates to our borrowers simultaneously with the increase in our borrowing rates, or at all, thereby affecting our net interest income. Further, an increase in interest rates may result in some of our borrowers prepaying their loans by arranging funds from other sources, thereby impacting our growth and profitability. Additionally, an increase in general interest rates in the economy could reduce the overall demand for housing finance and impact our growth. There can be no assurance that we will be able to adequately manage our interest rate risk in the future, and if we are unable to do so, this could have an adverse effect on our net interest income, which could in turn have a material adverse effect on our business, results of operations and financial condition. While we enter into interest rate swaps to reduce our risk of exposure to interest rate fluctuations, we cannot assure you that such arrangements will sufficiently reduce our exposure to interest rate fluctuations or adequately protect us against any unfavourable fluctuations in the interest rates. We may also face potential liquidity risks due to mismatch in the maturity of our assets and liabilities. As is typical for a company in the business of lending, a portion of our funding requirements is met through short and medium-term funding sources such as bank loans, non-convertible debentures, commercial paper, cash credit or overdraft facilities. Our inability to obtain additional credit facilities or renew our existing credit facilities for matching tenure of our liabilities in a timely and cost effective manner or at all, may lead to mismatches between our assets and liabilities, which in turn may adversely affect our operations and financial performance.

3. *Any increase in the levels of NPAs in our AUM, for any reason whatsoever, would adversely affect our business, results of operations and financial condition.*

The NHB Directions, which are applicable to us, have laid down prudential norms with regard to NPAs, including in relation to identification of NPAs and income recognition against NPAs. There is no assurance that our NPA level will continue to stay at its current level. If the credit quality of our AUM deteriorates or we are unable to implement effective monitoring and collection methods, our results of operations and financial condition may get adversely affected. As we intend to continue our efforts to originate new loans, we cannot assure you that there will not be significant additional NPAs in our AUM in the future.

Further, the NHB Directions on NPAs may become more stringent than they currently are, which may adversely affect our profitability and results of operations. The NHB Directions also prescribe the provisioning required in respect to our outstanding AUM. Should the overall credit quality of our AUM deteriorate, the current level of our provisions may not be adequate to cover further increases in the amount of our NPAs. As of March 31, 2016, our

consolidated gross NPAs as a percentage of our consolidated assets under management were 0.84% and our consolidated net NPAs as a percentage of our consolidated assets under management were 0.35%. Our consolidated provisions for NPAs (excluding counter-cyclical provision, as applicable) as at March 31, 2016, 2015 and 2014 were ₹ 3,394.7 million, ₹ 2,569.4 million and ₹1,944.3 million, representing 58.8%, 58.0% and 56.9%, respectively of our consolidated gross NPAs in those years. If we are required to increase our provisioning in the future due to increased NPAs or the introduction of more stringent requirements in respect of loan loss provisioning, this may reduce our profit after tax and adversely impact our results of operations. Further, there can be no assurance that we will be able to recover the outstanding amounts due under any defaulted loans. We may also face difficulties in disposing of the underlying assets relating to such loans, as a result of which, we may be unable to realise any liquidity from such assets.

4. *Our indebtedness and conditions and restrictions imposed by our financing arrangements could adversely affect our ability to conduct our business and operations.*

Our outstanding borrowings were ₹610,853.1 million, as of March 31, 2016, on a consolidated basis and ₹651,747.6 million, as of June 30, 2016, on a standalone basis. We have entered into agreements with certain banks and financial institutions for short-term and long-term borrowings. Some of our agreements require us to take the consent from our lenders for undertaking various actions, including, for:

- entering into any schemes of mergers, amalgamations, compromise or reconstruction;
- enter into any borrowing arrangement with any bank, financial institution, company or person;
- changing our registered office;
- effecting any change in our ownership or control;
- effecting any change in our capital structure;
- any material change in our management or business;
- any amendments to our Memorandum or Articles of Association;
- undertaking guarantee obligations on behalf of any third party;
- declare any dividends to our shareholders unless amounts owed to the lenders have been paid or satisfactory provisions made thereof;
- transfer or dispose of any of our undertakings;
- create or permit to subsist any security over any of its assets;
- entering into any agreements whereby our income or profits are or may be shared with any other person;
- revaluing our assets; and
- entering into any long-term contracts that significantly affect us.

Additionally, some of our loan agreements also require us to maintain certain periodic financial ratios.

In the event we breach any financial or other covenants contained in any of our financing arrangements or in the event we had breached any terms in the past which is noticed in the future, we may be required to immediately repay our borrowings either in whole or in part, together with any related costs. We may be forced to sell some or all of the assets in our portfolio if we do not have sufficient cash or credit facilities to make repayments. Furthermore, some of our financing arrangements contain cross-default provisions which could automatically trigger defaults under other financing arrangements.

We cannot assure you that our business will generate sufficient cash to enable us to service our debt or to fund our other liquidity needs. In addition, we may need to refinance all or a portion of our debt on or before maturity. We cannot assure you that we will be able to refinance any of our debt on commercially reasonable terms or at all.

5. We are party to certain legal proceedings and any adverse outcome in these or other proceedings may adversely affect our business.

We are involved, from time to time, in legal proceedings that are incidental to our operations and involve suits filed by and against our Company by various parties. These include criminal proceedings, civil proceedings, arbitration cases, consumer proceedings, labour proceedings, tax investigations, cases filed by the Issuer under the Negotiable Instruments Act and applications under the SARFAESI Act challenging proceedings adopted by the Issuer towards enforcement of security interests. These proceedings are pending at different levels of adjudication before various courts, forums, authorities, tribunals and appellate tribunals. A significant degree of judgment is required to assess our exposure in these proceedings and determine the appropriate level of provisions, if any. There can be no assurance on the outcome of the legal proceedings or that the provisions we make will be adequate to cover all losses we may incur in such proceedings, or that our actual liability will be as reflected in any provision that we have made in connection with any such legal proceedings. For a summary of certain material legal proceedings involving our Company, our Promoter and Directors, see “Outstanding Litigations and Defaults” on page 206.

We may be required to devote management and financial resources in the defense or prosecution of such legal proceedings. If a significant number of these disputes are determined against our Company and if our Company is required to pay all or a portion of the disputed amounts or if we are unable to recover amounts for which we have filed recovery proceedings, there could be a material and adverse impact on our reputation, business, financial condition and results of operations.

On July 18, 2016, we received a notice from SEBI in relation to certain alleged irregularities with filings of the shareholding patterns under the erstwhile equity listing agreement (required to be entered into between listed issuers and Stock Exchanges). For more details, please see “Outstanding Litigations and Defaults” on page 206. As of the date of this Prospectus, the Issuer is yet to respond to SEBI. In the event that the matter is decided adversely to the Issuer, the maximum penalty that could be imposed is up to Rs. 1 crore.

Additionally, we are involved in litigation with Veritas Investment Research Corporation (“Veritas”) in relation to a report that they published on August 1, 2012, on the Indiabulls group. The report was published on Bloomberg. In relation to our Company, the report alleged that interest income from employee welfare trust set up for the benefit of the employees of our Company and other Indiabulls group entities resulted in an increase in our profit before tax and that we recognised ₹1.2 billion in Fiscal Year 2012 for a loan extended to our employee welfare trust, which was incapable of servicing the loan. Subsequently, the employee welfare trust shares were sold and the full loan and interest amount was paid back to our Company. On August 8, 2012, we published a press release stating that the report was false and frivolous. We also filed criminal complaints in India alleging that Veritas and the authors of the report had maliciously published a false, misleading and libellous report, amongst others, based on incorrect facts and that Veritas had offered to withhold the report if Indiabulls paid them U.S.\$50,000. In August 2014, Veritas and the author filed a claim before the Superior Court of Justice, Ontario claiming a total of Canadian \$ 11 million as damages on the ground that our press release was false and defamatory and led to loss of reputation and credibility of Veritas. We moved the Delhi High Court seeking an anti-suit injunction against Veritas and the court has granted a stay order in October 2014 restraining Veritas and the author from proceeding further with the claim before the Superior Court of Justice, Ontario and from initiating any fresh proceedings. We have filed a motion before the Superior Court of Justice, Ontario challenging its territorial jurisdiction to entertain the claim filed by Veritas and the co-author and for that purpose has also relied on the stay order passed by the Delhi High Court. We also filed a petition before the Delhi High Court for the contempt of court against Veritas and the authors of the report for deliberately continuing the proceedings in Ontario disregarding the Delhi High Court's order dated October 2014 and also on account of the content of certain affidavits filed before the Superior Court of Justice, Ontario. In May 2015, we filed a suit against Veritas and the author before the Delhi High Court for damages amounting to ₹2 billion along with future interests and a permanent injunction on circulating defamatory material against us.

Veritas and one of the co-authors filed a motion before the Ontario Court seeking an anti-suit injunction against suit for damages filed by us before Delhi High Court. In October 2015, Ontario Superior Court of Justice dismissed the motion filed by Veritas and the co-author. The order of dismissal of motion was followed by order dated November

4, 2015, whereby the Ontario Court awarded cost of \$ 27,500 against Veritas and the co-author and in our favour. Post the adverse order of October 2015 by the Ontario Court, Veritas and the co-author Neeraj Monga started appearing in court proceedings before the Delhi High Court while prior to the said order they were abstaining from appearing before the Indian courts or joining investigations being conducted by Indian agencies. Veritas and Neeraj Monga have entered appearance in the suit for damages filed by the Issuer. In addition to these proceedings in India and Canada, we also initiated proceedings against an Editor for the Wall Street Journal ("WSJ") and Dow Jones & Company ("Dow Jones"), the publisher of WSJ, seeking to restrain them from publishing contents of the affidavits filed before the Superior Court of Justice, Ontario. We believe these affidavits contain false and misleading allegations and derogatory statements relating to the Indian judicial and state mechanism, as well as Indiabulls. In April 2015, the Delhi High Court passed an injunction restraining the WSJ Editor, Dow Jones, Veritas and the authors of the Veritas report from publishing, disseminating or broadcasting reports pertaining to and arising out of the Veritas report or other connected reports. The Delhi High Court has since modified its order and has allowed the WSJ Editor involved to make a publication subject to compliance with the norms of journalistic conduct as issued by the Press Council of India (2010 edition) ("Norms of Journalistic Conduct"). In June 2015, Dow Jones and the WSJ Editor filed appeals against the injunction passed in April 2015 before the Delhi High Court. Subsequently, on September 7, 2015 the Delhi High Court disposed the appeals on the consent of the parties involved with a direction that both Dow Jones and the WSJ Editor would adhere to the Norms of Journalistic Conduct in making any publications. Further, we were also directed by the Delhi High Court to respond to the Editor of WSJ's queries in relation to the affidavits filed in the Superior Court of Ontario. Subsequent to this, articles on us may be published by the WSJ Editor or Dow Jones, which WSJ has since published in relation to the Veritas report.

Any negative publicity, or an adverse outcome in the ongoing and any future proceedings, related to the Veritas report could have a material adverse impact on our reputation, business, prospects and financial condition. For further details on these legal proceedings, see "Outstanding Litigations and Defaults" on page 206.

6. *We may experience difficulties in expanding our business or pursuing new business opportunities in new regions and markets.*

As part of our growth strategy, we evaluate attractive growth opportunities to expand our business and pursue new business opportunities in new regions and markets. For instance, on November 13, 2015, we invested GBP 66.0 million in acquiring a 39.76% stake in OakNorth Holdings Limited, a Jersey company principally providing banking services in the United Kingdom.

Factors such as competition, customer requirements, regulatory regimes, culture, business practices and customs in these new markets may differ from those in our current markets, and our experience in our current markets may not be applicable to these new markets.

As we continue to expand our geographic footprint, our present and/ or future businesses may be exposed to various additional challenges, including obtaining necessary governmental approvals, identifying and collaborating with local business and partners with whom we may have no previous working relationship; successfully marketing our products in markets with which we have no previous familiarity; attracting potential customers in a market in which we do not have significant experience or visibility; falling under additional local tax jurisdictions; attracting and retaining new employees; expanding our technological infrastructure; maintaining standardized systems and procedures; and adapting our marketing strategy and operations to different regions of India or outside of India in which different languages are spoken. To address these challenges, we may have to make significant investments that may not yield desired results or incur costs that we may not recover. Our inability to expand our current operations or pursue new business opportunities may adversely affect our business prospects, financial conditions and results of operations.

7. *Any downgrade in our credit ratings may increase interest rates for refinancing our outstanding debt, which would increase our financing costs, and adversely affect our future issuances of debt and our ability to borrow on a competitive basis.*

We have received long-term credit ratings of "AAA" from CARE and Brickwork Ratings and "AA+" from CRISIL and ICRA. We have also received the highest short-term credit rating of "A1+" credit rating from ICRA, CARE, CRISIL and India Ratings. See also "Our Business – Overview" on page 93. These ratings signify a high degree of safety regarding timely servicing of financial obligations and low credit risk and allow us to access debt financing at competitive rates of interest. Any downgrade in our credit ratings may increase interest rates for refinancing our outstanding debt, which would increase our financing costs, and adversely affect our future issuances of debt and our ability to borrow on a competitive basis, which may adversely affect our business, financial condition, results of operations and cash flows. Further, any downgrade in our credit ratings may also trigger an event of default or acceleration of certain of our borrowings.

8. *We are a listed HFC and subject to various regulatory and legal requirements. Also, future regulatory changes may have a material adverse effect on our business, results of operations and financial condition.*

We are subject to the corporate, taxation and other laws in effect in India which require continued monitoring and compliance. These regulations, apart from regulating the manner in which a company carries out its business and internal operation, prescribe various periodical compliances and filings including but not limited to filing of forms and declarations with the relevant registrar of companies, and the NHB. Pursuant to NHB regulations, HFCs are currently required to maintain a minimum CRAR consisting of Tier I and Tier II Capital which collectively shall not be less than 12.00% of their aggregate risk weighted assets and their risk adjusted value of off-balance sheet items. For further details, please see "Regulations and Policies" on page 115. This ratio is used to measure an HFC's capital strength and to promote the stability and efficiency of the housing finance system. As of March 31, 2016, our standalone CRAR was 20.51%. Should we be required to raise additional capital in the future in order to maintain our CRAR above the existing and future minimum required levels, we cannot guarantee that we will be able to obtain this capital on favourable terms, in a timely manner, or at all.

The introduction of additional government controls or newly implemented laws and regulations including, in relation to classifications of and provisioning for NPAs, recoveries, capital adequacy requirements and exposure norms, depending on the nature and extent thereof and our ability to make corresponding adjustments, may result in a material adverse effect on our business, results of operations and financial condition and our future expansion plans in India. In particular, decisions taken by regulators concerning economic policies or goals that are inconsistent with our interests, could adversely affect our results of operations. Further, we cannot assure you that we will be able to timely adapt to new laws, regulations or policies that may come into effect from time to time with respect to the financing of housing and urban infrastructure sector in general.

Moreover new regulations may be passed that restrict our ability to do business. Further, these regulations are subject to frequent amendments and depend upon government policy. We also cannot assure you that we will not be subject to any adverse regulatory action in the future. The costs of compliance may be high, which may affect our profitability. If we are unable to comply with any such regulatory requirements, our business and results of operations may be materially and adversely affected.

The availing of housing loans for residential properties has become attractive due to certain government schemes and income tax exemptions on the repayment of loans and interest payments. There can be no assurance that the government will continue with such schemes or tax benefits on housing loans and any significant change by the government in its monetary policy or tax laws, may adversely affect our business and results of operations. Changes in tax laws and reduction in tax concessions for housing loans may negatively impact the housing market and the housing loan market in general.

Further, as a listed company, we are subject to continuing obligations with respect to the Uniform Listing Agreement and SEBI Listing Regulations, which can be amended from time to time unilaterally by the SEBI. Additionally, as the Company's outstanding non-convertible debentures are listed on the WDM segment of BSE and/ or NSE, the Company is subject to the SEBI Debt Regulations.

We cannot assure you that we will be in compliance with the various regulatory and legal requirements in a timely manner or at all. The requirement for compliance with such applicable regulations presents a number of risks, particularly in areas where applicable regulations may be subject to varying interpretations. Further, if the interpretations of the regulators and authorities with respect to these regulations vary from our interpretation, we may be subject to penalties and our business could be adversely affected.

9. *We are subject to periodic inspections by the NHB. Non-compliance with the NHB's observations made during any such inspections could adversely affect our reputation, financial condition and results of operations.*

We are subject to periodic inspection by the NHB under the NHB Act wherein the NHB inspects our books of accounts and other records for the purpose of verifying the correctness or completeness of any statement, information or particulars furnished to the NHB or for obtaining any information which we may have failed to furnish on being called upon to do so. Inspection by the NHB is a regular exercise and is carried out periodically by the NHB for all housing finance institution under the NHB Act. In the past reports, NHB has identified certain deficiencies in our operations. While we attempt to be in compliance with all regulatory provisions applicable to us, in the event we are unable to comply with the observations made by the NHB, we could be subject to penalties and restrictions which may be imposed by the NHB. Imposition of any penalty or adverse finding by the NHB during any future inspection may have a material adverse effect on our reputation, financial condition and results of operations.

10. *Our inability to obtain, renew or maintain our statutory and regulatory permits and approvals required to operate our business may materially and adversely affect our business and results of operations.*

We require certain licenses, approvals, permits and registrations in order to undertake our business activities. These include registration with the NHB for carrying out business as a HFC. We are also required to maintain licenses under various applicable national and state labour laws in force in India for some of our offices and with regard to some of our employees. While we currently possess all the relevant licenses, approvals, permits and registrations or have applied for renewals of certain licenses and approvals that have expired, there can be no assurance that the relevant authorities will renew these in the anticipated time-frame, or at all. Additionally, failure by us to comply with the terms and conditions to which such licenses, approvals, permits or registrations are subject, and/or to renew, maintain or obtain the required licenses, approvals, permits or registrations may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

11. *We cannot assure you that we will be able to successfully execute our growth strategies, which could affect our operations, results, financial condition and cash flows.*

Our growth strategy includes increasing the number of loans we extend and expanding our customer base. For further details, see “Our Business – Our Strategies” on page 97. We expect that our growth strategy will place significant demands on our management, financial and other resources. While we intend to pursue existing and potential market opportunities, our inability to manage our business plan effectively and execute our growth strategy could have an adverse effect on our operations, results, financial condition and cash flows.

In order to manage growth effectively, we must implement and improve operational systems, procedures and internal controls on a timely basis. If we fail to implement these systems, procedures and controls on a timely basis, or if there are weaknesses in our internal controls that would result in inconsistent internal standard operating procedures, we may not be able to meet our customers' needs, hire and retain new employees, pursue new business, complete future strategic agreements or operate our business effectively. There can be no assurance that our existing or future management, operational and financial systems, procedures and controls will be adequate to support future operations or establish or develop business relationships beneficial to future operations.

Our management may also change its view on the desirability of current strategies, and any resultant change in our strategies could put significant strain on our resources. Further, we may be unable to achieve any synergies or successfully integrate any acquired business into our portfolio. Any business that we acquire may have unknown or contingent liabilities, and we may become liable for the past activities of such businesses. Furthermore, any equity

investments that we undertake may be subject to market and liquidity risks, and we may be unable to realise any benefits from such investments, in a timely manner, or at all.

12. *If the corporate undertakings provided by us in our assignment of receivables transactions are invoked, it may require outflow in respect of these undertakings and adversely affect our net income.*

We have in the past, assigned and/or securitised a portion of the receivables from our AUM to banks and other institutions. The assignment and/or securitisation transactions were conducted on the basis of our internal estimates of our funding requirements. Any change in the applicable government regulations in relation to assignments/securitisations by HFCs could have an adverse impact on our assignment/securitisation program.

Under some of the assignment and pass through certificate transactions that we undertake, we provide credit support in the form of corporate guarantee or cash collateral. In the case of increase in losses on such transactions, such guarantee or the cash collateral may be enforced.

13. *If we fail to identify, monitor and manage risks and effectively implement our risk management policies, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.*

We have devoted resources to develop our risk management policies and procedures and aim to continue to do so in the future. For details, see “Our Business – Risk and Asset-Liability Management” on page 93. Despite this, our policies and procedures to identify, monitor and manage risks of fraud, money laundering, any other credit, operational or other risks may not be fully effective. Further, some of our methods of managing risks are based upon the use of observed historical market behaviour. As a result, these methods may not accurately predict future risk exposures, which could be significantly greater than those indicated by the historical measures. To the extent any of the instruments and strategies we use to hedge or otherwise manage our exposure to market or credit risk are not effective, we may not be able to mitigate effectively our risk exposures in particular market environments or against particular types of risk.

Our investment and interest rate risk are dependent upon our ability to properly identify, and mark-to-market changes in the value of financial instruments caused by changes in market prices or rates. Our earnings are dependent upon the effectiveness of our management of changes in credit quality and risk concentrations, the accuracy of our valuation models and our critical accounting estimates and the adequacy of our allowances for loan losses.

To the extent our assessments, assumptions or estimates prove inaccurate or not predictive of actual results, we could suffer higher than anticipated losses. See “- Internal Risks and Risks Associated with our Business - Any increase in the levels of NPAs in our AUM, for any reason whatsoever, would adversely affect our business, results of operations and financial condition” on page 12.

If we fail to effectively implement our risk management policies, it could materially and adversely affect our business, financial condition, results of operations and cash flows.

14. *As a HFC, we have significant exposure to the real estate sector and any negative events affecting this sector could adversely affect our business and result of operations.*

Our lending products include housing loans, loans against property and corporate mortgage loans. A substantial portion of our AUM is exposed to the real estate sector as the underlying security on these loans is primarily mortgages. In the event the real estate sector is adversely affected due to any reason whatsoever, including without limitation, the passing of any stringent norms regarding construction, floor space index or other compliances, the value of our collaterals may diminish which may affect our business and results of operations in the event of a default in repayment by our clients. Also, if any of the projects which form part of our collateral are stalled for any reason for any length of time, the same may affect our ability to enforce our security, thereby effectively diminishing the value of such security.

The primary security for the loans disbursed by us is the underlying property; the value of this security is largely dependent on housing market conditions prevalent at that time, as well the quality of the construction and the relevant developer. The value of the collateral on the loans disbursed by us may decline due to adverse market conditions including an economic downturn or a downward movement in real estate prices. In the event the real estate sector is adversely affected due to a decline of demand for real properties, changes in regulations or other trends or events, which negatively impact the real estate sector, the value of our collaterals may diminish which may affect our business and results of operations. Failure to recover the expected value of collateral could expose us to losses and, in turn, result in a material adverse effect on our business, results of operations and financial condition.

Following the introduction of the SARFAESI Act and the subsequent extension of its application to HFCs, we are allowed to foreclose on collateral and take certain other actions, including take over the management of the business of the borrower, including its right to transfer (in any manner) the underlying collateral after 60 days' notice to a borrower whose loan has been classified as non-performing. Although the enactment of the SARFAESI Act has strengthened the rights of creditors by allowing expedited enforcement of security in an event of default, there is still no assurance that we will be able to realize the value of our collateral, in full or in part. The Debt Recovery Tribunal ("DRT") has the power to issue a stay order prohibiting the lender from selling the assets of a defaulted borrower. As a result, there can be no assurance that any foreclosure proceedings would not be stayed by the DRT or any other relevant authority. In addition, delays on our part to take immediate action, delays in bankruptcy foreclosure proceedings, economic downturns, defects in security and fraudulent transfers by borrowers, may hinder our ability to realize the full value of security. In the event that a regulatory agency asserts jurisdiction over the enforcement proceedings, creditor actions can be further delayed. Therefore, there can be no assurance that we will be able to foreclose on collateral on a timely basis, or at all, and if we are able to foreclose on the collateral, that the value will be sufficient to cover the outstanding amounts owed to us which may result in a material adverse effect on our business, results of operations and financial condition.

In addition, the RBI has developed a corporate debt restructuring process to enable timely and transparent debt restructuring of corporate entities that are beyond the jurisdiction of the Board of Industrial and Financial Reconstruction, the DRT. The applicable RBI guidelines contemplate that in the case of indebtedness aggregating ₹1,000 million or more, creditors for more than 75% of such indebtedness by value and 60% by number may determine the restructuring of such indebtedness and such determination is binding on the remaining creditors. In circumstances where other lenders account for more than 75% of such indebtedness by value and 60% by number and they are entitled to determine the restructuring of the indebtedness of any of our borrowers, we may be required by such other lenders to agree to such debt restructuring, irrespective of our preferred mode of settlement of our loan to such borrower. In addition, with respect to any loans granted by us through a consortium, a majority of the relevant lenders may elect to pursue a course of action that may not be favourable to us. Any such debt restructuring could lead to an unexpected loss that could adversely affect our business, results of operations and financial condition.

15. *Our ability to pay dividends in the future will depend upon our earnings, financial condition, cash flows and capital requirements.*

Dividends that we have paid in the past may not be reflective of the dividends that we may pay in a future period. Our ability to pay dividends in the future will depend on our earnings, financial condition, cash flows and capital requirements as well as existing restrictive covenants in our financing arrangements. Dividends distributed by us may also be subject to the requirements prescribed by the applicable laws and regulations. For instance, the NHB Act requires HFCs to create a reserve fund and transfer therein, not less than 20% of its net profits every year (as disclosed in its profit and loss account) before any dividend is declared. There can be no assurance that we will be able to pay dividends in the future.

16. *We may not be able to secure the requisite amount of financing at competitive rates for our growth plans, which could adversely affect our business, financial condition and results of operations.*

Our liquidity and ongoing profitability are, in large part, dependent upon our timely access to, and the costs associated with, raising capital. Our funding requirements historically have been met predominantly from a combination of

borrowings such as term loans and external commercial borrowings from banks and financial institutions, non-convertible debentures and issuance of commercial paper. Thus, our continued growth will depend, among other things, on our ability to secure requisite financing at competitive rates, to manage our expansion process, to make timely capital investments, to control input costs and to maintain sufficient operational control.

Our inability to secure requisite financing could have an adverse effect on our business, financial condition and results of operations. Changes in Indian laws and regulations, our lenders or debt instruments can disrupt funding sources which would have a material adverse effect on our liquidity and financial condition. Further, any inability on our part to secure requisite financing or continue with our existing financing arrangement could have an adverse effect on our business, financial condition and results of operations.

17. *Our ability to raise foreign capital may be constrained by Indian law.*

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted without onerous conditions, or at all. Limitations on raising foreign debt may have an adverse effect on our business, results of operations and financial condition.

18. *Our investments are subject to market risk and our exposure to capital markets is subject to certain regulatory limits.*

We invest our surplus funds out of our borrowings and operations in mutual funds and / or fixed income securities. These securities include government securities, bonds carrying sovereign guarantee, bonds issued by state governments or public sector enterprises, mutual fund investments, fixed deposits with banks and other bonds. Certain of these investments are unlisted, offering limited exit options. The value of these investments depends on several factors beyond our control, including the domestic and international economic and political scenario, inflationary expectations and the RBI's monetary policies. Any decline in the value of the investments may have an adversely effect on our business, financial condition and results of operations.

19. *We have contingent liabilities as at March 31, 2016 and our financial condition may be adversely affected if these contingent liabilities materialize.*

We have substantial contingent liabilities, which could adversely affect our business and results of operations. Our contingent liabilities aggregated to ₹2,105.5 million on a consolidated basis as at March 31, 2016. The contingent liabilities consist primarily of liabilities on account of income tax disputes, tax payments, corporate guarantees in respect securitisation/ assignment agreements entered into by us and acquisition of fixed assets. In the event that any of these contingent liabilities materialize, our results of operation and financial condition may be adversely affected. For further information, see "Financial Statements" on page 138.

20. *Our business and operations significantly depend on senior management and key employees and may be adversely affected if we are unable to retain them.*

Our business and operations largely depend on the continued services and performance of our senior management and other key employees and our ability to attract and retain such personnel. Considering the compact nature of our management team, our ability to identify, recruit and retain our employees is critical. As common to the non-banking finance industry we also face a continuing challenge to recruit and retain a sufficient number of suitably skilled personnel, knowledgeable in sectors to which we lend. There is significant competition in India for such personnel, and it may be difficult to attract, adequately compensate and retain the personnel we need in the future. Inability to attract and retain appropriate and adequate managerial personnel, or the loss of key personnel could adversely affect our business, prospects, results of operations, financial condition. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train and motivate our employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer service, divert

management resources, increase our exposure to high-risk credit and impose significant costs on us. Hiring and retaining qualified and skilled managers are critical to our future, as our business model depends on our credit-appraisal and asset valuation mechanism, which are personnel-driven operations. The loss of the services of our senior members of our management team and key employees could seriously impair our ability to continue to manage and expand our business efficiently and adversely affect our business, results of operations and financial condition. Further, we also do not maintain any key man insurance policies, and as a result, we may be unable to compensate for the loss of service of our key personnel.

21. *Our business is dependent on relationships with our clients established through, amongst others, our branches. Closure of branches or loss of our key branch personnel may lead to damage to these relationships and a decline in our revenue and profits.*

Our business is dependent on the key branch personnel who directly manage client relationships. We encourage dedicated branch personnel to service specific clients since we believe that this leads to long-term client relationships, a trust based business environment and, over time, better cross-selling opportunities. Our business may suffer materially if a substantial number of branch managers either become ineffective or leave us.

22. *There have been incidents of fraud committed by our employees and customers in the past. There can be no assurance that such incident will not recur in the future. If such incidents of fraud recur or if we are unable to prevent them, our business, results of operation and financial condition may be adversely affected.*

Our business is susceptible to fraud committed by our employees and customers. In the past, there have been certain incidents of fraud committed by our employees and customers. We cannot assure you that such incidents of fraud will not recur in the future. There can also be no assurance that we would be able to prevent frauds in the future or that our existing mechanism to detect or prevent fraud will be sufficient. Any frauds discovered in the future may have an adverse effect on our business, results of our operations and financial condition.

23. *Certain of our Subsidiaries have incurred losses in the past and may be unable to achieve or sustain profitability in the future, which may adversely affect our business, financial condition and results of operations.*

Certain of our Subsidiaries incurred losses during Fiscal Years 2016, 2015 and 2014, as set out below:

Name of the Subsidiary	Loss after tax for the year ended March 31,		
	2016	2015	2014
Indiabulls Asset Holding Company Limited	-	-	0.1
Indiabulls Asset Management Company Limited	-	37.5	28.9
Indiabulls Holdings Limited	-	-	0.1
Indiabulls Life Insurance Company Limited	-	0.5	3.6
Indiabulls Trustee Company Limited	0.9	-	-
Indiabulls Venture Capital Management Company Limited	-	-	0.1
Indiabulls Venture Capital Trustee Company Limited	-	-	0.1

There can be no assurance that our Subsidiaries will achieve or sustain profitability in the future. Any losses incurred by our Subsidiaries may have a material adverse effect on our business, financial condition and results of operations.

24. *A failure, inadequacy or security breach in our information technology and telecommunication systems may adversely affect our business, results of operation and financial condition.*

Our ability to operate and remain competitive depends in part on our ability to maintain and upgrade our information technology systems and infrastructure on a timely and cost-effective basis, including our ability to process a large number of transactions on a daily basis. Our operations also rely on the secure processing, storage and transmission

of confidential and other information in our computer systems and networks. Our financial, accounting or other data processing systems and management information systems or our corporate website may fail to operate adequately or become disabled as a result of events that may be beyond our control, including a disruption of electrical or communications services. Further, our computer systems, software and networks may be vulnerable to unauthorized access, computer viruses or other attacks that may compromise data integrity and security and result in client information or identity theft, for which we may potentially be liable. Further, the information available to and received by our management through our existing systems may not be timely and sufficient to manage risks or to plan for and respond to changes in market conditions and other developments in our operations. If any of these systems are disabled or if there are other shortcomings or failures in our internal processes or systems, it may disrupt our business or impact our operational efficiencies, and render us liable to regulatory intervention or damage to our reputation. The occurrence of any such events may adversely affect our business, results of operation and financial condition.

25. ***We depend on the accuracy and completeness of information provided by our potential borrowers. Our reliance on any misleading information given by potential borrowers may affect our judgment of credit worthiness of potential borrowers, and the value of and title to the collateral, which may affect our business, results of operations and financial condition.***

In deciding whether to extend credit or enter into other transactions with potential borrowers, we rely on information furnished to us by potential borrowers, and analysis of the information by independent valuers and advocates. To further verify the information provided by potential borrowers, we conduct searches on Credit Information Bureau (India) Limited (“**CIBIL**”) and other credit bureaus for creditworthiness of our borrowers. We also verify information with registrar and sub-registrar of assurances for encumbrances on collateral. We follow the KYC guidelines as prescribed by the NHB on the potential borrower, verify the place of business or place of employment as applicable to the potential borrower and also verify the details with the caution list of the NHB as circulated from time to time. Such information includes representations with respect to the accuracy and completeness of information relating to the financial condition of potential borrowers, and independent valuation reports and title reports with respect to the property secured. Additionally, once a prospective borrower has submitted a completed loan application, our empanelled third-party agencies conduct various on-site checks to verify the prospective customer's work and home addresses. We have framed our policies to prevent frauds in accordance with the KYC guidelines issued by NHB dated October 11, 2010 mandating the policies of HFCs to have certain key elements, including, *inter-alia*, a customer acceptance policy, customer identification procedures, monitoring of transactions and risk management. Further, we have a well-established and streamlined credit appraisal process. We cannot assure you that information furnished to us by potential borrowers and analysis of the information by independent valuers or the independent searches conducted by us with credit bureaus and NHB, or the on-site verification conducted by our empanelled third party agencies will be accurate, and our reliance on such information given by potential borrowers may affect our judgment of the credit worthiness of potential borrowers, and the value of and title to the collateral, which may affect our business, results of operations and financial condition.

26. ***The growth rate of India's housing finance industry may not be sustainable.***

We expect the housing finance industry in India to continue to grow as a result of anticipated growth in India's economy, increases in household income, further social welfare reforms and demographic changes. However, it is not clear how certain trends and events, such as the pace of India's economic growth, the development of domestic capital markets and the ongoing reform will affect India's housing finance industry. In addition, there can be no assurance that the housing finance industry in India is free from systemic risks. Consequently, there can be no assurance that the growth and development of India's housing finance industry will be sustainable.

27. ***The Indian housing finance industry is competitive and increasing competition may result in declining margins if the Company is unable to compete effectively, which may adversely affect the Company's business, prospects, financial condition and results of operations.***

Our Company's principal business is the provision of housing finance in India.

Our Company faces increasing competition from other housing finance companies (“HFCs”), non-banking financial companies (“NBFCs”) and commercial banks, which have focused on growing their retail portfolios in recent years. Interest rate deregulation and other liberalisation measures affecting the housing finance industry, together with increased demand for home finance, have increased our Company’s exposure to competition. The demand for housing loans has also increased due to relatively affordable interest rates, stable property prices, higher disposable incomes and increased fiscal incentives for borrowers. All of these factors have resulted in HFCs, including our Company, facing increased competition from other lenders in the retail housing market, including NBFCs and commercial banks. Unlike commercial banks, our Company does not have access to funding from savings and current deposits of customers. Instead, our Company is reliant on higher-cost term loans, term deposits and debentures and securities for its funding requirements, which may reduce its margins compared to competitors. Our Company’s ability to compete effectively with commercial banks will depend, to some extent, on its ability to raise low-cost funding in the future. If our Company is unable to compete effectively with other participants in the housing finance industry, this may adversely affect our Company’s business, prospects, financial condition and results of operations.

If there is an increase in the interest rates that our Company pays on its borrowings, which it is unable to pass to its customers, our Company may find it difficult to compete with its competitors who may have access to lower cost of funds. Further, to the extent that our Company’s borrowings are linked to market interest rates, our Company may have to pay interest at a higher rate than lenders that borrow only at fixed interest rates. Fluctuations in interest rates may also adversely affect our Company’s treasury operations. In a rising interest rate environment, especially if the rise is sudden or sharp, our Company could be adversely affected by the decline in the market value of its securities portfolio and other fixed income securities.

Furthermore, as a result of increased competition in the Indian housing finance industry, housing loans are becoming increasingly standardised and terms such as floating rate interest options, lower processing fees and monthly rest periods are becoming increasingly common. There can be no assurance that our Company will be able to react effectively to these, or other market developments, or compete effectively with new and existing players in this increasingly competitive industry. Increasing competition may have an adverse effect on our Company’s net interest margin and other income and, if our Company is unable to compete successfully, its market share may decline as the origination of new loans declines, which may in turn adversely affect our Company’s business, prospects, financial condition and results of operations.

28. *Our insurance coverage may not adequately protect us against losses, and successful claims that exceed our insurance coverage could harm our results of operations and diminish our financial position.*

We maintain insurance coverage of the type and in the amounts that we believe are commensurate with our operations. For further details on our insurance coverage, see “Our Business – Insurance” on page 93. Our insurance policies, however, may not provide adequate coverage in certain circumstances and may be subject to certain deductibles, exclusions and limits on coverage. In addition, there are various types of risks and losses for which we do not maintain insurance because they are either uninsurable or because insurance is not available to us on acceptable terms. A successful assertion of one or more large claims against us that exceeds our available insurance coverage or results in changes in our insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business, financial condition and results of operations.

29. *We do not own a majority of our branch offices including our registered office and corporate offices. Any termination or failure on our part to renew our Lease/Rent Agreements in a favourable, timely manner, or at all, could adversely affect our business and results of operations. Moreover many of the lease/rent agreements entered into by our Company may not be duly registered or adequately stamped.*

Most of our branch offices including our registered office and corporate offices are located on leased/rented premises. Some of the lease/rent agreements may have expired and we maybe currently involved in negotiations for the renewal of these lease/rent agreements. If these lease/rent agreements are not renewed or renewed on unfavourable to us, we may suffer a disruption in our operations or increased costs, or both, which may affect our business and results of operations.

Further, most of our lease/rent agreements may not be adequately stamped or duly registered. Unless such documents are adequately stamped or duly registered, such documents may be rendered inadmissible as evidence in a court in India or may not be authenticated by any public officer and the same may attract penalty as prescribed under applicable law or may impact our ability to enforce these agreements legally, which may result in an adverse effect on the continuance of the operations and business of our Company.

30. *We have entered into a number of related party transactions and may continue to enter into related party transactions, which may involve conflicts of interest.*

We have entered into a number of related party transactions, within the meaning of AS-18. Such transactions may give rise to current or potential conflicts of interest with respect to dealings between us and such related parties. Additionally, there can be no assurance that any dispute that may arise between us and related parties will be resolved in our favour. For further details, please refer to the statement of related party transactions in “Financial Statements” on page 138.

31. *We are subject to risks arising from exchange rate fluctuations, which could materially and adversely affect our business and financial conditions.*

As at March 31, 2016, we had standalone foreign currency borrowings amounting to USD 366.0 million (₹24,274.3 million), representing 4.0% of our consolidated borrowings. Our Subsidiaries do not have any foreign currency borrowings. The exchange rate between Indian Rupees and U.S. Dollars has changed substantially in recent years and may fluctuate substantially in the future. While we have entered into various hedging arrangements to hedge the entire balance sheet risk on our exposure to foreign exchange fluctuations, we cannot assure you that our existing hedging arrangements will adequately reduce our foreign currency exchange risk or protect us against any unfavourable exchange rate fluctuations. Any depreciation in the value of Indian Rupees against U.S. Dollars could cause an increase in our interest expenses, reduce the profitability of our business and have a material and adverse effect on our cash flows, results of operations and financial condition. We may also be unable to pass on any increase in our costs due to foreign currency fluctuations to our customers, and as a result, our revenue and profitability may decline.

For information on certain historical exchange rates between the Rupee and the U.S. dollar, see “Certain Conventions, Use of Financial Industry and Market Data and Currency of Presentation - Exchange Rate” on page 9.

32. *We may be unable to protect our logos, brand names and other intellectual property rights which are critical to our business.*

Our Company has not made an application for and consequently does not own trademark registrations for certain logos used in our business, including our corporate logo appearing on the cover page of this Prospectus. Further, our Company had trademark protection over the “Indiabulls” mark until October 2013, subsequent to which, the registration has not been renewed. While we made an application for fresh registrations of the “Indiabulls” mark on September 7, 2015, this application is currently pending.

Accordingly, we may not be able to prohibit the use of our intellectual property by any third party and may, in the future, face claims and legal actions by third parties that may use, or dispute our right to use, the logos and brand names under which our business currently operates. We may be required to resort to legal action to protect our logos and brand names. Any adverse outcome in such legal proceedings may impact our ability to use our logos, brand names and other intellectual property in the manner in which such intellectual property is currently used or at all, which can have a material adverse effect on our business and our financial condition.

Additionally, the Indiabulls brand that we operate under is shared between members of the Indiabulls group of companies, a diversified set of businesses in the financial services, real estate and securities sector (including, but not limited to, our Subsidiaries). We have not, in the past, entered into, or do not currently have agreements with any of the other members of the Indiabulls group of companies to share this brand. Accordingly, we will have no recourse against any of these companies in the event of any misuse by them of the brand, or any adverse effect on their

business, operations or financial performance that leads to diminution in the value of the brand, which could materially affect our reputation, business and results of operations.

33. *We depend on third party selling agents for referral of a certain portion of our customers, who do not work exclusively for us.*

We depend on external direct selling agents (“DSAs”), who are typically proprietorships and self-employed professionals, to source a portion of our customers. Such DSAs pass on leads of any loan requirements of these small businesses to us. Our agreements with such DSAs typically do not provide for any exclusivity, and accordingly, such DSAs can work with other lenders, including our competitors. There can be no assurance that our DSAs will continue to drive a significant number of leads to us, and not to our competitors, or at all.

34. *Certain of our documents may bear higher stamp duty than we have paid and as a result, our cash flows and results of operations may be adversely affected.*

In relation to assignment/ securitisation transactions executed by us in relation to our AUM, we have entered into certain documentation, wherein we have, in accordance with industry practice, agreed to bear all costs in relation to stamp duty payable in respect of the assignment/ securitisation documents. Most of these transactions involve loans (and underlying mortgages) situated across India, and not just the jurisdiction where the documents in relation to the assignment/ securitisation are stamped. If any of the transaction documents in relation to these assignment/ securitisation transactions, are for any reason, taken out of the state in which stamp duty has been paid, including for registration of the same in the state where the underlying property is situated, there may be an additional stamp duty implication us, to the extent of the difference between the stamp duty payable in such state and the stamp duty already paid. Any such liability may have a financial impact on our cash flows and results of operations.

External Risks

35. *A slowdown in economic growth in India may adversely affect our business and results of operations.*

Our financial performance and the quality and growth of our business depend significantly on the health of the overall Indian economy, the gross domestic product growth rate and the economic cycle in India. A substantial portion of our assets and employees are located in India, and we intend to continue to develop and expand our facilities in India.

Our performance and the growth of our business depend on the performance of the Indian economy and the economies of the regional markets we currently serve. These economies could be adversely affected by various factors, such as political and regulatory changes including adverse changes in liberalization policies, social disturbances, religious or communal tensions, terrorist attacks and other acts of violence or war, natural calamities, interest rates, commodity and energy prices and various other factors. Any slowdown in these economies could adversely affect the ability of our customers to afford our services, which in turn would adversely impact our business and financial performance and results of operations.

36. *The growth rate of India’s housing finance industry may not be sustainable.*

We expect the housing finance industry in India to continue to grow as a result of anticipated growth in India’s economy, increases in household income, further social welfare reforms and demographic changes. However, it is not clear how certain trends and events, such as the pace of India’s economic growth, the development of domestic capital markets and the ongoing reform will affect India’s housing finance industry. In addition, there can be no assurance that the housing finance industry in India is free from systemic risks. Consequently, there can be no assurance that the growth and development of India’s housing finance industry will be sustainable.

37. *If inflation were to rise in India, we might not be able to increase the prices of our products at a proportional rate in order to pass costs on to our customers and our profits might decline.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. According to

the Monthly Economic Report for June 2016 prepared by the Department of Economic Affairs, Ministry of Finance, GoI, the year-on-year inflation in terms of the WPI was (0.7)% for the month of June 2016 as compared to (0.1)% in June 2015. The RBI's Monetary Policy Statement released in April 2014 stated that core inflation is expected to be below 6 per cent for the fiscal year. The main risks to the outlook are uncertainties such as commodity prices, monsoon and weather-related disturbances, volatility in prices of seasonal items and spillovers from external developments through exchange rate and asset price channels, according to the RBI. In its Mid-Quarter Monetary Policy Report as of September 2015, the RBI highlighted that inflation had been firming up and forecasted inflation to pick up in the short term.

In the event of increasing inflation in India, our costs, such as operating expenses, may increase, which could have an adverse effect on our business, results of operations and financial condition.

38. *Our business and activities may be affected by competition law in India.*

On March 4, 2011, the Government of India notified and brought into force the combination regulation (merger control) provisions under the Competition Act with effect from June 1, 2011. The combination regulation provisions require that acquisition of shares, voting rights, assets or control or mergers or amalgamations which cross the prescribed asset and turnover based thresholds shall be mandatorily notified to and pre-approved by the CCI. In addition, on May 11, 2011, the CCI issued the final Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations, 2011 which sets out the mechanism for implementation of the combination regulation provisions under the Competition Act. It is unclear as to how the Competition Act and the CCI will affect the business environment in India.

If we are adversely impacted, directly or indirectly, by any provision of the Competition Act, or its application or interpretation, generally or specifically in relation to any merger, amalgamation or acquisition proposed by us, or any enforcement proceedings initiated by the CCI, either *suo moto* or pursuant to any complaint, for alleged violation of any provisions of the Competition Act, our business, financial condition and results of operations may be materially and adversely affected.

39. *We may have to comply with stricter regulations and guidelines issued by regulatory authorities in India, including the NHB.*

We are regulated principally by and have reporting obligations to the NHB. We are also subject to the corporate, taxation and other laws in effect in India. The regulatory and legal framework governing us differs in certain material respects from that in effect in other countries and may continue to change as India's economy and commercial and financial markets evolve. In recent years, existing rules and regulations have been modified, new rules and regulations have been enacted and reforms have been implemented which are intended to provide tighter control and more transparency in India's housing finance sector.

40. *Significant differences exist between Indian GAAP and other accounting principles, such as US GAAP and IFRS, which may be material to investors' assessments of our financial condition.*

Our financial statements, including the financial statements provided in this Prospectus, are prepared in accordance with Indian GAAP. We have not attempted to quantify the impact of IFRS or U.S. GAAP on the financial data included in this Prospectus, nor do we provide a reconciliation of its financial statements to those of U.S. GAAP or IFRS. U.S. GAAP and IFRS differ in significant respects from Indian GAAP. Accordingly, the degree to which the Indian GAAP financial statements included in this Prospectus will provide meaningful information entirely depends on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should accordingly be limited.

41. *Our Company will be subject to a number of new accounting standards that may significantly impact its financial statements, which may adversely affect the manner in which it accounts for losses and its results of operations*

Our Company's results of operations and financial condition will be affected by certain changes to Indian GAAP, which are intended to align Indian GAAP further with IFRS. These new Indian Accounting Standards ("Ind-AS") will change our Company's methodology for estimating allowances for probable loan losses. New accounting standards may require our Company to value its non-performing loans by reference to their market value (if a ready market for such loans exists), or to calculate the present value of the expected future cashflows realisable from our Company's loans, including the possible liquidation of collateral (discounted at the loan's effective interest rate) in estimating allowances for probable losses. This may result in our Company recognizing higher allowances for probable loan losses in the future, which will adversely affect the results of its operations.

The Institute of Chartered Accountants of India ("ICAI") has issued a Guidance Note on Accounting for Derivative Contracts effective from April 1, 2016. The guidance note requires all derivative contracts and their underlying to be marked to market and tested for hedge effectiveness and the ineffective portion if any, would be charged to the Statement of Profit and Loss. There would be a one-time adjustment to the reserves on all such outstanding contracts as at April 1, 2016 i.e. the transition date. The exact quantum of the adjustment to the reserves would be ascertained at the time of the first quarter results of our Company in Fiscal Year 2017. Thereafter, at each reporting period, the charge / credit to the Hedging Reserve / Statement of Profit and Loss will depend upon the changes in the mark to market based on the actual exchange rates prevalent at each quarter end. The exchange difference on the long term foreign currency monetary assets and liabilities which are not covered by derivative contracts (such as dollar denominated loans) would continue to be amortised over the life of the contracts.

The Ministry of Corporate Affairs ("MCA") notified the Companies (Indian Accounting Standards) Rules 2015 on February 16, 2015 ("IAS Rules"). The MCA, via its notification dated March 30, 2016, has included Housing Finance Companies in the definition of a "Non-Banking Financial Company" ("NBFC"). The notification further explains that NBFCs having a net worth of Rs 5,000 million or more as of March 31, 2016, shall comply with Indian Accounting Standards ("Ind-AS") for accounting periods beginning on or after April 1, 2018. Our Company has not determined with any degree of certainty the impact such adoption would have on its financial reporting. Although these changes currently do not apply to our Company, should our Company be required to adopt these changes in future there can be no assurance that our Company's financial condition, results of operations, cash flows or changes in shareholders' equity will not appear materially worse under Ind-AS than under Indian GAAP. In any future transition to Ind-AS reporting, our Company may encounter difficulties in the ongoing process of implementing and enhancing its management information systems. Moreover, there is increasing competition for the small number of Ind-AS experienced accounting personnel available as more Indian companies begin to prepare Ind-AS financial statements. Further, there is no significant body of established practice on which to draw in forming judgments regarding the new system's implementation and application.

42. *Companies operating in India are subject to a variety of taxes and surcharges*

Tax and other levies imposed by the central and state governments in India that affect the Issuer's tax liability include central and state taxes and other levies, income tax, value added tax, turnover tax, service tax, stamp duty, tax on dividends and other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time. The central or state government may in the future increase the corporate income tax it imposes. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Additional tax exposure could adversely affect the Issuer's business, cash flows and results of operations.

43. *The proposed new taxation system in India could adversely affect the Issuer's business, prospects, financial condition and results of operations*

The Government has proposed major reforms in Indian tax laws, namely imposition of the goods and services tax and provisions relating to the GAAR.

The Government of India has proposed a comprehensive national goods and services tax ("GST") regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. Both the Houses of the

Parliament have approved the GST Bill and is expected to be implemented with effect from April 1, 2017. While the Government of India and other state governments have announced that all committed incentives will be protected following the implementation of the GST, given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to this or any other aspect of the tax regime following implementation of the GST. These amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable.

As regards GAAR, the provisions were introduced in the Finance Act 2012 and will apply (as per the Finance Act 2015) in respect of an assessment year beginning on April 1, 2018. The GAAR provisions intend to catch arrangements declared as “impermissible avoidance arrangements”, which is any arrangement, the main purpose or one of the main purposes of which is to obtain a tax benefit and which satisfy at least one of the following tests (a) creates rights, or obligations, which are not normally created between persons dealing at arm's length; (b) results, directly or indirectly, in misuse, or abuse, of the provisions of the Income Tax Act 1961; (c) lacks commercial substance or is deemed to lack commercial substance, in whole or in part; or (d) is entered into, or carried out, by means, or in a manner, which is not normally employed for bona fide purposes. If GAAR provisions are invoked, the tax authorities would have wide powers, including denial of tax benefit or a benefit under a tax treaty.

As the taxation system is intended to undergo significant changes, the effect of such changes on the financial system cannot be determined at present and there can be no assurance that such effects would not adversely affect the Issuer's business, prospects, financial condition and results of operations.

44. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Financial turmoil in Asia, Russia and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our Company's business and its future financial performance. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections in recent years. In particular, sub-prime mortgage loans in the United States have experienced increased rates of delinquency, foreclosure and loss. Since September 2008, liquidity and credit concerns and volatility in the global credit and financial markets increased significantly with the bankruptcy or acquisition of, and government assistance extended to, several major U.S. financial institutions. The United States continues to face adverse economic conditions and should a further downgrade of the sovereign credit ratings of the U.S. government occur, it is foreseeable that the ratings and perceived creditworthiness of instruments issued, insured or guaranteed by institutions, agencies or instrumentalities directly linked to the U.S. government could also be correspondingly affected by any such downgrade, which may have an adverse effect on the economic outlook across the world.

Recent developments in the Eurozone have exacerbated the on-going global economic crisis. Large budget deficits and rising public debts in Europe triggered sovereign debt finance crises that resulted in the bailouts of European economies and elevated the risk of government debt defaults, forcing governments to undertake aggressive budget cuts and austerity measures, in turn underscoring the risk of global economic and financial market volatility. Moreover, in 2012, the sovereign ratings of various European Union countries were downgraded. Financial markets and the supply of credit could continue to be negatively impacted by on-going concerns surrounding the sovereign debts and/or fiscal deficits of several countries in Europe, the possibility of further downgrades of, or defaults on, sovereign debt, concerns about a slowdown in growth in certain economies and uncertainties regarding the stability and overall standing of the European Monetary Union.

On June 23, 2016, the United Kingdom held a referendum on its membership of the European Union and voted to leave (“**Brexit**”). There is significant uncertainty at this stage as to the impact of Brexit on general economic conditions in the United Kingdom and the European Union and any consequential impact on global financial markets.

For example, Brexit could give rise to increased volatility in foreign exchange rate movements and the value of equity and debt investments. A lack of clarity over the process for managing the exit and uncertainties surrounding the economic impact could lead to a further slowdown and instability in financial markets.

These and other related events have had a significant impact on the global credit and financial markets as a whole, including reduced liquidity, greater volatility, widening of credit spreads and a lack of price transparency in the United States, Europe and global credit and financial markets.

In response to such developments, legislators and financial regulators in the United States, Europe and other jurisdictions, including India, have implemented several policy measures designed to add stability to the financial markets. However, the overall impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilising effects. In the event that the current adverse conditions in the global credit markets continue or if there is any significant financial disruption, this could have an adverse effect on our Company's business and future financial performance.

45. *Civil unrest, acts of violence including terrorism or war involving India and other countries could materially and adversely affect the financial markets and our business.*

Civil unrest, acts of violence including terrorism or war, may negatively affect the Indian stock markets and also materially and adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, make travel and other services more difficult and ultimately materially and adversely affect our business. Although the governments of India and neighbouring countries have recently been engaged in conciliatory efforts, any deterioration in relations between India and neighbouring countries might result in investor concern about stability in the region, which could materially and adversely affect our business, results of operations and financial condition.

46. *Borrowing for the purchase or construction of property may not continue to offer borrowers the same fiscal benefits it currently offers and the housing sector may not continue to be regarded as a priority sector by the Government, which may adversely affect our Company's business, prospects, financial condition and results of operations.*

The rapid growth in the housing finance industry in India in the last decade is in part due to the introduction of fiscal benefits for homeowners. Since the early 1990s, interest and principal repayments on capital borrowed for the purchase or construction of housing have been tax deductible up to certain limits, and tax rebates have been available for borrowers of such capital up to specified income levels. There can be no assurance that the Government will continue to offer such tax benefits to borrowers at the current levels or at all. In addition, there can be no assurance that the Government will not introduce tax efficient investment options which are more attractive to borrowers than property investment. The demand for housing and/or housing finance may be reduced if any of these changes occur.

The RBI has also provided incentives to the housing finance industry by extending priority sector status to housing loans. In addition, pursuant to Section 36(1)(viii) of the IT Act, up to 20 per cent. of profits from the provision of long-term finance for the construction or purchase of housing in India, may be carried to a "**Special Reserve**" and are not subject to income tax. There can be no assurance that the Government will continue to make this fiscal benefit available to HFCs. If it does not, this may result in a higher tax outflow. *Vide* notification no. NHB(ND)/DRS/Pol. Circular No. 62/2014 dated 27 May 2014, NHB stipulated that all housing finance companies are required to create a deferred tax liability ("**DTL**") on the Special Reserve created from current and past profits, irrespective of whether it is intended to withdraw from such reserve or not.

47. *Financial difficulty and other problems in certain financial institutions in India could adversely affect our business, results of operations and financial condition.*

As an HFC, we are exposed to the risks of the Indian financial system which may be affected by the financial difficulties faced by certain Indian financial institutions because the commercial soundness of many financial institutions may be closely related as a result of credit, trading, clearing or other relationships. This risk, which is sometimes referred to as "systemic risk", may adversely affect financial intermediaries, such as clearing agencies,

banks, securities firms and exchanges with whom we interact on a daily basis. Any such difficulties or instability of the Indian financial system in general could create an adverse market perception about Indian financial institutions and banks and adversely affect our business, results of operations and financial condition. As the Indian financial system operates within an emerging market, it faces risks of a nature and extent not typically faced in more developed economies, including the risk of deposit runs notwithstanding the existence of a national deposit insurance scheme.

48. *Any volatility in the exchange rate and increased intervention by the Reserve Bank of India in the foreign exchange market may lead to a decline in India's foreign exchange reserves and may affect liquidity and interest rates in the Indian economy, which could adversely impact us.*

During the first half of 2014, emerging markets including India, witnessed significant capital outflows due to concerns regarding the withdrawal of quantitative easing in the U.S. and other domestic structural factors such as high current account deficits and lower growth outlook. As a result, the Indian rupee depreciated by 21.1% from ₹56.5 per USD at the end of May 2013 to ₹68.4 per USD on August 28, 2013. To manage the volatility in the exchange rate, the Reserve Bank of India took several measures including increasing in the marginal standing facility rate by 200 basis points and reduction in domestic liquidity. The Reserve Bank of India also subsequently announced measures to attract capital flows, particularly targeting the non-resident Indian community. Subsequent to restoring stability in the exchange rate from September 2013 onwards, the Reserve Bank of India reversed some of these measures. In February 2016, the Indian rupee has continued to experience volatility nearing its record low in August 2013, thereby forcing RBI to intervene again. Any increased intervention in the foreign exchange market or other measures by the Reserve Bank of India to control the volatility of the exchange rate may result in a decline in India's foreign exchange reserves, reduced liquidity and higher interest rates in the Indian economy, which could adversely affect our business and our future financial performance.

49. *A decline in India's foreign exchange reserves may affect liquidity and interest rates in the Indian economy, which could adversely impact us.*

A decline in India's foreign exchange reserves could affect the liquidity and result in higher interest rates in the Indian economy, which could adversely affect our business, our future financial performance, our results of operations and financial condition.

50. *Natural disasters and other disruptions could adversely affect the Indian economy and could adversely affect our business, results of operations and financial condition.*

Our operations, including our branch network, may be damaged or disrupted as a result of natural disasters such as earthquakes, floods, heavy rainfall, epidemics, tsunamis and cyclones and other events such as protests, riots and labor unrest. Such events may lead to the disruption of information systems and telecommunication services for sustained periods. They also may make it difficult or impossible for employees to reach our business locations. Damage or destruction that interrupts our provision of services could adversely affect our reputation, our relationships with our customers, our senior management team's ability to administer and supervise our business or it may cause us to incur substantial additional expenditure to repair or replace damaged equipment or rebuild parts of our branch network. Any of the above factors may adversely affect our business, results of operations and financial condition.

51. *An outbreak of an infectious disease or any other serious public health concerns in India or elsewhere could adversely affect our business.*

The outbreak of an infectious disease in India or elsewhere or any other serious public health concern could have a negative impact on the global economy, financial markets and business activities worldwide, which could adversely affect our business. Although, we have not been adversely affected by such outbreaks in the past, we can give you no assurance that a future outbreak of an infectious disease or any other serious public health concern will not have a material adverse effect on our business.

Risks pertaining to this Issue

- 52. *If we do not generate adequate profits, we may not be able to maintain an adequate DRR for the NCDs issued pursuant to this Prospectus, which may have a bearing on the timely redemption of the NCDs by our Company.***

Regulation 16 of the SEBI Debt Regulations and Section 71 of the Companies Act, 2013 states that any company that intends to issue debentures must create a Debenture Redemption Reserve out of the profits of the company available for payment of dividend until the redemption of the debentures. Further, the Companies (Share Capital and Debentures) Rules, 2014 states that the Company shall create Debenture Redemption Reserve and ‘the adequacy’ of DRR will be 25% of the value of the debentures outstanding as on the date, issued through public issue as per present SEBI Debt regulations. Accordingly, if we are unable to generate adequate profits, the DRR created by us may not be adequate to meet the 25% of the value of the debentures outstanding as on the date. Further, every company required to create Debenture Redemption Reserve shall on or before the 30th day of April in each year, invest or deposit, as the case may be, a sum which shall not be less than fifteen percent, of the amount of its debentures maturing during the year ending on the 31st day of March of the next year, in any one or more of the following methods, namely: (i) in deposits with any scheduled bank, free from any charge or lien; (ii) in unencumbered securities of the Central Government or of any State Government; (iii) in unencumbered securities mentioned in sub-clauses (a) to (d) and (ee) of Section 20 of the Indian Trusts Act, 1882; (iv) in unencumbered bonds issued by any other company which is notified under sub-clause (f) of Section 20 of the Indian Trusts Act, 1882; and (v) the amount invested or deposited as above shall not be used for any purpose other than for redemption of debentures maturing during the year referred above provided that the amount remaining invested or deposited, as the case may be, shall not at any time fall below fifteen percent of the amount of the debentures maturing during the year ending on the 31st day of March of that year. If we do not generate adequate profits, we may not be able to maintain an adequate DRR for the NCDs issued pursuant to the Prospectus, which may have a bearing on the timely redemption of the NCDs by our Company.

- 53. *Changes in interest rates may affect the price of our NCDs.***

All securities where a fixed rate of interest is offered, such as our NCDs, are subject to price risk issue. The price of such securities will vary inversely with changes in prevailing interest rates, i.e. when interest rates rise, prices of fixed income securities tend to fall and when interest rates drop, the prices tend to increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the price of our NCDs.

- 54. *You may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the NCDs.***

Our ability to pay interest accrued on the NCDs and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors inter-alia including our financial condition, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the NCDs and/or the interest accrued thereon in a timely manner or at all. Although our Company will create appropriate security in favour of the Debenture Trustee for the NCD holders on the assets adequate to ensure minimum 100.00% asset cover for the NCDs, which shall be free from any encumbrances, the realisable value of the assets charged as security, when liquidated, may be lower than the outstanding principal and/or interest accrued thereon in connection with the NCDs. A failure or delay to recover the expected value from a sale or disposition of the assets charged as security in connection with the NCDs could expose you to a potential loss.

- 55. *There is no assurance that the NCDs issued pursuant to this Issue will be listed on Stock Exchanges in a timely manner, or at all.***

In accordance with Indian law and practice, permissions for listing and trading of the NCDs issued pursuant to this Issue will not be granted until after the NCDs have been issued and Allotted. Approval for listing and trading will

require all relevant documents to be submitted and carrying out of necessary procedures with the Stock Exchanges. There could be a failure or delay in listing the NCDs on the Stock Exchanges for reasons unforeseen. If permission to deal in and for an official quotation of the NCDs is not granted by the Stock Exchanges, our Company will forthwith repay, without interest, all monies received from the Applicants in accordance with prevailing law in this context, and pursuant to this Prospectus.

There is no assurance that the NCDs issued pursuant to this Issue will be listed on Stock Exchanges in a timely manner, or at all.

56. *Our Company may raise further borrowings and charge its assets after receipt of necessary consents from its existing lenders.*

Our Company may, subject to receipt of all necessary consents from its existing lenders and the Debenture Trustee to the Issue, raise further borrowings and charge its assets. Our Company is free to decide the nature of security that may be provided for future borrowings. In such a scenario, the NCD holders will rank *pari passu* with other charge holder and to that extent, may reduce the amounts recoverable by the NCD holders upon our Company's bankruptcy, winding-up or liquidation.

57. *Payments to be made on the NCDs will be subordinated to certain tax and other liabilities preferred by law. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining to pay amounts due on the NCDs.*

The NCDs will be subordinated to certain liabilities preferred by law such as the claims of the Government on account of taxes, and certain liabilities incurred in the ordinary course of our business. In particular, in the event of bankruptcy, liquidation or winding-up, our Company's assets will be available to pay obligations on the NCDs only after all of those liabilities that rank senior to these NCDs have been paid as per Section 327 of the Companies Act, 2013. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining to pay amounts due on the NCDs.

58. *You may be subject to taxes arising on the sale of the NCDs.*

Sales of NCDs by any holder may give rise to tax liability, as discussed in "Statement of Tax Benefits" on page 77.

59. *There may be no active market for the non-convertible debentures on the WDM segment of the stock exchange. As a result, the liquidity and market prices of the non-convertible debentures may fail to develop and may accordingly be adversely affected.*

There can be no assurance that an active market for the NCDs will develop. If an active market for the NCDs fails to develop or be sustained, the liquidity and market prices of the NCDs may be adversely affected. The market price of the NCDs would depend on various factors inter alia including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country; (ii) the market for listed debt securities; (iii) general economic conditions; and (iv) our financial performance, growth prospects and results of operations. The aforementioned factors may adversely affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs and/or be relatively illiquid.

60. *The fund requirement and deployment mentioned in the Objects of the Issue have not been appraised by any bank or financial institution*

We intend to use the proceeds of the Issue, after meeting the expenditures of and related to the Issue, for the purpose of onward lending, financing, and for repayment of interest and principal of existing borrowings of the Company. For further details, see "Objects of the Issue" on page 75. The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. The management will have significant flexibility in applying the proceeds received by us from the Issue. Further, as per the provisions of the Debt Regulations, we are not required to appoint a monitoring agency and therefore no monitoring agency has been

appointed for the Issue.

61. *There may be a delay in making refund to Applicants.*

We cannot assure you that the monies refundable to you, on account of (i) withdrawal of your applications, (ii) our failure to receive minimum subscription in connection with the Base Issue, (ii) withdrawal of the Issue, or (iii) failure to obtain the final approval from the Stock Exchanges for listing of the NCDs, will be refunded to you in a timely manner. We however, shall refund such monies, with the interest due and payable thereon as prescribed under applicable statutory and/or regulatory provisions.

SUMMARY OF BUSINESS

The following information is qualified in its entirety, and should be read together with the more detailed financial and other information included in this Prospectus, including the information contained in "Financial Information" and "Risk Factors" on pages 138 and 12, respectively, of this Prospectus. Except as indicated otherwise, all references in this section to "we", "us", "our" or "our Company" are to Indiabulls Housing Finance Limited, its Subsidiaries and Associate Company, as appropriate.

OVERVIEW

We are one of the largest housing finance companies ("HFCs") in India. We are a non-deposit taking HFC registered with the NHB. We are also a notified financial institution under the SARFAESI Act.

We focus primarily on long-term secured mortgage-backed loans. We offer housing loans and loans against property to our target client base of salaried and self-employed individuals and small and medium-sized enterprises. We also offer mortgage loans to real estate developers in India in the form of lease rental discounting for commercial premises and construction finance for the construction of residential premises. The majority of our assets under management ("AUM") comprise housing loans, including in the affordable housing segment. For the Fiscal Year 2016, our housing loans were disbursed at an average ticket size of ₹2.5 million, with an average LTV ratio of 71% (at origination).

As of March 31, 2016, we had offices spread across over 110 locations in India. We also have two representative offices in Dubai and London to target NRI clients. Our offices include our head office, master service centres, branch offices and service centres. Our network gives us a pan-India presence across Tier I, Tier II and Tier III cities in India. Our network also allows us to interact with and service our customers at the local level whilst ensuring that credit decisions are taken only at regional hubs in accordance with defined internal parameters and protocols. As of March 31, 2016, we had a direct sales team of over 2,500 employees who were located across our network. This sales team is instrumental in sourcing the majority of our customers. We also rely on external channels, such as direct sales agents for referring potential customers.

Our consolidated borrowings as at March 31, 2016 were ₹610,853.1 million and our standalone borrowings as at June 30, 2016 were ₹651,747.6 million, respectively. We rely on long-term and medium-term borrowings from banks and other financial institutions, including external commercial borrowings, issuances of non-convertible debentures and commercial papers. We have a diversified lender base, comprising PSU and private banks, mutual funds, insurance companies, provident funds, pension funds and other financial institutions. We also sell down parts of our portfolio through securitization and/ or direct assignment of loan receivables to various banks, insurance companies and other financial institutions, which is another source of liquidity for us.

We have the highest long-term credit ratings of "AAA" (for our long-term loans and non-convertible debentures) from CARE and Brickwork Ratings and "AA+" (for our non-convertible debentures) from CRISIL and ICRA. Additionally, we have obtained a credit rating of "AAA" from CARE Ratings and Brickwork Ratings in relation to our subordinated debt programme. We also have the highest short-term credit rating of "A1+" from ICRA, CARE, CRISIL and India Ratings and Research. Our ratings signify a high degree of safety; and in certain cases as mentioned above, the highest degree of safety, regarding timely servicing of financial obligations and low credit risk. We believe that our ratings result in a lower cost of funds for us.

As at March 31, 2016, 2015, and 2014, our consolidated gross NPAs as a percentage of our consolidated AUM were 0.84%, 0.85% and 0.83%, respectively, and our consolidated net NPAs (which reflect our gross NPAs less provisions for NPAs, except counter-cyclical provision) as a percentage of our consolidated AUM were 0.35%, 0.36% and 0.36%, respectively. As of March 31, 2016, 2015 and 2014, our standalone capital to risk (weighted) assets ratio ("CRAR") was 20.51%, 18.35% and 19.14%, respectively.

For the Fiscal Years 2016, 2015 and 2014, our consolidated revenue from operations was ₹82,899.3 million, ₹64,493.0 million and ₹54,064.0 million, respectively, and our consolidated profit after tax before share of profit attributable to minority interest was ₹23,447.5 million, ₹19,012.4 million and ₹15,685.4 million respectively. Our consolidated revenue from operations and consolidated profit after tax grew at a CAGR of 23.8% and 22.3%, respectively, from Fiscal Year 2014 to Fiscal Year 2016.

Our standalone revenue from operations increased by ₹5,502.0 million, from ₹17,573.4 million for the three months ended June 30, 2015 to ₹23,075.4 million for the three months ended June 30, 2016. The key areas of focus for our Board of Directors and our Company are asset liability management and risk management. We have formed an asset liability management committee and a risk management committee. The asset liability management committee reviews our asset and liability positions and gives directions to our finance and treasury teams in managing the same. Our risk management committee approves, reviews, monitors and modifies our credit and operation policy periodically, reviews regulatory requirements and implements appropriate mechanisms and guidelines related to risk management.

CORPORATE ORGANISATION AND STRUCTURE

OUR STRENGTHS

Our primary strengths are as follows:

One of the largest HFCs in India with strong financial performance, capitalization and credit ratings

We are one of the largest HFCs in India. During the period from Fiscal Year 2014 to Fiscal Year 2016, our consolidated loan book outstanding grew at a CAGR of 31.0%, from ₹354,449.5 million in Fiscal Year 2014 to ₹608,638.0 million in Fiscal Year 2016. We believe that our market position and our focus on the affordable housing segment allow us to benefit from the growth potential in this segment arising from various government and policy initiatives.

We are a well-capitalised HFC with strong financial track-record. We earned a consolidated profit after tax of ₹23,447.5 million in Fiscal Year 2016. As of March 31, 2016, our standalone CRAR was 20.51%. We have long-term credit ratings of "AAA" (for our long-term loans and non-convertible debentures) from CARE and Brickwork Ratings and "AA+" (for our non-convertible debentures) from CRISIL and ICRA. We also have the highest short-term credit rating of "A1+" from ICRA, CARE, CRISIL and India Ratings and Research. Additionally, we have obtained a credit rating of "AAA" from CARE Ratings and Brickwork Ratings in relation to our subordinated debt programme.

In Fiscal Year 2016, our Company successfully raised ₹ 39,967.9 million through a Qualified Institutions Placement of our Equity Shares to investors across United States, Asia-Pacific and United Kingdom, amongst other jurisdictions.

We believe that our strong financial record and high credit ratings position us to take advantage of the growth in the HFC industry, provide us with significant competitive advantages, contribute to the growth of our business and provide a high degree of comfort to our stakeholders including shareholders, lenders and rating agencies.

Access to diversified and cost effective funding sources

Over the years, we have developed a diversified funding base and have established strong relationships with our lenders. Our lenders include PSU and private banks, mutual funds, insurance companies, provident funds, pension funds and other financial institutions.

Our consolidated borrowings were ₹610,853.1 million as at March 31, 2016 and our standalone borrowings were ₹651,747.6 million as at June 30, 2016. We fund our capital requirements through multiple sources. Our primary sources of funding are long-term loans and issuances of non-convertible debentures. In Fiscal Year 2015, we availed of external commercial borrowing facilities (which are non-rupee denominated loan) amounting to USD 200 million. Additionally, we recently received an RBI approval for additional external commercial borrowings amounting to USD 250 million during Fiscal Year 2016, which is at the final stages of draw down as on the date of this Prospectus. In addition, we sell down parts of our portfolio through securitization and/ or direct assignment of loan receivables to various banks, insurance companies and other financial institutions, which is another source of liquidity for us.

As at March 31, 2016, our consolidated borrowings were through banks and financial institutions (55.0%), issuances of non-convertible debentures and other debt instruments, including perpetual and subordinated debt (35.5%), commercial paper (7.3%) and external commercial borrowings (2.2%). For the Fiscal 2016 and Fiscal 2015, our average annualized interest cost of borrowed funds was 9.2% and 9.5%, respectively.

We believe that our strong financial performance, capitalisation levels and high credit ratings give considerable comfort to our lenders and enable us to borrow funds at competitive rates, thereby lowering our overall cost of borrowings.

Strong network and pan-India presence and brand

Our geographical reach within India across Tier I, Tier II and Tier III cities allows us to target and grow our customer base. We offer loans to our target client base of salaried and self-employed individuals and small and medium-sized enterprises across India. As at June 30, 2016, our presence in over 110 locations across India allows us to undertake loan processing, appraisal and management of customer relationships in an efficient and cost effective manner.

As at March 31, 2016, we also had a direct sales team of over 2,500 employees, which is instrumental in sourcing the majority of our customers. We also rely on external channels, such as direct sales agents, for referring potential customers. Further, the implementation of a virtual private network connecting all our offices enables us to centrally process and analyse customer data at our Gurgaon data centre. This lends us operational efficiencies and enables us to monitor various risks and improve customer service and experience.

We believe that our strong brand recognition within India helps attract new customers. We were awarded "Business Superbrand" by Superbrand India 2016, "Best Affordable Housing Finance Company of the Year" by the Associated Chambers of Commerce and Industry of India (ASSOCHAM) at the ASSOCHAM Housing Excellence Awards in Fiscal Year 2016, the "Housing Finance Company of the Year" by Accommodation Times in Fiscal Year 2016, the "Best Housing Finance Company" by Realty Plus in Fiscal Year 2016, the "Excellence

in Home Loan Banking" by CMO Asia and Asian Confederation of Businesses, the "Best Housing Finance Company" of the Fiscal Year 2014 by ASSOCHAM, and the "Fastest Growing Housing Finance Company" in the year 2014 by National Real Estate Development Council (NAREDCO).

We believe that we have been able to build and strengthen our brand and increase our brand awareness through quality customer service, particularly in the retail mortgage segment, and various marketing and advertising campaigns in print and electronic media. In addition, we also benefit from the strong brand recognition of the "Indiabulls" brand. We believe that our customer-oriented approach and efficiencies have aided us in achieving customer loyalty and have established us as one of the leading HFCs in India.

Prudent credit and information technology policies and processes leading to improved asset quality

Our credit policies specify the types of loans to be offered, the documentary requirements and limits on loan amounts, all aimed at ensuring underwriting of low risk, good quality and profitable loans. We have also established protocols and procedures to be followed when engaging with customers, as well as to determine the authority and levels to which credit decisions can be taken at various offices. Over the years, we have developed expertise in mortgage loan underwriting and this is the cornerstone of our business.

We also have an experienced collection team, which has, with the support of our legal team, enabled us to maintain high collection efficiencies through economic cycles. Our centralized credit analysis processes combined with our dedicated collection team help maintain the quality and growth of our total AUM. As at March 31, 2016, our consolidated gross NPAs as a percentage of our consolidated AUM were 0.84% and our consolidated net NPAs (which reflect our gross NPAs less provisions for NPAs, except counter-cyclical provision) as a percentage of our consolidated AUM were 0.35%. Historically, we have maintained a higher provisioning for NPAs than the norms prescribed under the regulatory guidelines. As at March 31, 2016, our provisioning cover (excluding counter-cyclical provision of ₹690.0 million) was 58.8% of our gross NPAs.

Additionally, through the adoption of various information security measures, we are able to maintain our competitiveness, customer confidence and brand value. For further details on our information security measures, please see "Our Business – Operational Risk Management" on page 108. See also "Our Business – Our Strategies – Continue to maintain prudent risk management policies for our assets under management" and "Our Business – Our Lending and Other Financial Products – Loans Against Property" on pages 99 and 100, respectively.

Technology advancements aimed at increasing customer accessibility

We are one of the first home lenders to offer the e-home loans facility to our customers. e-home loans is a technological endeavour that enables our home loan customers to avail of paperless loans through their computers or mobile devices. With this technology, the entire process of loan origination (from loan application to approval) can be managed through the devices thus obviating the need for branch visits. This results in significant customer convenience as it provides for a seamless loans approval process that is operable remotely, and accessible at times convenient to the customer. We also expect to be able to enhance our access to customers in regions where we do not have branches through our e-Home loans facility. Additionally, this also results in reduced operational costs and overheads.

Experienced Board of Directors and senior management team

Our Board of Directors comprises a diversified mix of professionals, who have extensive experience and expertise in the fields of business, legal affairs, taxation, banking and regulatory affairs, among others. Few members of our senior management team have been with us since the commencement of our operations. Our management team has had a continued and strong focus on identifying opportunities in the housing finance business that are capable of providing steady returns. We believe that as a result, we have been able to demonstrate strong growth while minimising our risk profile. See also "Our Management" on page 123.

In order to strengthen our credit appraisal and risk management systems, we have recruited a number of senior managers who have extensive experience in the Indian banking sector and specialized lending finance firms providing loans to retail customers, to develop and implement our credit policies. We have also formed an asset liability management committee and a risk management committee. The asset management committee reviews our asset and liability positions and gives directions to our finance and treasury teams in managing the same. Our risk management committee approves, reviews, monitors and modifies our credit and operation policy from time

to time, reviews regulatory requirements and implements appropriate mechanisms and guidelines related to risk management.

OUR STRATEGIES

Our primary strategies are as follows:

Continue our expansion by focusing on housing loans and affordable housing segment

The demand for housing in India is expected grow to 88.78 million units by 2017 due to increasing population, income levels, urbanisation and a growing trend towards nuclear families. (*Source: NHB Report on Trend and Progress of Housing in India 2014*) For further details, please see “Industry Overview” on page 85.

For the Fiscal Year 2016, our housing loans were disbursed at an average ticket size of ₹2.5 million, with an average LTV ratio of 71% (at origination). We intend to continue to grow as a leading housing loan provider, with a focus on the affordable housing segment. We believe that the significant potential for growth in the housing finance industry and favourable government initiatives in the affordable housing segment in India, present us with an opportunity to expand of our housing loans business and in particular, in the affordable housing segment. We believe that our continued focus on housing loans and on the affordable housing segment will allow us to maintain a steady rate of growth and robust profitability, while adopting a cautious credit underwriting approach.

Grow our loan book through technological endeavours

We expect to increase our access to customers through technological advancements, which would also result in increased customer satisfaction and reduced costs and overheads. For instance, we are one the first home lenders to recently introduce the e-home loans facility to our customers. The e-home loans facility is a technological endeavour that enables our housing loan customers to avail of paperless loans through their computers or mobiles devices. With this technology, the entire process of loan origination (from loan application to approval) can be managed through the devices thus obviating the need for branch visits. This results in significant customer convenience as it provides for a seamless loans approval process that is operable remotely, and accessible at times convenient to the customer. We also expect to be able to enhance our access to customers in regions where we do not have branches and through our e-home loans facility.

Further, we have tied up with UIDAI Aadhar for e-Signature and e-KYC under the Digital India Campaign introduced by the government. This results in significantly streamlining the loan approval and know your client processes by eliminating the need for multiple signatures and sets of documents. Further, we also provide personalised call centre support to our customers.

In addition to enhancing our brand presence, these technological advancements are also aimed at reducing operational costs by reducing manpower and obviating the need for branches in high cost urban areas, where the penetration of information technology is significant. Productivity of existing employees is expected to increase as well. For our sales team, travel time for multiple meetings to collect forms and documents is done away with resulting in higher operational efficiency. Human errors are also eliminated during the loan approval process under this automated system.

In keeping with our focus towards technological advancements, we organised Finnovate, a countrywide financial tech-innovation conclave, which invited individuals, teams, companies and start-ups to collaborate with and provide technology based solutions to the Company. Finnovate was launched in December 2015, and concluded recently with six business solutions being selected for implementation. More than 622 entries and 166 solutions from across the country were received through this initiative. We expect to organise such endeavours periodically in keeping with our continued focus on technological solutions and advancements.

Leverage our financial strength and improved ratings to increase our competitiveness, diversify our funding mix and reduce our funding costs

Our cost of borrowings is driven by our credit ratings, our financial discipline and our business performance. We have the highest long-term credit ratings of "AAA" (for our long-term loans and non-convertible debentures) from CARE and Brickwork Ratings and "AA+" (for our non-convertible debentures) from CRISIL and ICRA. Additionally, we have obtained a credit rating of "AAA" from CARE Ratings and Brickwork Ratings in relation to our subordinated debt programme. We also have the highest short-term credit rating of "A1+" from ICRA,

CARE, CRISIL and India Ratings and Research. Our ratings signify a high degree of safety; and in certain cases as mentioned above, the highest degree of safety, regarding timely servicing of financial obligations and low credit risk. We believe that our ratings result in a lower cost of funds for us. Based on our ratings, we expect to continue to source funding at competitive rates from the debt capital markets and reduce our proportion of bank financing to reduce our overall funding costs. Reduction in our cost of borrowings in turn allows us to reduce our cost of lending and competitively price our products to our customers. We believe that this competitive pricing combined with our loan service levels will allow us to attract more customers with good credit records, to grow our portfolio and attain a higher market share.

We also seek to continue to use a variety of funding sources to optimize funding costs, protect interest margins and maintain a diverse funding portfolio that will enable us to further achieve funding stability and liquidity.

Our consolidated funding mix is as follows:

Source of funding	(Amount in Millions)	
	FY 2016	FY 2015
Loans from banks and financial institutions	348,978.8	296,523.6
Non-convertible debentures and other debt instruments	204,436.0	135,484.0
Commercial papers	44,910.0	32,070.0
Subordinated debt	11,528.3	9,796.8
Perpetual Debt	1,000.0	1,000.0
Total	610,853.1	474,874.4

Continue to maintain adequate liquidity

One of our key operating principles is to maintain adequate liquidity at all times. As of March 31, 2016, we have implemented a liquidity policy that seeks to maintain approximately 15% to 20% of our loan assets in the form of cash, cash equivalents and investments in liquid schemes of mutual funds and other liquid debt instruments. We continuously monitor this ratio and actively take steps to maintain this liquidity position and will continue to do so in the future. We believe this liquidity position has in the past assisted us, and will in the future assist us, in obtaining high credit ratings, which in turn will allow us to raise funds at lower costs. For Fiscal Year 2016, our consolidated cash and cash equivalents (as per our cash flow statement) were ₹50,704.4 million.

Continue to maintain prudent risk management policies for our assets under management

We believe that the success of our business is dependent on our ability to consistently implement and streamline our risk management policies. As we focus on building a large AUM with low credit risk, we will continue to maintain strict risk management standards to reduce credit risks and promote a robust recovery process. We also intend to further develop and strengthen our technology platform to support our growth and improve the quality of our services. We will continue to update our systems and use latest technology to streamline our credit approval, administration and monitoring processes to meet customer requirements on a real-time basis. We believe that improvements in technology will also reduce our operational and processing time, thereby improving our efficiency and allowing us to provide better service to our customers.

Expand our physical and online networks and leverage digital media

We believe that there are still opportunities to grow our network and expand our reach within India and outside India. We believe that our target customers are presently underserved by the existing financial institutions, which presents us with significant opportunities for growth. We will continue to add to our network of offices across India and outside India. In addition, we intend to significantly increase our online and digital presence. We believe that our target customer base is increasingly relying on online platforms to make financial decisions. Further, with more users using social networking sites such as Facebook and Twitter, we have established our presence on these platforms and aim to connect with them on an ongoing basis. Through such digital platforms, we aim to provide all the relevant information to our customers at all times, instantaneously.

STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO THE DEBENTURE HOLDER(S)

The following tax benefits will be available to the debenture holders as per the existing provisions of Income Tax law in India. The tax benefits may vary from time to time in accordance with amendments to the law or enactments thereto. The debenture holders are advised to consider the tax implications in respect of subscription to the debentures after consulting their tax advisor(s) as alternate views are possible.

A. IMPLICATIONS UNDER THE INCOME-TAX ACT, 1961 (“I.T. ACT”)

I. To the Resident Debenture Holder

1. Interest on NCD received by debenture holders would be subject to tax at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act and such tax would need to be withheld at the time of credit/payment as per the provisions of Section 193 of the I.T. Act. However, no income tax is deductible at source in respect of the following:
 - a) In case the payment of interest on debentures to a resident individual or a Hindu undivided family (“HUF”) Debenture Holder does not or is not likely to exceed Rs. 5,000 in the aggregate during the Financial Year and the interest is paid by an account payee cheque.
 - b) On any security issued by a company in a dematerialized form and is listed on recognized stock exchange in India in accordance with the Securities Contracts (Regulation) Act, 1956 and the rules made there under.
 - c) When the Assessing Officer issues a certificate on an application by a Debenture Holder on satisfaction that the total income of the Debenture Holder justifies no/lower deduction of tax at source as per the provisions of Section 197(1) of the I.T. Act; and that certificate is filed with the Company before the prescribed date of closure of books for payment of debenture interest.
 - (i) When the resident Debenture Holder with Permanent Account Number (“PAN”) (not being a company or a firm) submits a declaration as per the provisions of Section 197A (1A) of the I.T. Act in the prescribed form 15G verified in the prescribed manner to the effect that the tax on his estimated total income of the financial year in which such income is to be included in computing his total income will be NIL. However under Section 197A(1B) of the I.T. Act, “form 15G cannot be submitted nor considered for exemption from tax deduction at source if the dividend income referred to in Section 194 of the I.T. Act, interest on securities, interest, withdrawal from NSS and income from units of mutual fund or of Unit Trust of India as the case may be or the aggregate of the amounts of such incomes credited or paid or likely to be credited or paid during the previous year in which such income is to be included exceeds the maximum amount which is not chargeable to income tax”.

To illustrate, as on April 01, 2016, the maximum amount of income not chargeable to tax in case of individuals (other than senior citizens and super senior citizens) and HUFs is Rs. 2,50,000.00; in the case of every individual being a resident in India, who is of the age of 60 years or more but less than 80 years at any time during the Financial Year (Senior Citizen) is Rs. 3,00,000.00; and in the case of every individual being a resident in India, who is of the age of 80 years or more at any time during the Financial Year (Super Senior Citizen) is Rs. 5,00,000.00 for Financial Year 2016-17.

Further, section 87A of the I.T. Act provides a rebate of 100% of income-tax or an amount of Rs. 5,000 whichever is less to a resident individual whose total income does not exceed Rs. 5,00,000.

- (ii) Senior citizens, who are 60 or more years of age at any time during the financial year, enjoy the special privilege to submit a self-declaration with Permanent Account Number (PAN) in the prescribed Form 15H for non deduction of tax at source in accordance with the provisions of Section 197A (1C) of the I.T. Act even if the aggregate income credited or paid or likely to be credited or paid exceeds the maximum

amount not chargeable to tax, provided that the tax due on total income of the person is NIL.

- (iii) In all other situations, tax would be deducted at source as per prevailing provisions of the I.T. Act. Form No.15G with PAN / Form No.15H with PAN / Certificate issued under Section 197(1) have to be filed with the Company before the prescribed date of closure of books for payment of debenture interest without any tax withholding.
2. In case where tax has to be deducted at source while paying debenture interest, the Company is not required to deduct surcharge, education cess and secondary and higher education cess.
 3. As per Section 2(29A) of the I.T. Act, read with Section 2(42A) of the I.T. Act, a listed debenture is treated as a long term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer. Under Section 112 of the I.T. Act, capital gains arising on the transfer of long term capital assets being listed securities are subject to tax at the rate of 20% of capital gains calculated after reducing indexed cost of acquisition or 10% of capital gains without indexation of the cost of acquisition. The capital gains will be computed by deducting expenditure incurred in connection with such transfer and cost of acquisition/indexed cost of acquisition of the debentures from the sale consideration.

However as per the third proviso to Section 48 of I.T. Act, benefit of indexation of cost of acquisition under second proviso of Section 48 of I.T. Act, is not available in case of bonds and debenture, except capital indexed bonds and Sovereign Gold Bond issued by the Reserve Bank of India. Thus, long term capital gains arising out of listed debentures would be subject to tax at the rate of 10% computed without indexation. In case of an individual or HUF, being a resident, where the total income as reduced by such long-term capital gains is below the maximum amount which is not chargeable to income-tax, then, such long-term capital gains shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax and the tax on the balance of such long-term capital gains shall be computed at the rate mentioned above.

4. Short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months would be taxed at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act. The provisions relating to maximum amount not chargeable to tax described at Para 3 above would also apply to such short term capital gains.
5. Securities Transaction Tax (“STT”) is a tax being levied on all transactions in specified securities done on the stock exchanges at rates prescribed by the Central Government from time to time. STT is not applicable on transactions in the debentures.
6. In case the debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the I.T. Act.

II. To the Non Resident Debenture Holder

1. A Non-Resident Indian has an option to be governed by Chapter XII-A of the I.T. Act, subject to the provisions contained therein which are given in brief as under:
 - a) Under section 115E of the I.T. Short-term capital gains will be taxable at the normal rates of tax in accordance with and subject to the provisions contained therein.

- c) Under section 115G of the I.T. Act, it shall not be necessary for a non-resident Indian to file a return of income under section 139(1) of the I.T. Act in accordance with and subject to the provisions contained therein.
 - d) Under section 115H of the I.T. Act, where a non-resident Indian becomes a resident in India in any subsequent year, he may furnish to the Assessing Officer a declaration in writing along with return of income under section 139 for the assessment year for which he is assessable as a resident, to the effect that the provisions of Chapter XII-A shall continue to apply to him in relation to the investment income (other than on shares in an Indian Company) derived from any foreign exchange assets in accordance with and subject to the provisions contained therein. On doing so, the provisions of Chapter XII-A shall continue to apply to him in relation to such income for that assessment year and for every subsequent assessment year until the transfer or conversion (otherwise than by transfer) into money of such assets.
2. In accordance with and subject to the provisions of section 115I of the I.T. Act, a Non-Resident Indian may opt not to be governed by the provisions of Chapter XII-A of the I.T. Act. In that case,

4. The income tax deducted shall be increased by a surcharge as under:
- a) In the case of non-resident Indian surcharge at the rate of 15 % of such tax where the income or the aggregate of such income paid or likely to be paid and subject to the deduction exceeds Rs. 1,00,00,000.
 - b) In case of foreign companies, where the income paid or likely to be paid exceeds ₹ 1,00,00,000 but does not exceed ₹ 10,00,00,000 a surcharge of 2% of such tax liability is payable and when such income paid or likely to be paid exceeds ₹ 10,00,00,000, surcharge at 5% of such tax is payable.
- Further, 2% education cess and 1% secondary and higher education cess on the total income tax (including surcharge) is also deductible.
5. As per section 90(2) of the I.T. Act read with the Circular no. 728 dated October 30, 1995 issued by the Central Board of Direct Taxes ('CBDT'), in the case of a remittance to a country with which a Double Taxation Avoidance Agreement (DTAA) is in force, the tax should be deducted at the rate provided in the I.T. However, submission of Tax Residency Certificate ('TRC') is a mandatory condition for availing benefits under any DTAA. Further, such non-resident investor would also be required to furnish Form 10F along-with TRC, if such TRC does not contain information prescribed by the CBDT *vide* its Notification No. 57/2013 dated 1 August 2013.

Source: ICRA estimates, RBI; Amounts in Rs. Billion

ICRA estimates that the total housing credit outstanding in India as on March 31, 2016 was around Rs. 12.5 trillion compared to Rs. 10.5 trillion as on March 31, 2015, indicating a growth of 19% in FY2016 (18% in FY2015). There was pick-up of growth was supported by disbursement of construction linked loans, growth in lower ticket affordable housing segment1 and demand from Tier II and III cities and some increase in primary sales of affordable during the festive season.

While both banks and HFCs grew at a similar pace of 19% during FY2016, the banking sector growth was largely driven by their increased retail focus which included housing finance and balance transfers of existing home loans. As for home loan portfolio growth for HFCs/NBFCs, while the overall portfolio growth moderated from 22% to 19%, this was largely attributable to lower home loan portfolio growth of large HFCs (15% growth in FY2016 vis-a-vis 19% in FY2016) . Smaller HFCs, driven by the focus on faster growing segments like affordable housing finance and the self-employed borrower segments continued to grow their home loan portfolio at a faster pace of 37% in FY2016 (36% in FY2015) HFC growth was also supported to an extent by new entrants to the industry.

The share of HFCs and NBFCs in the overall mortgage finance market has remained steady at 37% as on March 31, 2016. ICRA believes that HFCs and NBFCs are likely to continue to increase their market share on the strength of their focused approach, thrust on the relatively high growth segments like affordable housing and self employed customers, and their comparatively superior service levels. Banks will nevertheless maintain a sizeable share of

the market, given their competitive interest rates, their extensive branch network and customer base, access to stable low-cost funds, and the requirement to meet priority sector lending targets.

In ICRA's opinion, the housing finance sector will register a growth of around 18-20% in FY2017, compared with 5-year CAGR growth of 18% from FY11-16. The growth is likely to be supported by some pick-up in primary sales and new launches and a healthy growth in the affordable housing segment. ICRA expects banks to grow their home loan books at around 16-19% and HFCs at a slightly higher pace of around 18-21% leading to an overall growth of 18-20% in FY2017. The long term growth outlook for the sector remains positive given the Government of India's (GoI's) focus on "Housing for All" by 2022, and the favourable regulatory environment.

Steady Increase in Mortgage Penetration Levels

Housing Credit as a % of GDP

Mortgage penetration levels (Housing Credit as a percentage of GDP) in India has increased steadily from around 7% as on March 31, 2007 to around 9.2% as on March 31, 2016. The factors that have supported growth in the housing finance industry are:

- Favourable demographics, with a large proportion of Indian population being below the age of 30 years
- Changing social scenario, with increasing urbanisation and prevalence of nuclear family structures
- Increase in supply of affordable homes especially in satellite towns of metros
- Property increasingly being used as a savings or investment option
- Tax incentives on home loans for both principal and interest repayment

Over the medium term, ICRA expects mortgage penetration to continue to increase supported by government initiatives like Housing for All, and prevailing tax incentives and also the expected increase in supply of affordable homes.

Large Number of Market Players with Steady Rise in New Entrants

The housing finance market has a large number of players operating, with the number of HFCs alone aggregating to 76 in July 2016. The number of new entrants has also been increasing steadily. Most of the new entrants in the past two years have focused on the relatively under-penetrated low-ticket home loan segment (affordable housing) or on the self employed segment. Further, there are applications from eight new companies under process by the NHB, for fresh HFC licenses. Given Government of India's focus on the housing segment, there has been an increased interest from private equity players/real estate entities to enter the housing finance segment.

Market, Nevertheless, Remains Concentrated

Market Share of Key Players

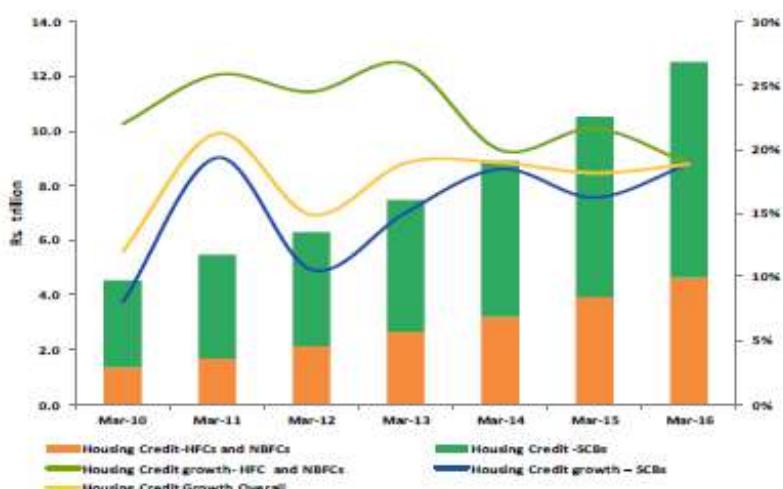

Source: Financials of various players, ICRA estimates

Notwithstanding the large number of players in the housing finance market, the sector remains concentrated with the top five players – SBI Group (SBI along with associate banks), HDFC Group (HDFC Limited, HDFC Bank and Gruh Finance), LIC Housing Finance Limited, ICICI Group, and Axis Bank – clearly dominating the domestic mortgage market. These five cumulatively accounted for 60% of the total housing credit in India as of March 31, 2016 (61% as on March 31, 2015). The share of the Top 5 players has remained at similar levels over the last five years. While the current large players will continue to dominate the mortgage market in the medium term, the smaller HFCs that have been expanding their portfolio over the last few years are likely to increase their share given their focus on the relatively untapped segments.

Trends in Housing Credit Growth in India

Source: ICRA estimates, RBI

As per ICRA's estimates, the total housing credit outstanding in India as on March 31, 2016 was around Rs. 12.5 trillion as against Rs. 10.5 trillion as on March 31, 2015, indicating an annualized growth of 19% in FY16. The housing credit growth was supported by disbursements on construction linked loans, growth in the small ticket affordable housing segment and demand from Tier II/III cities and some increase in primary sales during the festive season.

While both banks and HFCs grew at a similar pace of 19% during FY2016, the banking sector growth was largely driven by their increased retail focus which included housing finance and balance transfers of existing home loans. As for HFCs/NBFCs while the growth was at similar levels of 19%, the home loan growth for large HFCs (HFCs with Assets under management greater than Rs. 450 billion) was lower at 15% (19% in FY2015) vis-a-vis home loan growth of 36% for smaller HFCs (37% for FY2015) during the same period leading to an overall growth of 19%. The portfolio growth of small HFCs benefitted from their increased focus on faster growing segments like affordable housing finance and the self-employed borrower segments and rise in new entrants.

- As per ICRA's estimates, the total loan book of the players in the affordable housing segment stood at Rs. 957 billion as on March 31, 2016, registering a year-on-year growth of 28%
- At the same time, the portfolio growth for the new players in the segment was much higher at 96 % (albeit on a much smaller base) during this period with total loan book of Rs. 140 billion as on March 31, 2016
- Most of the players in the affordable housing segment have a relatively recent vintage with operations starting around 4-5 years ago. Consequently, they continue to be in expansion mode and have registered a 3-year CAGR of close to 90% in portfolio growth, while the growth of seasoned players has been in line with overall HFC growth
- Opportunities for growth are high given the current low penetration levels as well as the government thrust on the affordable housing segment
- In terms of market dynamics, banks have limited presence in this segment. It is largely catered to by HFCs who have developed their own internal models to assess the repayment capability of the borrowers, given the lack of formal income proofs. However, given the market potential, there could be increased

competition in the segment with new HFCs entering this business as well as microfinance institutions (MFIs) with experience in terms of lending to similar borrower segments, and seeking to diversify their product offerings. There could also be additional competition from the newly notified small finance banks

Rising competitive intensity

There has been an increase in the number of new entrants in the housing finance market, including HFCs promoted by existing NBFCs, new companies started by entrepreneurs and supported by private equity players. This has led to increased competition in the industry. ICRA notes that the upcoming small finance banks may also target the housing finance segment (mostly affordable housing). Owing to sizeable sourcing of customers from direct sales agents whose commissions are based on incremental disbursements, nil prepayment penalties are encouraging balance transfers. Lenders typically charge lower interest rates to new borrowers and offer incentives in terms of lower processing fees. High business origination costs, coupled with balance transfers and lower lending yields could impact profitability indicators of HFCs.

High competitive intensity has also led to relaxation in lending norms (for example, relaxation of Loan To Value Ratio(LTVs)/Fixed Obligation to Income Ratio(FOIRs) or higher top-up loans and introduction of new products. Further, some large lenders are offering schemes that allow customers to pay only the interest component in the initial few years, or stepped up equated monthly installments, with an assumption that a borrower's income levels will increase over time. While such schemes enable the borrower to take a higher loan amount, the risk in such loans is higher than conventional underwriting, hence increase the overall vulnerability.

Multiple regulatory changes likely to be positive for the buyers

The Real Estate (Regulation and Development) Act, 2016 (*RERaD Act*) came into force in May, 2016. The basic objective of the RERaD Act is to protect the interests of consumers and investors by introducing a regulatory regime to regulate and improve the level of transparency and accountability in the sector. In ICRA's view, the Act is definitely a step in the right direction and is likely to restore confidence of buyers and investors in the real-estate sector over the long term.

In FY2016, multiple regulatory changes were announced, starting with the lowering of risk weights (further from 50%) for housing loans, 41 HFCs getting SARFAESI license, as well as the revision in interest rate and the on-lending cap under the RHF and UHF, which are likely to support growth in the low ticket affordable housing segment going forward.

Adequate capitalisation; supported by external capital infusions and internal generation

The reported capital adequacy remained comfortable for HFCs, due to the benefit from relatively lower risk weights for home loans and commercial real estate loans for residential projects. Players with higher share of lower ticket loans have benefitted more.

The aggregate gearing levels remained at around 8.2 times as on March 31,2016, however some HFCs had a stretched capitalization with gearing levels over 12 times, owing to their higher pace of growth in comparison to their internal capital generation and lower external equity infusion. ICRA expects the aggregate gearing levels for HFCs to remain at around 8-9 times over the medium term. In ICRA's estimates, HFCs will require around Rs. 186-286 billion of external capital (30-50% of the existing net worth of the HFCs) to grow at a CAGR of 20-22% for the next three years at internal capital generation levels (post dividend), of 15-16%. Within this, given the higher expected credit growth of smaller HFCs, capital requirement of smaller HFCs expected to be around Rs 100-155 billion (100-150% of existing net worth) to grow at (27-35% 3 year CAGR). Good investor sentiment and growth prospects are likely to help the small HFCs in raising the required capital.

Stable profitability indicators

HFCs continued to report good profitability indicators with a return on equity of 21% in FY2016 (20% for FY2015). ICRA expects the spreads to decline marginally by 10-15 bps owing to the high competitive scenario, which could lead to dilution in incremental spreads. Non-interest income could also reduce due to lower processing fees charged from the customer. However, profitability is likely to be supported by stable operating expenses and credit costs and as per ICRA's estimates, HFCs will generate good returns (ROE of 17-19%) for FY2017.

Key Credit Factors and Outlook

	Key Factors	Outlook
Business Mix	<ul style="list-style-type: none"> • High competitive pressures owing to • Increase in number of players • Aggressive growth plans of some players • With the borrowers being rate sensitive, removal of prepayment penalty and increased sourcing through DSAs could encourage balance transfers • Increased portfolio vulnerability arising out of • Increasing share of non-housing loan segment (LAP, construction loans) • Dilution in lending norms (loan to value ratios, fixed obligation to income ratio, higher loan tenures) 	<ul style="list-style-type: none"> • ICRA expects HFCs' home loan growth to be 18-21% whereas non housing loan growth could be higher at 20-24% leading to overall portfolio growth of ~20- 22% in FY2017 • Smaller HFCs are expected to continue to grow at a higher pace with growth likely to be supported by the thrust on the affordable housing segment and focus on niche segments • Share of housing loans in the overall portfolio could come down to around 70% over the next two years
Operating Environment	<ul style="list-style-type: none"> • Higher growth in underserved segments and support from GOI to the affordable housing sector • Real Estate Act aims to improve the level of transparency and accountability in the sector • High inventory levels in some cities and slow pace of under construction projects • Coverage of new entrants under SARFAESI could help improve recoveries 	
Asset Quality	<ul style="list-style-type: none"> • Stable so far, however credit risk in the portfolio increasing due to rising share of non-housing loans, changing customer mix in favour of affordable housing and self employed segments, and dilution in lending norms . Further, given the limited track record of some players, likelihood of asset quality indicators deteriorating as the portfolios season • Overall, comfort from being a secured asset class which could lead to lower loss given default 	<ul style="list-style-type: none"> • In ICRAs opinion, Gross NPA% in home loan segment could increase to around 0.6-0.9%. In the non housing segment , while it is difficult to estimate the expected trends for asset quality in construction finance segment given the lumpy nature of the portfolio, assuming Gross NPA% of 1.5-2% in the non housing loan portfolio of HFCs, ICRA expects overall Gross NPAs for HFCs are expected to remain range bound between 0.8% - 1.2% over the medium term
Funding Mix and Liquidity	<ul style="list-style-type: none"> • Diversified funding mix for the larger players; greater reliance of smaller HFCs on bank funding • About 60-65% of the HFC borrowings at fixed rates of interest, which poses an interest rate risk in a declining interest rate scenario. • Increasing reliance of short term funding with limited access to long term funds would continue to impact the ALM profile of the smaller HFCs 	<ul style="list-style-type: none"> • Share of debt market instrument and ECBs likely to go up further, which should support the liquidity • Increased share of debt market instruments could lead to some moderation in cost of funds in the declining interest rate scenario • Incremental fund requirement, factoring in credit growth and the re-financing requirements, HFCs would need to mobilize ~Rs. 2.2- 2.6 trillion during FY2017

	Key Factors	Outlook
		<ul style="list-style-type: none"> Incremental fund requirements from banks (including NHB refinance) would be to the tune of ~₹ 600-700 billion, while fresh NCD issuances would be at ~₹ 1,000-1,200 billion
Earnings	<ul style="list-style-type: none"> High competition could lead to increased balance transfers; new loans onboarded at relatively finer spreads Lack of diversity in earnings; fee-based income mostly limited to processing fees Processing fee charged by most players inadequate to cover the underwriting costs, which coupled with high prepayment rates could lead to higher operating expenses 	<ul style="list-style-type: none"> Spreads could decline marginally by 10-15 bps Profitability is likely to be supported by an increasing share of higher yielding non-housing loans, stable operating expenses and credit costs. HFCs should generate good returns (ROE of 17-19%) for FY2017
Capitalisation	<ul style="list-style-type: none"> Adequate for current scale of business Capital requirement over the medium term; Rs.186-286 billion to grow at 20-22% over the next 5 years (30-50% of existing networth of all HFCs). Within this given the higher expected credit growth of smaller HFCs, capital requirement of smaller HFCs expected to be around Rs 100-155 billion (100-150% of existing networth) to grow at (27-35% 3 year CAGR) 	<ul style="list-style-type: none"> Good investor sentiment for the sector likely to help HFCs in raising capital

Key Industry and Regulatory Developments over the last one year

Union Budget announcements likely to be positive for housing sector

Proposals

- 100% deduction on profits to an undertaking from a housing project for flats upto 30 sq. metres in four metro cities and 60 sq. metres in other cities.
- Exemption of service tax on construction of affordable houses of up to 60 square metres under any scheme of the Central or State Government including PPP Schemes
- Additional tax deduction for interest of Rs. 50,000 per annum for loans up to Rs. 3.5 million sanctioned during the next financial year provided the value of the house does not exceed Rs. 5.0 million
- National Land Record Modernisation Programme being revamped under the Digital India Initiative and will be implemented as a Central sector scheme with effect from 1st April, 2016
- Deduction of interest payable on capital borrowed for acquisition or construction of a self-occupied house property to be allowed if such acquisition or construction is completed within five years instead of three years earlier

Impact

- As per government estimates, the total shortage under “Housing for All” is around 20 million urban units. With service tax exemption and 100% deduction on profits for the affordable housing segment, supply of such projects could improve. Some of the benefits in terms of lower tax rates could be passed on to the end buyers improving affordability.
- New buyers under housing segment to benefit from additional Rs. 50,000 tax exemption on interest payment of home loans leading to improved affordability. This could lead to the effective interest rate for borrowers reducing by 200-250 bps due to the higher tax exemption. As per ICRA estimates, around 50% of disbursements for HFCs have been for loans up to Rs. 2.5 million. Therefore a large number of new buyers could benefit from this.

- Revamp of Land Record System could reduce the risk of frauds and hence credit risk for banks and HFCs

Affordable housing could become a sizeable segment for HFCs if Housing for All by 2022 is implemented successfully

The increased thrust of the government on the housing sector is highlighted by the “Housing for All” mission launched in 2015 under the “Pradhan Mantri Awas Yojana.”. The scheme is trying to address both demand and supply side constraints that have affected the growth of the housing sector in the past. As a supply side intervention the GOI proposes to encourage public-private partnership in building homes for the economically weaker sections (EWS) and low income group (LIG) segments by offering incentives like allowing higher floor space index (FSIs), and through announcing grants/subsidies for slum redevelopment programmes.

On the demand side, GOI has proposed credit-linked subsidy capital, which could be as high as 37% (Rs 0.22 million) for a loan of up to Rs 0.6 million. With this credit-linked subsidy, there could be an increase in demand, as the customers’ affordability would improve due to lower equated monthly installments. This would create a new set of borrowers who would get access to the formal credit channels leading to increased market potential for HFCs and banks operating in affordable housing space.

Also, with the revision in the definitions for EWS and LIG, more people will be able to benefit from the schemes, especially in the urban areas. These schemes are a positive for the housing finance sector and have the potential to make the sub Rs. 1 million segment an attractive segment for lenders, given the volumes it could generate over the long term – potential of over Rs 4-8 trillion till 2022 – though the credit risk could also be higher.

Further, the addition of this segment could push the annualised growth of the housing finance sector from the 18% levels at present to 21-25% over the next seven years. This new segment could account for 22-37% of the overall housing credit depending on the success of implementation of the schemes.

However, the success of the scheme would hinge on the supply of such houses as well as regulators allowing adequate interest spreads in the scheme. Initiatives taken by the state governments and local urban bodies to provide land to keep the prices affordable while ensuring adequate returns for the developers would be critical to ensure an adequate supply.

We have formed an asset liability management committee and a risk management committee. The asset liability management committee reviews our asset and liability positions and gives directions to our finance and treasury teams in managing the same. Our risk management committee approves, reviews, monitors and modifies our credit and operation policy periodically, reviews regulatory requirements and implements appropriate mechanisms and guidelines related to risk management.

We operate under the "Indiabulls" brand name, which is a reference to the Indiabulls group of companies, a diversified set of businesses in the financial services, real estate and securities sectors.

We were incorporated in 2005 as a wholly-owned subsidiary of Indiabulls Financial Services Limited ("IBFSL"). In 2013, pursuant to a scheme of arrangement under the Companies Act, 1956, IBFSL merged with us. For further details, please see "Capital Structure" on page 58.

On November 13, 2015, we invested GBP 66.0 million in acquiring a 39.76% stake in OakNorth Holdings Limited, a Jersey company principally providing banking services in the United Kingdom.

Our corporate structure as of June 30, 2016 is set out below:

CORPORATE ORGANISATION AND STRUCTURE

OUR STRENGTHS

Our primary strengths are as follows:

One of the largest HFCs in India with strong financial performance, capitalization and credit ratings

We are one of the largest HFCs in India. During the period from Fiscal Year 2014 to Fiscal Year 2016, our consolidated loan book outstanding grew at a CAGR of 31.0%, from ₹354,449.5 million in Fiscal Year 2014 to ₹608,638.0 million in Fiscal Year 2016. We believe that our market position and our focus on the affordable housing segment allow us to benefit from the growth potential in this segment arising from various government and policy initiatives.

We are a well-capitalised HFC with strong financial track-record. We earned a consolidated profit after tax of ₹23,447.5 million in Fiscal Year 2016. As of March 31, 2016, our standalone CRAR was 20.51%. We have long-term credit ratings of "AAA" (for our long-term loans and non-convertible debentures) from CARE and Brickwork

Ratings and "AA+" (for our non-convertible debentures) from CRISIL and ICRA. We also have the highest short-term credit rating of "A1+" from ICRA, CARE, CRISIL and India Ratings and Research. Additionally, we have obtained a credit rating of "AAA" from CARE Ratings and Brickwork Ratings in relation to our subordinated debt programme.

In Fiscal Year 2016, our Company successfully raised ₹ 39,967.9 million through a Qualified Institutions Placement of our Equity Shares to investors across United States, Asia-Pacific and United Kingdom, amongst other jurisdictions.

We believe that our strong financial record and high credit ratings position us to take advantage of the growth in the HFC industry, provide us with significant competitive advantages, contribute to the growth of our business and provide a high degree of comfort to our stakeholders including shareholders, lenders and rating agencies.

Access to diversified and cost effective funding sources

Over the years, we have developed a diversified funding base and have established strong relationships with our lenders. Our lenders include PSU and private banks, mutual funds, insurance companies, provident funds, pension funds and other financial institutions.

Our consolidated borrowings were ₹610,853.1 million as at March 31, 2016 and our standalone borrowings were ₹651,747.6 million as at June 30, 2016. We fund our capital requirements through multiple sources. Our primary sources of funding are long-term loans and issuances of non-convertible debentures. In Fiscal Year 2015, we availed of external commercial borrowing facilities (which are non-rupee denominated loan) amounting to USD 200 million. Additionally, we recently received an RBI approval for additional external commercial borrowings amounting to USD 250 million during Fiscal Year 2016, which is at the final stages of draw down as on the date of this Prospectus. In addition, we sell down parts of our portfolio through securitization and/ or direct assignment of loan receivables to various banks, insurance companies and other financial institutions, which is another source of liquidity for us.

As at March 31, 2016, our consolidated borrowings were through banks and financial institutions (55.0%), issuances of non-convertible debentures and other debt instruments, including perpetual and subordinated debt (35.5%), commercial paper (7.3%) and external commercial borrowings (2.2%). For the Fiscal 2016 and Fiscal 2015, our average annualized interest cost of borrowed funds was 9.2% and 9.5%, respectively.

We believe that our strong financial performance, capitalisation levels and high credit ratings give considerable comfort to our lenders and enable us to borrow funds at competitive rates, thereby lowering our overall cost of borrowings.

Strong network and pan-India presence and brand

Our geographical reach within India across Tier I, Tier II and Tier III cities allows us to target and grow our customer base. We offer loans to our target client base of salaried and self-employed individuals and small and medium-sized enterprises across India. As at June 30, 2016, our presence in over 110 locations across India allows us to undertake loan processing, appraisal and management of customer relationships in an efficient and cost effective manner.

As at March 31, 2016, we also had a direct sales team of over 2,500 employees, which is instrumental in sourcing the majority of our customers. We also rely on external channels, such as direct sales agents, for referring potential customers. Further, the implementation of a virtual private network connecting all our offices enables us to centrally process and analyse customer data at our Gurgaon data centre. This lends us operational efficiencies and enables us to monitor various risks and improve customer service and experience.

We believe that our strong brand recognition within India helps attract new customers. We were awarded "Business Superbrand" by Superbrand India 2016, "Best Affordable Housing Finance Company of the Year" by the Associated Chambers of Commerce and Industry of India (ASSOCHAM) at the ASSOCHAM Housing Excellence Awards in Fiscal Year 2016, the "Housing Finance Company of the Year" by Accommodation Times in Fiscal Year 2016, the "Best Housing Finance Company" by Realty Plus in Fiscal Year 2016, the "Excellence in Home Loan Banking" by CMO Asia and Asian Confederation of Businesses, the "Best Housing Finance Company" of the Fiscal Year 2014 by ASSOCHAM, and the "Fastest Growing Housing Finance Company" in the year 2014 by National Real Estate Development Council (NAREDCO).

We believe that we have been able to build and strengthen our brand and increase our brand awareness through quality customer service, particularly in the retail mortgage segment, and various marketing and advertising campaigns in print and electronic media. In addition, we also benefit from the strong brand recognition of the "Indiabulls" brand. We believe that our customer-oriented approach and efficiencies have aided us in achieving customer loyalty and have established us as one of the leading HFCs in India.

Prudent credit and information technology policies and processes leading to improved asset quality

Our credit policies specify the types of loans to be offered, the documentary requirements and limits on loan amounts, all aimed at ensuring underwriting of low risk, good quality and profitable loans. We have also established protocols and procedures to be followed when engaging with customers, as well as to determine the authority and levels to which credit decisions can be taken at various offices. Over the years, we have developed expertise in mortgage loan underwriting and this is the cornerstone of our business.

We also have an experienced collection team, which has, with the support of our legal team, enabled us to maintain high collection efficiencies through economic cycles. Our centralized credit analysis processes combined with our dedicated collection team help maintain the quality and growth of our total AUM. As at March 31, 2016, our consolidated gross NPAs as a percentage of our consolidated AUM were 0.84% and our consolidated net NPAs (which reflect our gross NPAs less provisions for NPAs, except counter-cyclical provision) as a percentage of our consolidated AUM were 0.35%. Historically, we have maintained a higher provisioning for NPAs than the norms prescribed under the regulatory guidelines. As at March 31, 2016, our provisioning cover (excluding counter-cyclical provision of ₹690.0 million) was 58.8% of our gross NPAs.

Additionally, through the adoption of various information security measures, we are able to maintain our competitiveness, customer confidence and brand value. For further details on our information security measures, please see "Our Business – Operational Risk Management" on page 108. See also "Our Business – Our Strategies – Continue to maintain prudent risk management policies for our assets under management" and "Our Business – Our Lending and Other Financial Products – Loans Against Property" on pages 99 and 100, respectively.

Technology advancements aimed at increasing customer accessibility

We are one of the first home lenders to offer the e-home loans facility to our customers. e-home loans is a technological endeavour that enables our home loan customers to avail of paperless loans through their computers or mobile devices. With this technology, the entire process of loan origination (from loan application to approval) can be managed through the devices thus obviating the need for branch visits. This results in significant customer convenience as it provides for a seamless loans approval process that is operable remotely, and accessible at times convenient to the customer. We also expect to be able to enhance our access to customers in regions where we do not have branches through our e-home loans facility. Additionally, this also results in reduced operational costs and overheads.

Experienced Board of Directors and senior management team

Our Board of Directors comprises a diversified mix of professionals, who have extensive experience and expertise in the fields of business, legal affairs, taxation, banking and regulatory affairs, among others. Few members of our senior management team have been with us since the commencement of our operations. Our management team has had a continued and strong focus on identifying opportunities in the housing finance business that are capable of providing steady returns. We believe that as a result, we have been able to demonstrate strong growth while minimising our risk profile. See also "Our Management" on page 123.

In order to strengthen our credit appraisal and risk management systems, we have recruited a number of senior managers who have extensive experience in the Indian banking sector and specialized lending finance firms providing loans to retail customers, to develop and implement our credit policies. We have also formed an asset liability management committee and a risk management committee. The asset management committee reviews our asset and liability positions and gives directions to our finance and treasury teams in managing the same. Our risk management committee approves, reviews, monitors and modifies our credit and operation policy from time to time, reviews regulatory requirements and implements appropriate mechanisms and guidelines related to risk management.

OUR STRATEGIES

Our primary strategies are as follows:

Continue our expansion by focusing on housing loans and affordable housing segment

The demand for housing in India is expected grow to 88.78 million units by 2017 due to increasing population, income levels, urbanisation and a growing trend towards nuclear families. (*Source: NHB Report on Trend and Progress of Housing in India 2014*) For further details, please see “Industry Overview” on page 85.

For the Fiscal Year 2016, our housing loans were disbursed at an average ticket size of ₹2.5 million, with an average LTV ratio of 71% (at origination). We intend to continue to grow as a leading housing loan provider, with a focus on the affordable housing segment. We believe that the significant potential for growth in the housing finance industry and favourable government initiatives in the affordable housing segment in India, present us with an opportunity to expand of our housing loans business and in particular, in the affordable housing segment. We believe that our continued focus on housing loans and on the affordable housing segment will allow us to maintain a steady rate of growth and robust profitability, while adopting a cautious credit underwriting approach.

Grow our loan book through technological endeavours

We expect to increase our access to customers through technological advancements, which would also result in increased customer satisfaction and reduced costs and overheads. For instance, we are one the first home lenders to recently introduce the e-home loans facility to our customers. The e-home loans facility is a technological endeavour that enables our housing loan customers to avail of paperless loans through their computers or mobiles devices. With this technology, the entire process of loan origination (from loan application to approval) can be managed through the devices thus obviating the need for branch visits. This results in significant customer convenience as it provides for a seamless loans approval process that is operable remotely, and accessible at times convenient to the customer. We also expect to be able to enhance our access to customers in regions where we do not have branches and through our e-home loans facility.

Further, we have tied up with UIDAI Aadhar for e-Signature and e-KYC under the Digital India Campaign introduced by the government. This results in significantly streamlining the loan approval and know your client processes by eliminating the need for multiple signatures and sets of documents. Further, we also provide personalised call centre support to our customers.

In addition to enhancing our brand presence, these technological advancements are also aimed at reducing operational costs by reducing manpower and obviating the need for branches in high cost urban areas, where the penetration of information technology is significant. Productivity of existing employees is expected to increase as well. For our sales team, travel time for multiple meetings to collect forms and documents is done away with resulting in higher operational efficiency. Human errors are also eliminated during the loan approval process under this automated system.

In keeping with our focus towards technological advancements, we organised Finnovate, a countrywide financial tech-innovation conclave, which invited individuals, teams, companies and start-ups to collaborate with and provide technology based solutions to the Company. Finnovate was launched in December 2015, and concluded recently with six business solutions being selected for implementation. More than 622 entries and 166 solutions from across the country were received through this initiative. We expect to organise such endeavours periodically in keeping with our continued focus on technological solutions and advancements.

Leverage our financial strength and improved ratings to increase our competitiveness, diversify our funding mix and reduce our funding costs

Our cost of borrowings is driven by our credit ratings, our financial discipline and our business performance. We have the highest long-term credit ratings of "AAA" (for our long-term loans and non-convertible debentures) from CARE and Brickwork Ratings and "AA+" (for our non-convertible debentures) from CRISIL and ICRA. Additionally, we have obtained a credit rating of "AAA" from CARE Ratings and Brickwork Ratings in relation to our subordinated debt programme. We also have the highest short-term credit rating of "A1+" from ICRA, CARE, CRISIL and India Ratings and Research. Our ratings signify a high degree of safety; and in certain cases as mentioned above, the highest degree of safety, regarding timely servicing of financial obligations and low credit risk. We believe that our ratings result in a lower cost of funds for us. Based on our ratings, we expect to continue to source funding at competitive rates from the debt capital markets and reduce our proportion of bank financing

to reduce our overall funding costs. Reduction in our cost of borrowings in turn allows us to reduce our cost of lending and competitively price our products to our customers. We believe that this competitive pricing combined with our loan service levels will allow us to attract more customers with good credit records, to grow our portfolio and attain a higher market share.

We also seek to continue to use a variety of funding sources to optimize funding costs, protect interest margins and maintain a diverse funding portfolio that will enable us to further achieve funding stability and liquidity.

Our consolidated funding mix is as follows:

Source of funding	(Amount in Millions)	
	FY 2016	FY 2015
Loans from banks and financial institutions	348,978.8	296,523.6
Non-convertible debentures and other debt instruments	204,436.0	135,484.0
Commercial papers	44,910.0	32,070.0
Subordinated debt	11,528.3	9,796.8
Perpetual Debt	1,000.0	1,000.0
Total	610,853.1	474,874.4

Continue to maintain adequate liquidity

One of our key operating principles is to maintain adequate liquidity at all times. As of March 31, 2016, we have implemented a liquidity policy that seeks to maintain approximately 15% to 20% of our loan assets in the form of cash, cash equivalents and investments in liquid schemes of mutual funds and other liquid debt instruments. We continuously monitor this ratio and actively take steps to maintain this liquidity position and will continue to do so in the future. We believe this liquidity position has in the past assisted us, and will in the future assist us, in obtaining high credit ratings, which in turn will allow us to raise funds at lower costs. For Fiscal Year 2016, our consolidated cash and cash equivalents (as per our cash flow statement) were ₹50,704.4 million.

Continue to maintain prudent risk management policies for our assets under management

We believe that the success of our business is dependent on our ability to consistently implement and streamline our risk management policies. As we focus on building a large AUM with low credit risk, we will continue to maintain strict risk management standards to reduce credit risks and promote a robust recovery process.

We also intend to further develop and strengthen our technology platform to support our growth and improve the quality of our services. We will continue to update our systems and use latest technology to streamline our credit approval, administration and monitoring processes to meet customer requirements on a real-time basis. We believe that improvements in technology will also reduce our operational and processing time, thereby improving our efficiency and allowing us to provide better service to our customers.

Expand our physical and online networks and leverage digital media

We believe that there are still opportunities to grow our network and expand our reach within India and outside India. We believe that our target customers are presently underserved by the existing financial institutions, which presents us with significant opportunities for growth. We will continue to add to our network of offices across India and outside India. In addition, we intend to significantly increase our online and digital presence. We believe that our target customer base is increasingly relying on online platforms to make financial decisions. Further, with more users using social networking sites such as Facebook and Twitter, we have established our presence on these platforms and aim to connect with them on an ongoing basis. Through such digital platforms, we aim to provide all the relevant information to our customers at all times, instantaneously.

OUR LENDING AND OTHER FINANCIAL PRODUCTS

Our lending products include housing loans, loans against property and corporate mortgage loans.

Housing Loans

We offer secured mortgage-backed housing loans to salaried and self-employed individuals. We provide housing loans for:

- the purchase of flats, row houses and bungalows from real estate developers and existing freehold properties;
- the purchase of properties in an existing co-operative housing society or apartment owner's association;
- the construction of a residential dwelling unit on a plot already owned;
- the purchase of a residential plot and/ or construction thereon;
- the extension of an existing residential property, such as adding floors or new rooms; and
- the renovation of an existing residential property.

We offer customised housing loan plans to suit our customers' needs. We also offer comprehensive home buying solutions, which include selection of a suitable property, checking approvals on the project, filing documents, registering the property and choosing the appropriate EMI and tenure of the loan for the customer. We engage with our customers on an ongoing basis to ensure a high degree of customer satisfaction.

Housing loans can be applied for, either by individual owners or by co-owners. Proposed owners of the property will have to be co-applicants. Loans may be approved even if the property is yet to be selected by the customer.

For loans up to ₹3 million, the NHB allows a loan to value ratio of up to 90%, however our loan to value ratio typically does not exceed 80% of the value of the property. The average term of a loan is typically around 15 years, As of June 30, 2016, the majority of our housing loans bore floating rates of interest.

For the Fiscal Year 2016, our housing loans were disbursed at an average ticket size of ₹2.5 million, with an average LTV ratio at origination of approximately 71% of the market value of the property.

Loans against Property

We provide loans against property primarily to self-employed individuals, proprietorships and small businesses for working capital or business expansion needs, which are secured by mortgages against, among others, the self-occupied residential properties owned by our customers.

For the Fiscal Year 2016, our loans against property were disbursed at an average ticket size of ₹7.3 million, with an average LTV ratio of 49% (at origination). The average term of the loan is typically seven years.

Corporate Mortgage Loans

We provide finance to real estate developers through corporate mortgage loans. Corporate mortgage loans are made available through two main types of structures: (i) residential construction finance and (ii) lease rental discounting loans for commercial properties.

Lease rental discounting loans are loans provided against hypothecation of the rental receivables (which are routed through an escrow account) of an operational commercial property, which is the primary source of repayment/payment of the loan and the other dues. The commercial property is also mortgaged to secure the loan and the other dues. Additionally, the shares of the mortgagor may be pledged to further secure the loan and other dues. A key consideration in the credit appraisal process is the enforceability of the mortgaged property and the other security.

Under residential construction finance, funding is for the construction of the residential units and/or projects. The land and the housing units and/ or projects being constructed, as well as all the sales and other receivables from such units and/ or projects are mortgaged or charged in our favour to secure the loan and other dues.

LENDING POLICIES AND PROCEDURES

Overview

We are an HFC registered with the NHB, which is the regulator for HFCs in India. The NHB stipulates prudential guidelines, directions and circulars in relation to HFCs. For further details, please see "Regulations and Policies" on page 115.

Within the NHB guidelines, directions and circulars, HFCs can establish their own credit approval processes. As such, once a company has obtained an HFC license, the terms, credit levels, and interest rates of loans and any

credit approvals would be based upon the HFC's established internal credit approval processes framed in accordance with applicable regulations by the NHB. Each HFC undergoes annual inspections by the NHB. The inspections are exhaustive and can last for a period of three to four weeks, during which the regulators review the HFC's adherence to regulatory guidelines, scrutinize the loan book and individual loan files, including security documents, review the functioning of the Board of Directors and its committees and their adherence to minutes of various internal meetings, review the NPA and delinquent cases, review and evaluate the credit approval policies and credit assessment standards, review implementation of decisions and policies of the Board of Directors and review adherence to prescribed formats in the filing of regulatory reports.

We have a strong team of experienced officers in our credit appraisal and risk management teams to develop and implement our credit approval policies. Our credit approval policies focus on credit structure, credit approval authority, customer selection and documentation provided by the customer. Our risk management and appraisal systems are regularly reviewed and upgraded to address changes in the external environment.

Customer Appraisal and Approval Process

We have dedicated units that appraise and approve loan applications operating at the branch office, master service centre and head office levels. Each office must independently approve a prospective customer's loan application before any loan offer is made. Additionally, our MSCs are staffed by more senior personnel, who are involved in more complex credit decision making. We follow an exhaustive internal appraisal process that includes, amongst other things, checking the following:

- applicant's credit worthiness;
- quality, value and enforceability of the collateral;
- applicant's repayment sources and ability; and
- purpose and end-use of the loan.

We believe that our thorough credit approval process has, in part, allowed us to grow our high-quality AUM with low delinquency rates.

The customer appraisal process begins at the branch office level. All applications for retail mortgage loans by prospective customers must be submitted on our standardized forms. In addition to submitting a duly signed application form and processing fee cheque, prospective customers are required to submit certain KYC documents, including proof of name, date of birth, address and signature, as well as documents relating to the property to be purchased. To be eligible for a retail mortgage loan, each prospective customer must either be presently employed and receiving a salary from a corporation or be self-employed with an established business track record and sufficient earnings. Each such prospective customer is also required to provide requisite documentation for income verification purposes. If salaried, prospective customers are required to submit salary slips, bank statements and Form 16, a certificate issued to salaried personnel in India by their respective employers certifying the tax deducted at source from salary disbursements for such employees. If self-employed, prospective customers are required to submit income tax returns along with financial statements and bank statements. Borrowers which are proprietorships or companies are also required to submit certain approvals maintained by them in respect of their business and operations.

Once a prospective customer has submitted a completed application, credit officers in the branch office verify various details and empanelled third-party agencies conduct various on-site checks to verify the prospective customer's work and home addresses, as well as telephone numbers. We check the credit history and credit worthiness of the customer on various credit bureaus to ascertain the financial obligations of the customer and to ensure that the customer has a clean repayment track record, such as consumer credit reports from CIBIL for delays/ defaults by the borrower. We also carry out various reference checks with the customer's bankers and debtors, creditors, as well as with the customer's neighbours. Internally, we check our databases for any information and feedback on the customer. We carry out title and legal checks, including CERSAI checks, on the collateral to ensure that we have the first and sole charge on it. We conduct property valuations internally and also engage external property valuers to assess the property. The lower of the two valuations is considered by the credit officer. Additional checks are also undertaken by our fraud control unit to make sure that the customer is genuine.

Once the application review process is completed, the loan is sanctioned by the mandated approval authority. A credit decision is then communicated to the customer.

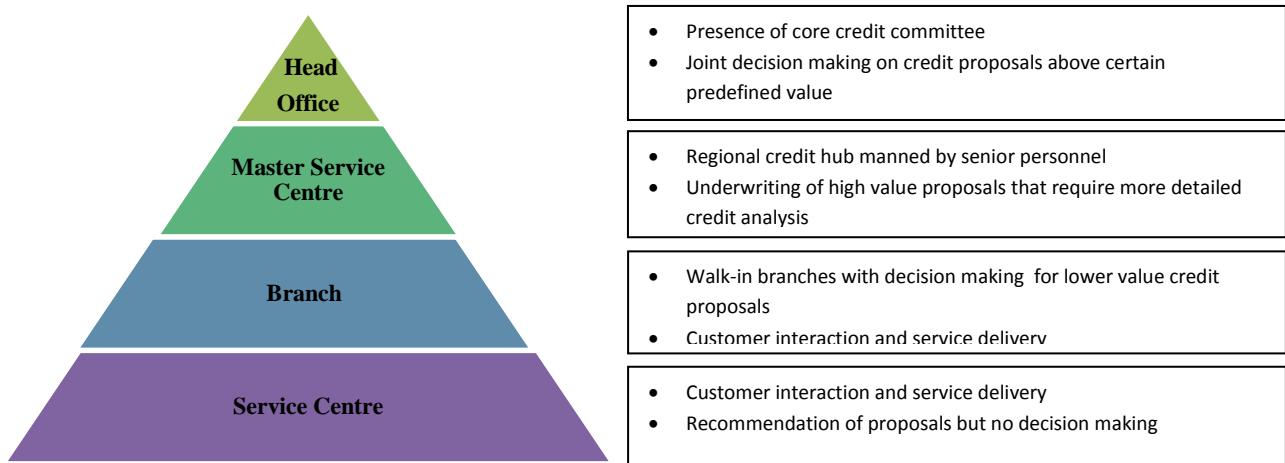

Before disbursing the loan, we must receive either electronic clearance instructions or post-dated cheques from the customer for the EMI payments. We also receive an additional cheque for the principal amount of the loan, which we can present if the loan becomes pre-payable for any reason. Once the direct debit authorizations and/or cheques have been received, the funds are disbursed to the customer.

Direct Sales Team

Our customers are sourced by our in-house direct sales team ("DST"), external direct sales agents ("DSAs") and through branch walk-ins. Our "feet-on-street" DST covers and penetrates the urban and semi-urban customer segments. As of March 31, 2016, we had a DST of over 2,500 employees located across our network. Our DST employees operate out of our branch offices, service centres and project sites. For Fiscal Year 2016, 85% of incremental mortgage loans were sourced in-house through our DST and walk-in customers. Of this, 74% of our consolidated mortgage loans were sourced through our DST, for Fiscal Year 2016.

The DST employees supervise approved and under-construction residential projects across India. They engage with customers at the time that the customers are selecting housing units for purchase. Often the DST employees show various developments to the customers and help the customers with the purchase decision. Once the sale is ready to close, the DST employees also assist the customers in obtaining a housing loan.

We also rely on DSAs for referring potential customers. Our DSAs are typically proprietorships and self-employed professionals like chartered accountants who primarily work with multiple small businesses providing consulting services. They pass on leads of any loan requirements of these small businesses to us. These DSAs do not work exclusively with us and may also work with other lenders, including our competitors. DSAs pass on leads to us and document collection, credit appraisal and eventual loan fulfilment are done by us in-house.

Portfolio Monitoring

Our risk audit and collection department reviews and monitors our loan portfolio. This department monitors debt repayment levels of particular loan exposures on a weekly basis. This allows us to identify potentially problematic loans at an early stage and prepares us for immediate action if any principal or accrued interest repayment problems arise.

The portfolio is monitored by way of various analyses consisting of:

- bucket-wise ageing analysis (i.e., number of days past due) of the outstanding portfolio;
- concentration risk monitoring in segments of the portfolio;
- early warning delinquency analysis; and
- historical case review on a periodical basis, including review of credit risks and operational risks.

Asset Recovery and Non-Performing Loans

Once an account is classified as a NPA, in accordance with the NHB Directions, proceedings under the SARFAESI Act commence. The proceedings commence with the issuance of a notice to the borrower and/ or the guarantor calling upon them to pay the demanded amount within 60 days. In the case of non-compliance, another notice is issued for taking over symbolic possession of mortgaged property. Thereafter, applications seeking police assistance for taking physical possession of the mortgaged property are filed before the magistrates and collectors concerned.

We then obtain a valuation of the mortgaged property and fix the reserve price and put it up for auction. At times, the property is also sold through private arrangements after obtaining consent of the borrower. Portions of the portfolio where the likelihood of repayment is remote are written off. Subsequent recoveries on these portions are recognized directly in our income statement but the asset itself is not regularized and remains written off.

In addition to initiating proceedings under the SARFAESI Act, in the event that EMI or principal repayment cheques issued by our customers are dishonoured on account of insufficiency in funds, we undertake proceedings under the Negotiable Instruments Act for asset recovery and NPAs. Upon the receipt of the relevant information and documents such as the physical cheque and bouncing memo, proceedings under the Negotiable Instruments Act may be initiated by serving a notice demanding payment. If no payment is received within the stipulated period, a criminal complaint is filed before the competent court having jurisdiction to try the case. After the trial, if the accused person(s) are convicted, they are liable for imprisonment or fine or both.

We also initiate arbitration proceedings based on arbitration clauses in our loan agreements. Once the arbitrator accepts the request for appointment, he/ she sends acceptance in writing to all the parties to the dispute and calls upon the claimant to file the statement of claim. We file our statement of claim before the arbitrator and if required, an application under the Arbitration and Conciliation Act seeking appropriate interim reliefs. If the respondent(s) do not appear in the arbitration proceedings even after due service, they are proceeded *ex parte*. The proceedings are conducted as per procedure laid down in law and by the arbitrator. After adjudication, *ex parte* or otherwise, an award is passed by the arbitrator.

The following table sets forth details of our consolidated non-performing loans (in absolute terms and also as a percentage of our consolidated AUM) and our cumulative provision as at March 31, 2016, 2015 and 2014:

Provisioning Policy

To establish allowances and provisions, loans are classified by their perceived risk criteria in accordance with our policies and accounting requirements and in compliance with the NHB Directions. An NPA may be classified as a substandard asset, a doubtful asset or a loss asset. Depending on the classification, provision is required to be made on the book value of the asset, taking into account the degree of well-defined credit weakness and the extent of dependence on the collateral security for realisation. We utilize a combination of substandard asset provisions, standard asset provisions, and counter-cyclical provisions on our outstanding AUM.

Substandard asset provisions are made as a proportion of the delinquent portfolio aged beyond a certain level. The percentage provided for increases with increasing delinquency ageing. Standard asset provisions are made on the standard assets at rates prescribed by the NHB. Counter-cyclical provisions are made to mitigate cyclical and to build a buffer which can be drawn down in adverse circumstances. As at March 31, 2016, our consolidated NPAs were ₹5,770.8 million, representing 0.84% of our consolidated AUM. As at March 31, 2016, we made consolidated provisions for contingencies of ₹8,314.9 million, representing 144% of our consolidated NPAs, which comprised ₹4,084.7 million as provision for our consolidated NPAs and ₹4,230.2 million as provision for our standard assets.

The following table is a summary of the risk classification of our consolidated gross NPAs (in absolute terms and as a percentage of our consolidated gross NPAs) and our provision for probable losses as at March 31, 2016, 2015 and 2014:

Further, historically, we have maintained a higher provisioning for NPAs than the norms prescribed under the regulatory guidelines.

OTHER PRODUCTS AND BUSINESSES

In addition to our housing finance business, we undertake certain other limited business activities. These include management of mutual fund schemes by our asset management company, Indiabulls Mutual Fund, management of alternate investment fund schemes by our Subsidiary Indiabulls Asset Management Company Limited, cross-selling insurance to our customers and brokering mutual funds. In the past, we have also extended commercial vehicle loans but we no longer do so. Further, we actively seek to diversify our income sources and explore other business opportunities in the financial services sector in India or abroad, which may be through an existing or a new subsidiary company, joint-venture and/ or associate entity, subject to regulatory approvals.

SOURCES OF FUNDING

After disbursing loans, we often sell-down parts of our portfolio through securitization and/or direct sell-down or assignment of loan receivables to various banks, insurance companies and other financial institutions. Our assignment and/or securitization transactions are conducted on the basis of our internal estimates of funding requirements and may vary from time to time. The balance outstanding in the pool aggregated to ₹83,600.5 million, as at June 30, 2016, on a standalone basis, and ₹78,187.5 million, as at March 31, 2016, on a consolidated basis, respectively.

LIABILITY MANAGEMENT

We have a robust liability management program that leads to stable borrowings at reasonable costs. We have lending relationships with Indian public sector banks, private banks, mutual funds, provident funds, pension funds, insurance companies and others financial institutions.

Our borrowing is mainly in the form of term loans from banks, non-convertible debentures and commercial paper, issued on a private placement basis, with bonds forming a large part of our incremental borrowings. Our

dependence on short-term borrowings is minimal and this lends stability to our liabilities, allowing us to manage our asset expansion accordingly.

Risk and Asset-Liability Management

Our Board of Directors has formed a risk management committee and asset liability management committee to help prudently manage major risks within the company.

The risk management committee is comprised of eight members who are responsible for, among other things:

- Approving, reviewing, monitoring and modifying the credit and operation policy from time to time;
- Reviewing customer complaints received by various regulators, courts, legal bodies and internal complaints;
- Reviewing the applicable regulatory requirements;
- Approving all of our functional policies;
- Putting in place appropriate mechanisms to detect customer fraud during the loan approval process;
- Reviewing the profiles of the high loan customers from time to time;
- Reviewing branch audit reports;
- Reviewing the implementation of FPCs, KYC and PMLA guidelines;
- Defining loan sanctioning authorities, including credit committee vetting processes, for various types/values of loans as specified in the credit policy approved by the Board of Directors; and
- Reviewing SARFAESI cases.

The asset liability management committee is comprised of eight members who are responsible for, among other things:

- Reviewing the Company's assets and liabilities position and liquidity risk;
- Managing and instructing the finance and treasury teams in the event of asset liability management mismatches beyond permissible limit as set out by the committee;
- Managing interest risk, product pricing and launches of new products;
- Reviewing periodically prime lending rates and recommend for changes for the benchmark rates of our Company;
- Approving of inter-corporate loans to subsidiaries/associate companies;
- Measuring future cash flows as per the given matrix in the NHB guidelines as fix up tolerance level in different time buckets as prescribed in the guidelines;
- Analyzing various risks, including liquidity risk, interest rate risk, investment risk and business risk;
- Assessing opportunity costs and maintenance of liquidity;
- Evaluating market risk involved in launching new products;
- Deciding our transfer pricing policy; and
- Approving and regularly reviewing our business plan and targets.

Our Board of Directors has constituted various other committees, namely the audit committee, the nomination and remuneration committee (formerly known as the "remuneration committee"), the stakeholders relationship committee (formerly known as the "shareholders'/investors' grievance committee"), the compensation committee, the customer grievance committee, the corporate social responsibility committee and the investment committee, which act in accordance with the terms of reference determined by the Board of Directors, as well as applicable corporate governance regulators under the Listing Agreement. These committees comprise independent directors on our Board of Directors along with experienced members of our senior management team who have put in place preventive measures to mitigate various risks. Our Company has a robust mechanism to ensure the ongoing review of systems, policies, processes and procedures to contain and mitigate risks that arise from time to time. The key principles we apply to address and mitigate interest rate risk, liquidity risk, credit risk and operational risk are summarized below.

Interest Rate Risk

We are in the business of lending. We borrow funds at floating and/or fixed rates of interest, while we primarily extend credit at floating and/or fixed rates of interest. Our profitability is linked to interest rates. This exposes us to an interest rate risk. Consequently, exposure to interest rate fluctuations and increases needs to be managed in order to mitigate the risk.

Our business is impacted by a change in interest rates although the floating rate loans only re-price on a periodic basis. Our balance sheet consists of Indian Rupee denominated assets and liabilities and U.S. Dollar denominated liabilities. Consequently, movements in domestic as well as U.S. Dollar interest rates constitute the primary source of interest rate risk.

This risk is managed on the balance sheet by the management team with the guidance of our asset liability management committee. The committee actively reviews the assets and liabilities position of our Company and gives directions to the finance and treasury teams in managing the same.

While we have entered into various swap arrangements to reduce our exposure to interest rate fluctuations, such arrangements may not sufficiently reduce our exposure to fluctuation in interest rates or adequately protect us against any unfavorable fluctuation in the interest rates.

For more information on our liquidity risk, see "Risk Factors – We are vulnerable to the volatility in interest rates and we may face interest rate and maturity mismatches between our assets and liabilities in the future which may cause liquidity issues." on page 13.

Foreign exchange risk

Substantially all of our revenue and our expenditure are denominated in Indian Rupees. However, we undertake external commercial borrowings in U.S. Dollars. During Fiscal Year 2015, we drew down external commercial borrowings amounting to USD 200 million, on a standalone basis. Additionally, we recently received an RBI approval for additional external commercial borrowings amounting to USD 250 million during Fiscal Year 2016, which is at the final stages of draw down as on the date of this Prospectus. As a result, fluctuations in the exchange rate between the U.S. Dollars and Indian Rupees will affect our interest expenses, financial condition, cash flows and profitability. The Indian Rupees' exchange rate with the U.S. Dollars and other currencies is affected by, among other things, changes in India's political and economic conditions. See also "Risk Factors — We are subject to risks arising from exchange rate fluctuations, which could materially and adversely affect our business and financial conditions" on page 25. Any significant revaluation of the Indian Rupees may materially and adversely affect our cash flows, revenue, earnings and financial position, and the value of any dividends payable in U.S. Dollars.

While we have entered into various hedging arrangements to hedge our entire balance sheet risk on our foreign exchange exposure, such arrangements may not sufficiently reduce our exposure to fluctuation in interest rates or adequately protect us against any unfavorable fluctuations in exchange rates.

Liquidity Risk

Any liquidity risk arising due to non-availability of adequate funds at an appropriate cost is minimized through a mix of strategies, including asset securitization and assignment and temporary asset liability gap. One of the key

operating principles of the Company is to maintain adequate liquidity at all times. The Company has strictly adhered to this principle and attempts to consistently maintain approximately 15% to 20% of its on-balance sheet assets in the form of cash, cash equivalents, investments in mutual funds and undrawn but committed cash credit limits.

We constantly monitor our liquidity under the guidance of the asset liability management committee and the investment committee. We classify our assets and liabilities as current and non-current based on their contracted maturities. However, our classification of assets and liabilities into various maturity profiles reflects various adjustments for prepayments and renewals in accordance with the guidelines issued by the NHB. We manage our balance sheet while drawing new debt and extending credit so as to minimize potential asset-liability mismatches. We do not deploy funds raised from short term borrowing for long term lending.

The following table sets out an analysis of the maturity profile of certain of our Company's interest-bearing assets and interest-bearing liabilities across time buckets as at March 31, 2016:

Capital Adequacy

HFCs are required to maintain a minimum CRAR norm of 12% of the risk weighted assets and risk adjusted value of off-balance sheet items before declaring any dividends. In addition, the NHB also require HFCs to transfer a minimum of 20% of their annual profits to a reserve fund. The table below sets forth our standalone CRAR as at March 31, 2016, 2015 and 2014:

Particulars	Standalone		
	For the Fiscal Year ended March 31,		
	2016	2015	2014
CRAR ¹	20.51%	18.35%	19.14%

CRAR – Tier I Capital	17.86%	15.24%	15.05%
CRAR – Tier II Capital	2.65%	3.11%	4.09%]

Note:

1. CRAR is defined as a capital ratio consisting of Tier I and Tier II Capital to its aggregated risk weighted assets (as per the NHB Regulations) and risk adjusted value of off-balance sheet items.

Credit Risk

Credit risk is the risk of loss that may result from a borrower's or counterparty's failure to meet the contractual obligation of repaying debt as per the agreed terms. Credit risk is actively monitored and controlled by our risk management committee. The committee reviews and updates the credit policy, which is strictly adhered to by our underwriting teams. We also employ advanced credit assessment procedures, which include verifying the identity and checking references of the prospective customer thoroughly at the lead generation stage. Our extensive local presence also enables us to maintain regular direct contact with our customers. The underwriting team works closely with our fraud control unit, which uses internal and external sources to identify all possible fraudulent loan applications.

The Risk Management Committee is comprised of eight members, including members of our senior management team with significant experience in the industry. The Risk Management Committee meets multiple times during the year and actively monitors emergent risks to which our Company may be exposed. The Risk Management Committee has put in place enhanced control measures in an attempt to minimize these risks.

Operational risk management

Operational risk is the risk of loss resulting from (i) inadequate or failed internal processes, (ii) people and systems, or (iii) external events. Operational risk is associated with human errors, system failures, and inadequate procedures and controls. Operational risk exists in any kind of products and business activities.

We have identified certain types of the operational risk events which are more likely to result in substantial losses to our business. These include (i) credit risk, (ii) technology risk, (iii) employee risk, (iv) regulatory risk and (v) the risks arising from fraud and anti-money laundering transactions.

We have implemented strategies and methods to safeguard against these risks:

Credit risk

We have an in-house internal audit team, which conducts periodic audits for all our businesses and functions.

Technology risk

We have an in-house IT team, which ensures that the software and hardware systems are not only the best but also continuously upgraded and safeguarded against any kind of technology related threats. The IT team is responsible for ensuring that the occurrence and frequency of IT downtimes is kept to a minimum. The team is also responsible for the accessibility of our IT system to authorized users and password management.

Employee risk

We have implemented an effective screening programme to conduct pre-employment background checks. Adequate and proper reference checks and screening of the prospective employee's credentials are conducted prior to recruitment.

Regulatory risk

We require our employees to follow a clear procedure to ensure that all the regulatory clearances are obtained for the underlying projects before providing any types of financial support to such projects. Any communication received by us, including legal notices, customer letters, banks communications, regulatory notices or orders are promptly recorded and forwarded to the relevant departments who are required to process such communication in a timely manner. This process is managed by our in-house regulatory compliance team.

Fraud and anti-money laundering transactions

At the time of appraisal of a loan or a business proposal, we review the underlying documents from KYC as well as money laundering and fraud prevention perspectives. Our fraud control unit also conducts spot checks or a random basis. We also ensure the preservation of records in compliance with the Prevention of Money Laundering Act of 2002.

COMPETITION

We face competition in the lending business from domestic banks as well as other HFCs and NBFCs. Our primary competitors are HDFC Bank, HDFC Limited, ICICI Bank and Axis Bank.

The business of the NHB, among others, includes promoting, establishing, supporting or aiding in the promotion, establishment and support of HFCs; making loans and advances or other forms of financial assistance for housing activities of HFCs, scheduled banks, state co-operative agricultural and rural development banks or any other institution or class of institutions as may be notified by the Central Government; guaranteeing the financial obligations of HFCs and underwriting the issue of stocks, shares, debentures and other securities of HFCs; formulating one or more schemes for the purpose of mobilization of resources and extension of credit for housing; providing guidelines to the HFCs to ensure their growth on sound lines; providing technical and administrative assistance to HFCs and exercising all powers and functions in the performance of duties entrusted to the NHB under the NHB Act or under any other law for the time being in force.

Under the NHB Act, every HFC is required to obtain a certificate of registration and meet the requirement of net owned funds of ₹1,000 lacs or such other higher amount as the NHB may specify for commencing or carrying on the business of HFCs. Further, every HFC is required to invest and continue to invest in India in unencumbered approved securities, an amount which, at the close of business on any day, is not less than 5% (or such higher percentage as the NHB may specify, not exceeding 25%) of the deposits outstanding at the close of business on the last working day of the second preceding quarter.

Additionally, every HFC is required to maintain in India an account with a scheduled bank in term deposits or certificate of deposits (free of charge or lien) or in deposits with the NHB or by way of subscription to the bonds issued by the NHB, or partly in such account or in such deposit or partly by way of such subscription, a sum which, at the close of business on any day, together with the investment as specified above, shall not be less than 10% (or such higher percentage as the NHB may specify, not exceeding 25%), of the deposits outstanding in the books of the HFC at the close of business on the last working day of the second preceding quarter. The Recovery of Debts due to Banks and Financial Institutions Act, 1993

The Recovery of Debts due to Banks and Financial Institutions Act, 1993 (the “**DRT Act**”) provides for establishment of the Debts Recovery Tribunals (the “**DRTs**”) for expeditious adjudication and recovery of debts due to banks and public financial institutions or to a consortium of banks and public financial institutions. Under the DRT Act, the procedures for recovery of debt have been simplified and time frames have been fixed for speedy disposal of cases. The DRT Act lays down the rules for establishment of DRTs, procedure for making application to the DRTs, powers of the DRTs and modes of recovery of debts determined by DRTs. These include attachment

and sale of movable and immovable property of the defendant, arrest of the defendant and defendant's detention in prison and appointment of receiver for management of the movable or immovable properties of the defendant.

The DRT Act also provides that a bank or public financial institution having a claim to recover its debt may join an ongoing proceeding filed by some other bank or public financial institution against its debtor at any stage of the proceedings before the final order is passed by making an application to the DRT.

The Housing Finance Companies (National Housing Bank) Directions, 2010, as amended up to Master Circular, 2016

The objectives of the Housing Finance Companies (National Housing Bank) Directions, 2010 (the "**NHB Directions, 2010**") is to consolidate and issue directions in relation to the acceptance of deposits by the housing finance companies, provide the prudential norms for income recognition, accounting standards, asset classification, provision for bad and doubtful assets, capital adequacy and concentration of credit/investment to be observed by the housing finance institutions and the matters to be included in the auditors' report by the auditors of housing finance institutions.

In accordance with the prudential norms mentioned in the NHB Directions, 2010, income recognition shall be based on recognized accounting principles. Every HFC shall, after taking into account the degree of well-defined credit weaknesses and extent of dependence on collateral security for realization, classify its lease/hire purchase assets, loans and advances and any other forms of credit into certain specified classes, viz. standard assets, sub-standard assets, doubtful assets and loss assets. Every HFC, after taking into account the time lag between an account becoming non-performing, its recognition as such, the realization of the security and the erosion over time in the value of security charged, is required to make provision against substandard assets, doubtful assets and loss assets as provided under the NHB Directions, 2010.

The NHB has amended the provisioning norms in the NHB Directions, 2010, pursuant to the notification no. NHB.HFC.DIR.3/CMD/2011 dated August 5, 2011, as further amended by NHB vide notification no. NHB.HFC.DIR.4/CMD/2012 dated January 19, 2012, as amended by notification no. NHB.HFC.DIR.9/CMD/2013 dated September 6, 2013 and included in the Master Circular - The Housing Finance Companies (NHB) Directions, 2010 dated September 9, 2015. The provisioning requirement in respect of loans, advances and other credit facilities including bills purchased and discounted are required to be:

- (a) loss assets - the entire assets are required to be written off. If assets are permitted to remain in the books for any reason, then 100% of the outstanding should be provided for;
- (b) doubtful assets - 100% provision to the extent to which the advance is not covered by the realizable value of the security to which a HFC has a valid recourse shall be made and in addition, depending upon the period for which the asset has remained doubtful provision to the extent of 25% to 100% of the secured portion i.e. the estimated realisable value of the outstanding shall be made in the following manner:
 - i) 25% up to the period of one year; ii) 40% for the period of one year to three years and, iii) 100% for the period more than three years;
- (c) substandard assets - provision of 15% of the total outstanding should be made; and
- (d) standard assets-(i) standard assets with respect to housing loans at teaser/special rates - provision of 2% on the total outstanding amount of such loans and the provisioning of these loans to be re-set after one year at the applicable rates from the date on which the rates are re-set at higher rates if the accounts remain standard; (ii) (a) standard assets in respect of Commercial Real Estates Residential Housing ("CRE-RH") (consisting of loans to builders/developers for residential housing projects (except for captive consumption). Such projects do not include non-residential commercial real estate. However, integrated housing projects comprising of some commercial space (e.g. shopping complex, school etc.) can be classified as CRE-RH, provided that the commercial space in the residential housing project does not exceed 10% of the total floor space index ("FSI") of the project. In case the FSI of the commercial area in a predominantly residential housing complex exceeds the ceiling of the project loans, the entire loan should be classified as CRE (and not CRE-RH) - provision of 0.75% on the total outstanding amount of such loans; (ii) (b) standard assets in respect of all other Commercial Real Estates ("CRE") (consisting of loans to builders/developers/others for office buildings, retail space, multipurpose commercial premises multi-tenanted commercial premises, industrial or warehouse space, hotels, land acquisition, development and construction etc., other than those covered in (ii)(a). Loans for third dwelling unit onwards to an individual will also be treated as CRE

exposure) - provision of 1% on the total outstanding amount of such loans; and (iii) standard assets in respect of all loans other than (i) and (ii) - a general provision of 0.4% of the total outstanding amount of loans which are standard assets is required to be made.

Pursuant to the notification no. NHB.HFC.DIR.17/MD&CEO/2015 dated October 9, 2015, no HFC shall (i) grant housing loans up to ₹30.0 lacs to individuals with LTV ratio exceeding 90%, (ii) grant housing loans above ₹3.0 lacs and up to ₹75.0 lacs to individuals with LTV exceeding 80% and grant housing loans above ₹75.0 lacs to individuals with LTV exceeding 75%.

Every HFC shall maintain a minimum capital ratio consisting of Tier I and Tier II capital which shall not be less than 12% of its aggregate risk weighted assets and of risk adjusted value of off-balance sheet items.

Under the NHB Directions, 2010, degrees of credit risk expressed as percentage weighting have been assigned to balance sheet assets. Hence, the face value of each asset is multiplied by the relevant risk weights to arrive at its risk adjusted value of the asset. The aggregate shall be taken into account for calculating the minimum capital adequacy ratio of a housing finance institution.

Further, in terms of the NHB Directions, 2010, no HFC shall invest in land or buildings, except for its own use, an amount exceeding 20% of its capital fund (aggregate of Tier I capital and Tier II capital). Such investment over and above 10% of its owned funds is required to be made only in residential units. Additionally, no HFC shall lend to any single borrower an amount exceeding 15% of its owned funds, and to any single group of borrowers, an amount exceeding 25% of its owned funds. A HFC is not allowed to invest in the shares of another company an amount exceeding 15% of its owned funds; and in the shares of a single group of companies an amount exceeding 25% of its owned funds. A HFC shall not lend and invest (loans/investments together) amounts exceeding 25% of its owned funds to a single party and 40% of its owned funds to a single group of parties. Additionally, a HFC is not allowed to lend against its own shares and any outstanding loan granted by a HFC against its own shares on the date of commencement of the NHB Directions, 2010 shall be recovered by the HFC in accordance with the repayment schedule.

The NHB Directions, 2010 provide for exposure limits for HFC to the capital market. Pursuant to the NHB Directions, 2010, the aggregate exposure of a HFC to the capital market in all forms should not exceed 40% of its net worth as on March 31 of the previous year. Within this overall ceiling, direct investment in shares, convertible bonds, debentures, units of equity-oriented mutual funds and all exposures to venture capital funds should not exceed 20% of its net worth.

The NHB vide circular no NHB(ND)/DRS/POL-No. 36/2010 dated October 18, 2010 has directed all HFCs not to charge any prepayment levy or penalty on pre-closure of housing loans by the borrowers out of their own sources. Further, NHB, vide circular no NHB(ND)/DRS/POL-No. 43/2011-2012 dated October 19, 2011 has directed all HFCs to discontinue the pre-payment levy or penalty on pre-closure of housing loans when (i) the housing loan is on floating rate basis and pre-closed by the borrower from funds received from any source and (ii) the housing loan is on fixed rate basis if pre-closed by the borrowers from their "own sources" which means any source other than by borrowing from a bank, HFC, NBFC and/or a financial institution. It has been clarified vide circular no NHB(ND)/DRS/Pol-No.48/2011-12 dated April 4, 2012 that the instruction applicable to fixed interest rate housing loans referred to in the circular dated October 19, 2011 will be applicable to such loans which carry fixed rate of interest at the time of origination.

Further, it has been directed vide circular no NHB(ND)/DRS/Pol-No.51/2012-13 dated August 7, 2012 that all dual/special rate (combination of fixed and floating) housing loans will attract the pre-closure norms applicable to fixed/floating rate depending on whether at the time of pre-closure, the loan is on fixed or floating rate. A fixed rate loan shall be considered to be a loan where the rate is fixed for entire duration of the loan. Thus, in the case of a dual/special rate housing loans, the pre-closure norm for floating rate will be applicable once the loan has been converted into floating rate loan, after the expiry of the fixed interest rate period. This shall be applicable to all such dual/special rate housing loans being foreclosed hereafter. Further NHB (ND)/DRS/Policy Circular No. 63/2014-15 dated August 14, 2014 directed that HFCs shall not charge foreclosure charges/pre-payment penalties on all floating rate term loans sanctioned to individual borrowers, with immediate effect. Subsequently, it was clarified vide no NHB(ND)/DRS/Policy Circular 66/2014-15 dated September 3, 2014 provisions of the circular issued on August 14, 2014 are applicable in respect of all floating rate term loans sanctioned to individual borrowers by HFCs, irrespective of the date of sanction and prepaid on or after August 14, 2014. The provisions of the said circular cover part as well as full prepayment. It was also clarified that aforesaid circular is applicable to term loans sanctioned to individual borrowers and loan in which company, form etc. is a borrower or co-

borrower, therefore is excluded from its purview.

The NHB vide circular no NHB(ND)/DRS/POL-No. 58/2013-14 dated November 18, 2013 has directed all HFCs to ensure that disbursement of housing loans sanctioned to individuals should be closely linked to the stages of construction of the housing projects/houses and upfront disbursal should not be made in cases of incomplete/under-construction/greenfield housing projects/houses.

In accordance with the Housing Finance Companies (NHB) Directions, 2010, Notification No. NHB.HFC.DIR.1/CMD/2010, ‘public deposit’ means a deposit but does not include any amount received as hybrid debt or subordinated debt the minimum maturity period of which is not less than sixty months. The Unsecured NCDs offered pursuant to the Issue will be in the nature of subordinated debt with minimum tenor of 10 years. Hence, such NCDs will not be treated as public deposits.

Guidelines for Asset Liability Management System for HFCs vide circular NHB/ND/DRS/Pol-No. 35/2010-11 dated October 11, 2010

The guidelines for introduction of asset liability management system by HFCs was issued by NHB vide circular NHB(ND)/HFC(DRS-REG)/ALM/1407/2002 dated June 28, 2002 (“**ALM Guidelines**”). NHB has since revised the guidelines. The revised guidelines would be applicable to all HFCs irrespective of whether they are accepting/holding public deposits or not. The ALM Guidelines for HFCs lays down broad guidelines for HFCs in respect of systems for management of liquidity and interest rate risks. The ALM Guidelines provide that the board of directors of a HFC should have overall responsibility for management of risks and should decide the risk management policy and set limits for liquidity, interest rate, exchange rate and equity price risks. Additionally, an asset-liability committee is required to be constituted consisting of the HFC’s senior management including the chief executive officer for ensuring adherence to the limits set by the board as well as for deciding the business strategy of the HFC (on the assets and liabilities sides) in line with the HFC’s budget and decided risk management objectives. Asset-liability management support groups to be constituted of operating staff are required to be responsible for analysing, monitoring and reporting the risk profiles to the asset-liability committee.

The ALM Guidelines also recommended classification of various components of assets and liabilities into different time buckets for preparation of gap reports (liquidity and interest rate sensitive). The gap is the difference between rate sensitive assets and rate sensitive liabilities for each time bucket. In accordance with the ALM Guidelines, HFCs which are better equipped to reasonably estimate the behavioural pattern of various components of assets and liabilities on the basis of past data/empirical studies could classify them in the appropriate time

buckets, subject to approval by the asset-liability committee/board of the HFC.

The Fair Practices Code provides for provisions in relation to providing regular and appropriate updates to the customer, prompt resolution of grievances and confidentiality of customer information. Further, the HFCs are required to disclose information on interest rates, common fees and charges through notices etc. HFCs are required to ensure that all advertising and promotional material is clear and not misleading and that privacy and confidentiality of the customers’ information is maintained. Further, whenever loans are given, HFCs should explain to the customer the repayment process by way of amount, tenure and periodicity of repayment. However if the customer does not adhere to repayment schedule, a defined process in accordance with the laws of the land shall be followed for recovery of dues. The process will involve reminding the customer by sending him/her notice or by making personal visits and/or repossession of security, if any.

Guidelines for Recovery Agents Engaged by HFCs

The Guidelines for Recovery Agents Engaged by HFCs (“**Recovery Agents Guidelines**”) were issued on July 14, 2008 by the NHB in relation to the practices and procedures regarding the engagement of recovery agents by the HFCs. HFCs are required to ensure that the agents engaged by them in the recovery process carry out verification of the antecedents of their employees and HFCs may decide the periodicity at which re-verification should be resorted to. HFCs are required to ensure that the recovery agents are properly trained to handle with care and sensitivity their responsibilities, in particular, aspects like hours of calling and privacy of customer information, among others. HFCs are also required to inform the borrower of the details of recovery agency firms/companies while forwarding default cases to the recovery agency.

Under the Recovery Agents Guidelines, any person authorized to represent a HFC in collection and/or security repossession should follow guidelines which includes inter-alia contacting the customer ordinarily at the place of his/her choice; interaction with the customer in a civil manner and assistance to resolve disputes or differences regarding dues in a mutually acceptable and orderly manner. Each HFC should have a mechanism whereby the borrower’s grievances with regard to the recovery process can be addressed. The details of the mechanism should also be furnished to the borrower. HFCs have been advised to constitute grievance redressal machinery within the company and give wide publicity about it through electronic and print media.

HFCs are required to, at least on an annual basis, review the financial and operational condition of the service providers to assess their ability to continue to meet their outsourcing obligations. Such due diligence reviews, which can be based on all available information about the service provider, should highlight any deterioration or breach in performance standards, confidentiality and security, and in business continuity preparedness.

Guidelines on Wilful Defaulters

Pursuant to the advice of the RBI and recommendations of the Puri Committee, the NHB *vide* circular NHB (ND)/DRS/Policy Circular No.74/2015-16 dated December 31, 2015 (“**Wilful Defaulters Guidelines**”) has laid down the mechanism for identification and reporting requirements of wilful defaulters by the HFCs. Every instance above ₹25 lakh limit of siphoning or diversion of funds along with all instances of default by wilful defaulters above this threshold shall merit a disclosure and intimation to all Credit Information Companies (“**CIC**”). The penal provisions envisaged under the Wilful Defaulters Guidelines include: (a) restriction of any further facilities being advanced to a listed wilful defaulter; (b) legal proceedings for recovery along with foreclosure for recovery of dues to be initiated expeditiously along with pursuing criminal proceedings wherever necessary; (c) a proactive approach towards seeking a change of management of a wilful defaulter entity; and (d) a covenant to be included in the lending terms restricting any entity to whom financing is provided, to refrain from inducting a listed wilful defaulter on its board. The HFCs are required to put in place transparent mechanisms so that the penal provisions are not misused and timely intimation to the CICs may be made as required.

Norms for excessive interest rates

The NHB *vide* circular NHB(ND)/DRS/POL-No-29/2009 dated June 2, 2009, has advised all HFCs to revisit internal policies in determining interest rates, fee and other charges. According to this notification, the board of each HFC is required to revisit its policies on interest rate determination, fees and other charges, including margins and risk premiums charged to different categories of borrowers and approve the same. HFCs are advised to put in place an internal mechanism to monitor the process and operations in relation to disclosure of interest rates and charges in view of the guidelines indicated in the Fair Practices Code, to ensure transparency in communications with borrowers.

Laws relating to Corporate Insolvency

In India, corporate insolvency proceedings are currently governed by multifarious legislations such as the Companies Act, SARFAESI Act 2002, Recovery of Debts due to Banks and Financial Institutions Act, 1993, Sick Industrial Companies Act, 1985 etc. However, a new Insolvency and Bankruptcy Bill, 2015 (the “**Bankruptcy Code**”) has been passed by the Indian Parliament and has received the assent of the President of India on May 28, 2016, and notified in the gazette of India soon after. However, the provisions and sections under the Bankruptcy Code is said to be notified in a staggered manner and have still not been made applicable in its entirety.

This law establishes a single holistic framework for the recovery of dues from the debtor. As per the Bankruptcy Code, upon an application made by creditors triggered by any financial default by a corporate debtor, corporate insolvency resolution proceedings are carried out under the aegis of a professional expert called the ‘Insolvency Resolution Professional’ under the supervision of the National Company Law Tribunal. Here, a Committee of Creditors consisting of the financial creditors and the corporate debtor shall collectively agree upon a resolution plan which will amicably settle the creditors as justly as possible within a stipulated time frame of 180 (one hundred and eighty) days only. If the resolution process fails the company goes into liquidation. Once the Bankruptcy Code is approved and notified as effective, the relevant provisions of the Companies Act, the Recovery of Debts due to Banks and Financial Institutions Act, 1993, the Sick Industrial Companies Act, 1985 will be amended accordingly. Pursuant to these amendments, all the recovery proceedings under each of these acts shall be streamlined and governed under the provisions of Bankruptcy Code.

Registration of a charge under the Companies Act 2013

Under the Companies Act 2013, our Company is required to register a charge on its property or assets or any of its undertakings, whether tangible or otherwise by filing the relevant form with the Registrar of Companies, National Capital Territory of Delhi and Haryana along with the instrument creating this charge within 30 days of its creation by paying a prescribed fee. No charge created by a company will be taken into account by the liquidator or any other creditor unless it is duly registered and a certificate of registration of such charge is given by the Registrar of Companies.

If the particulars of a charge are not filed within the aforesaid period, but filed within a period of 300 days of such creation or modification, an additional fee shall be levied. Further, our Company is required to keep at its registered office a register of charges and enter therein particulars of all the charges registered with the Registrar of Companies, National Capital Territory of Delhi and Haryana on any of the property, assets or undertakings of our Company as well as particulars of any modification of a charge and satisfaction of charge. The entries in the register of charges of the Company shall be made forthwith after the creation, modification or satisfaction of charge, as the case may be.

INDEPENDENT AUDITOR'S REVIEW REPORT ON REVIEW OF INTERIM FINANCIAL RESULTS

TO THE BOARD OF DIRECTORS OF INDIABULLS HOUSING FINANCE LIMITED

1. We have reviewed the accompanying Statement of Standalone Unaudited Financial Results of **INDIABULLS HOUSING FINANCE LIMITED** ("the Company") for the Quarter ended June 30, 2016 ("the Statement"), being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. This Statement which is the responsibility of the Company's Management and approved by the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Accounting Standard for Interim Financial Reporting (AS 25), prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to issue a report on the Statement based on our review.
2. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity', issued by the Institute of Chartered Accountants of India. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of Company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.
3. Based on our review conducted as stated above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the aforesaid Accounting Standards and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, including the manner in which it is to be disclosed, or that it contains any material misstatement.

(1) Significant Accounting Policies**i.) Basis of accounting and preparation of consolidated financial statements:**

The consolidated financial statements of the Company and its subsidiaries (together the 'Group') have been prepared under the historical cost convention on an accrual basis in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) and Accounting Standards (AS) under Section 133 of the Companies Act, 2013 and the relevant Provisions of the Companies Act, 2013 ("the 2013 Act") / Companies Act, 1956 ("the 1956 Act") as applicable. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

ii.) Principles of Consolidation:

The Consolidated Financial Statements relate to Indiabulls Housing Finance Limited (the 'Company' 'Parent') and its direct and indirect subsidiaries (collectively referred to as 'the Group'). The consolidated financial statements have been prepared using uniform accounting policies and on the following basis:

- (i) The financial statements of the Company and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after eliminating intra-group transactions, intra-group balances and resultant unrealised profits/ losses.
- (ii) Minority Interest's share of net profit of consolidated subsidiaries for the year is identified and adjusted against the income of the Group in order to arrive at the net income attributable to the shareholders of the Company.
- (iii) Investments of the Group in associate companies is accounted as per the Equity Method under Accounting Standard 23 – 'Accounting for Investments in Associates in Consolidated Financial Statements'.
- (iv) The financial statements of the subsidiary companies used in the consolidation are drawn upto the same reporting date as that of the Company i.e., March 31, 2016. These have been consolidated based on latest available financial statements.

iii.) Goodwill / Capital Reserve on consolidation:

Goodwill / Capital Reserve represents the difference between the Company's share in the net worth of subsidiaries, and the cost of acquisition at each point of time of making the investment in the subsidiaries. For this purpose, the Company's share of net worth is determined on the basis of the latest financial statements prior to the acquisition after making necessary adjustments for material events between the date of such financial statements and the date of the respective acquisition. Capital Reserve on consolidation is adjusted against Goodwill on consolidation, if any. The Goodwill on consolidation is evaluated for impairment whenever events or changes in circumstances indicate that its carrying amount may have been impaired.

iv.) Investment in Associates:

Investment in entities in which the Company has significant influence but not a controlling interest are reported according to the equity method i.e. the investment is initially recorded at cost, identifying any goodwill / capital reserve arising at the time of acquisition. The carrying amount of the investment is adjusted thereafter for the post acquisition change in the investor's share of net assets of the investee. The consolidated Statement of Profit and Loss includes the investor's share of results of the operations of the investee.

v.) Following Associate and Subsidiary Companies have been considered in the preparation of the Consolidated Financial Statements:

If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which during the specified period gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is highly probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on all timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws substantively enacted as at the Balance Sheet date, to the extent that the timing differences are expected to crystallise / capable of reversal in one or more subsequent periods.

Deferred Tax Assets are recognised where realisation is reasonably certain whereas in case of carried forward losses or unabsorbed depreciation, deferred tax assets are recognised only if there is virtual certainty of realisation backed by convincing evidence that there will be sufficient future taxable income available to realise such assets. Deferred Tax Assets are reviewed for the appropriateness of their respective carrying values at each Balance Sheet date.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

xxiii.) Derivative Transactions:

The Company has entered into Interest Rate Swap (IRS), Cross Currency Swaps(CCS), Forward Contracts(FC) and Foreign Currency Options(FCO). All outstanding IRS, CCS, FC contracts and FCO contracts are marked-to-market as at the year end. Losses are recognised in the Statement of Profit and Loss based on category of contracts and gains towards category of contracts are ignored, in line with the Announcement made by the ICAI dated March 29, 2008. Any profit/loss arising on cancellation/unwinding of IRS, CCS, FC contracts and FCO contract are recognised as income or expenses for the period. Premium / discount on IRS / CCS / FC / FCO contract which are not intended for trading or speculation purposes, are amortised over the period of the contracts if such contracts relate to monetary items as at the Balance Sheet date, except in case where they relate to the acquisition or construction of fixed assets, in which case, they are adjusted to the carrying cost of such assets.

xxiv.) Foreign Currency Transactions and Translations :

- Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of transaction.
- Monetary items denominated in foreign currencies at the year end are translated at year end rates. In case of Forward Foreign Exchange Contract (FEC), the difference between the year-end rate and the rate on the date of the contract is recognised as exchange difference and the premium on such forward contracts is recognised over the life of the forward contract. Any profit/loss arising on cancellation or renewal of forward contract is recognised as income or expense for the period in which such cancellation or renewal is made.
- Non monetary foreign currency items are carried at cost.
- Exchange differences arising on settlement / restatement of short-term foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss.
- The exchange differences arising on settlement / restatement of long-term monetary items which do not relate to acquisition of depreciable fixed assets are amortised over the maturity period / upto the date of settlement of such monetary items, whichever is earlier, and charged to the Statement of Profit and Loss. The unamortised exchange differences are carried in the Balance Sheet as "Foreign Currency Monetary Item Translation Difference Account" net of the tax effect thereon, where applicable.

xxv.) Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. Contingent liability is disclosed for (1) Possible obligations which will be confirmed only by future events not wholly within the control of the Company or (2) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation can not be made. Contingent Assets are not recognised in the financial statements.

xxvi.) Stock of Securities:

Stock of securities is valued at lower of cost and net realisable value. Cost is determined on weighted average basis.

xxvii.) Equity Index / Stock Futures:

a) Initial Margin – Equity Index/ Stock Futures, representing the initial margin paid, and Margin Deposits representing additional margin paid over and above the initial margin, for entering into a contract for equity index/ stock futures which are released on final settlement/squaring-up of the underlying contract, are disclosed under Loans and Advances.

b) Equity index/ stock futures are marked-to-market on a daily basis. Debit or credit balance disclosed under Loans and Advances or Current Liabilities, respectively, in the Mark-to-Market Margin – Equity Index/ Stock Futures Account, represents the net amount paid or received on the basis of movement in the prices of index/ stock futures till the Balance Sheet date.

c) As on the Balance Sheet date, profit/loss on open positions in equity index/ stock futures is accounted for as follows:

- Credit balance in the Mark-to-Market Margin – Equity Index/Stock Futures Account, being the anticipated profit, is ignored and no credit for the same is taken in the Statement of Profit and Loss.

- Debit balance in the Mark-to-Market Margin – Equity Index/Stock Futures Account, being the anticipated loss, is adjusted in the Statement of Profit and Loss.

d) On final settlement or squaring-up of contracts for equity index/stock futures, the profit or loss is calculated as the difference between the settlement/squaring-up price and the contract price. Accordingly, debit or credit balance pertaining to the settled/squared-up contract in Mark-to-Market Margin – Equity Index/Stock Futures Account after adjustment of the provision for anticipated losses is recognised in the Statement of Profit and Loss. When more than one contract in respect of the relevant series of equity index/stock futures contract to which the squared-up contract pertains is outstanding at the time of the squaring-up of the contract, the contract price of the contract so squared-up is determined using the weighted average cost method for calculating the profit/loss on squaring-up.

(1) On December 13, 2010 the Erstwhile Holding Company (IBFSL) had sold 26% shares held by it in Indian Commodity Exchange Limited (ICEX) to Reliance Exchange Next Limited (R-Next) for a total consideration of Rs. 473.50 Millions against a proportionate cost of Rs. 260.00 Millions. As a result thereof, the stake of IBFSL in ICEX has been reduced from 40% to 14% and the same has been reclassified as a long term investment from the earlier classification of being an Associate. MMTC filed a petition before the Company Law Board (CLB) against ICEX, R-Next and IBFSL alleging that the transfer is null and void in terms of the Shareholders Agreement in view of the Forward Markets Commission (FMC) guidelines. IBFSL contends that such view of MMTC is based on the old FMC guidelines and without considering the amended FMC Guidelines dated June 17, 2010 wherein the transfer norms were relaxed. IBFSL had filed its objections on maintainability of the petition which is pending adjudication before the CLB.

Employee Benefits – Provident Fund, ESIC, Gratuity and Compensated Absences disclosures as per Accounting Standard (AS) 15 (Revised) – Employee Benefits:

Contributions are made to Government Provident Fund and Family Pension Fund, ESIC and other statutory funds which cover all eligible employees under applicable Acts. Both the employees and the Company make predetermined contributions to the Provident Fund and ESIC. The contributions are normally based on a certain proportion of the employee's salary. The Company has recognised an amount of Rs. 37.90 Millions (2014-15 - Rs. 24.32 Millions, 2013-14 - Rs. 14.18 Millions, 2012-13 - Rs. 12.13 Millions) in the Statement of Profit and Loss towards Employers contribution for the above mentioned funds.

Provision for unfunded Gratuity and Compensated Absences for all employees is based upon actuarial valuations carried out at the end of every financial year. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Pursuant to the issuance of the Accounting Standard (AS) 15 (Revised) on 'Employee Benefits', commitments are actuarially determined using the 'Projected Unit Credit' Method. Gains and losses on changes in actuarial assumptions are accounted for in the Statement of Profit and Loss.

Notes forming part of Reformatted Standalone Summary Statements

2013-14, 2012-13 and 2011-12 :

Depreciation and Amortisation:

Depreciation on tangible fixed assets is provided on straight-line method at the rates specified in Schedule XIV to the Companies Act, 1956. Depreciation on additions to fixed assets is provided on a pro-rata basis from the date the asset is put to use. Leasehold improvements are amortised over the period of Lease. Depreciation on sale / deduction from fixed assets is provided for up to the date of sale / deduction, as the case may be. Assets costing less than Rs. 5,000 each are fully depreciated in the year of capitalisation.

Intangible assets consisting of Software are amortised on a straight line basis over a period of four years from the date when the assets are available for use.

(viii) Impairment of Assets:

The Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's net selling price and its value in use. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the Balance Sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

(ix) Taxes on Income:

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which during the specified period gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is highly probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on all timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws substantively enacted as at the Balance Sheet date, to the extent that the timing differences are expected to crystallise / capable of reversal in one or more subsequent periods.

Deferred Tax Assets are recognised where realisation is reasonably certain whereas in case of carried forward losses or unabsorbed depreciation, deferred tax assets are recognised only if there is virtual certainty of realisation backed by convincing evidence that there will be sufficient future taxable income available to realise such assets. Deferred Tax Assets are reviewed for the appropriateness of their respective carrying values at each Balance Sheet date.

Current and deferred tax relating to items directly recognised in reserves are recognised in reserves and not in the Statement of Profit and Loss.

(x) Share/Debenture Issue Expenses and Premium/Discount on Issue:

Share / Debenture issue expenses, net of tax, are adjusted against the Securities Premium Account, as permissible under Section 52(2) of the Companies Act, 2013, to the extent of balance available and thereafter, the balance portion is charged to the Statement of Profit and Loss, as incurred.

(1) Employee Benefits – Provident Fund, ESIC, Gratuity and Compensated Absences disclosures as per Accounting Standard (AS) 15 (Revised) – Employee Benefits:

Contributions are made to Government Provident Fund and Family Pension Fund, ESIC and other statutory funds which cover all eligible employees under applicable Acts. Both the employees and the Company make predetermined contributions to the Provident Fund and ESIC. The contributions are normally based on a certain proportion of the employee's salary. The Company has recognised an amount of Rs. 35.04 Million (2014-15 Rs. 18.53 Million, 2013-14 Rs. 7.51 Million, 2012-13 Rs. 8.30 Million, 2011-12 Rs. 0.09 Million) in the Statement of Profit and Loss towards Employers contribution for the above mentioned funds.

Provision for unfunded Gratuity and Compensated Absences for all employees is based upon actuarial valuations carried out at the end of every financial year. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Pursuant to the issuance of the Accounting Standard (AS) 15 (Revised) on 'Employee Benefits', commitments are actuarially determined using the 'Projected Unit Credit' Method. Gains and losses on changes in actuarial assumptions are accounted for in the Statement of Profit and Loss.

(34) Earnings Per Equity Share

Earnings Per Equity Share (EPS) as per Accounting Standard (AS)-20 "Earnings Per Share".:

The basic earnings per share is computed by dividing the net profit attributable to Equity Shareholders for the year by the weighted average number of Equity Shares outstanding during the year. Diluted earnings per share are computed using the weighted average number of Equity Shares and also the weighted average number of Equity Shares that could have been issued on the conversion of all dilutive potential Equity Shares. The dilutive potential Equity Shares are adjusted for the proceeds receivable, had the shares been actually issued at fair value.

Dilutive potential Equity Shares are deemed converted as of the beginning of the year, unless they have been issued at a later date. The number of Equity Shares and potential diluted Equity Shares are adjusted for potential dilutive effect of Employee Stock Option Plan as appropriate. Potential dilutive Equity Shares on account of Share warrants are not adjusted being anti dilutive in nature.

I. Involving our Company

A. Civil cases

1. MMTC Limited (“**MMTC**”) had originally filed a company petition (No.123 (ND)/2011) before the Company Law Board. However, pursuant to the constitution of the National Company Law Tribunal (NCLT) the petition is now before the NCLT. MMTC had filed the company petition against our Company, Indian Commodity Exchange Limited (“**ICEL**”), and Reliance Exchange Next Limited (“**REL**”). In this petition, MMTC has claimed that the transfer of 26% of the equity share capital of ICEL (“**ICEL Shares**”) held by our Company in favour of REL were in violation of the shareholders’ agreement dated February 12, 2009 between the shareholders of ICEL (“**SHA**”) to which our Company, MMTC and REL were parties, and which set out the rights and obligations of the shareholders of ICEL, including restrictions in relation to transfer of the IECL Shares. MMTC has also claimed that the transfer of the ICEL Shares was in violation of the revised guidelines of the Forward Market Commission dated May 14, 2008 (“**FMC Guidelines**”) as well as the provisions of articles of association of ICEL. MMTC has prayed, *inter alia*, for (i) a declaration that the transfer of the IECL Shares from our Company to REL be declared null and void, (ii) an order reversing this transfer, and (iii) a declaration that the appointment of directors nominated by REL to the board of directors of ICEL is invalid. Our Company and the other respondents have filed their replies to this petition. Furthermore, our Company has also filed an application (No. 71 of 2012) under Regulation 44 of the Company Law Board Regulations, 1991 for dismissal of this petition on various grounds, including, primarily, that the allegations made by MMTC and the other plaintiffs in the company petition were incorrect, materially inaccurate and fail to disclose any case of oppression and mismanagement, if analysed on its facts and under the FMC Guidelines. These matters are currently pending adjudication on our application for dismissal of the petition.
2. Our Company had issued a notice dated March 8, 2013 to Deccan Chronicle Holdings Limited (“**DCHL**”), one of its borrowers, under section 13(2) of the SARFAESI Act, demanding repayment of an aggregate sum of ₹930.4 million (as on March 3, 2013) together with interest and penal interest. Subsequently, DCHL filed a writ petition (No.37381/2013) before the High Court of Andhra Pradesh in which it, *inter alia*, challenged the right of action of our Company to issue the notice under section 13(2) of the SARFAESI Act and praying for dismissal of such action on various grounds, including that the original loans which are the subject matter of the dispute were granted by IBFSL when it was not a notified financial institution under the SARFAESI Act and accordingly, the amalgamation with our Company (which was a notified financial institution under the SARFAESI Act) could not, on its own, extend the jurisdiction of the SARFAESI Act to the present dispute. The High Court of Andhra Pradesh,

by its order dated February 4, 2014, allowed DCHL's petition, stating, *inter alia*, that the SARFAESI Act did not govern the present matter. Against this order, our Company has filed a special leave petition before the Supreme Court of India (No. 5752/2014), claiming, among other grounds, that the SARFAESI Act did not prohibit the initiation of SARFAESI proceedings by a notified financial institution in respect of outstanding debts of an entity that amalgamated into such institution. The Supreme Court of India has, by its order dated February 28, 2014 directed the parties to maintain status quo in relation to the mortgaged properties in all respects till the final hearing of the matter. Subsequently, the Supreme Court of India, by its order dated April 8, 2015 permitted sale/ auction of certain immovable properties mortgaged for securing the loan. The pleadings have been completed in the matter and the court is hearing final arguments.

Our Company has also filed two applications under Section 9 of the Arbitration Act before the Civil Court, Hyderabad (No. 377/13 and No. 378/13) for the grant of interim relief, including for DCHL to furnish security totaling to ₹930.4 million and for the grant of an injunction restraining DCHL and others from, *inter alia*, creating any third party charge rights or interests or in any manner dealing with the Petitioner schedule property. The Civil Court, by its order dated March 6, 2013 granted a temporary injunction restraining DCHL from alienating the relevant mortgaged properties in any manner.

Further, DCHL has filed application under Section 9 of the Arbitration and Conciliation Act, 1996 before Hon'ble High Court of Delhi praying for a restraint on IHFL from selling, alienating the secured assets till the disposal of the petition. The proceedings in all the three Section 9 petitions have been stayed by the Hon'ble Supreme Court on our application.

Srei Infrastructure Finance Limited has filed scheme of compromise and arrangement between DCHL and its creditors and members under Section 391-394 of the Companies Act, 1956 before High Court of Andhra Pradesh for revival and rehabilitation of the company and matters incidental thereto. The scheme *inter alia* contemplated sacrifice by secured and unsecured creditors to the extent of 75% of their total outstanding amount. The balance of 25% was proposed to be discharged by issuance of Secured Creditor Equity Shares. The Hon'ble High Court on our application, vide it's order dated March 17, 2016 in CA No 323 of 2016 has recalled its earlier order dated January 22, 2016 passed in CA No 1776 of 2015 for calling a meeting of the creditors, members and shareholders of DCHL for the purpose of considering the scheme of compromise and arrangement between DCHL, its creditors, members and shareholders, as proposed by SREI Infrastructure and has stayed the said meeting.

DCHL has filed a Writ Petition challenging the order dated December 11, 2015 passed by Appellate Authority for Industrial and Financial Reconstruction, whereby appeal of DCHL was dismissed. The appeal had arisen from a rejection of a reference filed by DCHL before the Board of Industrial and Financial Reconstruction to be declared as sick. The writ petition has been admitted and notice has been issued to the parties. No interim relief has been granted to DCHL in this writ petition.

3. Veritas Investment Research Corporation ("Veritas") published a research report titled "Bilking India" dated August 1, 2012 ("Veritas Report"), co-authored by Mr. Neeraj Monga and Mr. Nitin Mangal. The Veritas Report analysed certain information about, *inter alia*, our Company and Indiabulls Real Estate Limited ("IREL"). After the report, the Indiabulls group issued a press release ("Indiabulls Press Release"), rebutting the allegations in the Veritas Report and stating that the Veritas Report was malicious and factually incorrect and that Mr. Monga had demanded monetary consideration for withholding the Veritas Report.

Our Company and IREL also filed two criminal complaints in the Udyog Vihar Police Station in Gurgaon on August 8, 2012 and in the Cyber Police Station, Mumbai on August 9, 2012 against Veritas, Mr. Neeraj Monga and Mr. Nitin Mangal alleging that the former had intentionally and maliciously authored the Veritas Report, which contained false figures and data and unfounded allegations, and was published with vengeance given that our Company and IREL had not paid the monetary consideration for withholding the Veritas Report. Both the complaints have been registered as FIRs and investigations under are currently ongoing. Mr. Nitin Mangal approached various courts in India including filing two petitions before the Supreme Court of India which petitions were dismissed.

In August 2014, Veritas and Mr. Neeraj Monga filed a civil proceeding against IREL and our Company before the Superior Court of Justice, Ontario, Canada ("Ontario Superior Court") alleging that the Indiabulls Press Release is false, defamatory, malicious, conspired with ill motive and is in abuse of the

process of law, and led to loss of reputation and credibility of Veritas. Veritas and Mr. Neeraj Monga have claimed general and special damages amounting to Canadian \$ 10 million, punitive damages amounting to Canadian \$ one million, costs, interest and any other reliefs that the Ontario Superior Court may grant. The Ontario Superior Court issued notices dated August 5, 2014 to our Company and IREL to file a statement of defense. Subsequently, our Company and IREL on February 27, 2015 moved an application challenging the jurisdiction of the Ontario Superior Court. This application has been filed, amongst others, on the ground of an anti suit injunction having been passed by the Delhi High Court in the civil suit (CS(OS) No.3199/2014), which is described below. Importantly, both Mr. Nitin Mangal and Mr. Neeraj Monga have failed to appear on the prefixed dates for cross examination in the Canadian proceedings.

Our Company filed a civil suit (CS(OS) No.3199/2014) before the Delhi High Court praying for permanent injunction against (i) Veritas and Mr. Neeraj Monga, restraining them from continuing the proceedings initiated in the Ontario Superior Court; and (ii) Veritas, Mr. Neeraj Monga and Mr. Nitin Mangal, restraining them from initiating any other proceedings against our Company as well as grant of ad-interim injunctions in relation to the reliefs claimed above. A similar suit for permanent injunction (CS(OS) No. 2919 of 2014) was also filed by IREL. The Delhi High Court, by orders dated September 25, 2014 and October 27, 2014 granted these ad-interim injunctions restraining the defendants from continuing the proceeding in the Ontario Superior Court or filing any fresh proceedings till further orders. These interim injunctions were subsequently confirmed against Veritas, Neeraj Monga and Nitin Mangal. Pursuant to an appeal by Mr. Mangal a Division Bench of the High Court of Delhi on April 5, 2016 set aside the order whereby interim stay order passed earlier was confirmed. However, the Court upheld the interim stay order against Mr. Mangal.

Applications have been filed by Mr. Nitin Mangal for setting aside the injunction order and for dismissal of the suits on the ground that Our Company and IREL has taken part in proceedings before the Superior Court of Justice at Ontario and application challenging the territorial jurisdiction of the Delhi High Court and the absence of any cause of action on various grounds, including that Mr. Mangal was a resident of Indore, and therefore, not amenable to the personal jurisdiction of the Delhi High Court have been filed. Further, despite the anti-suit injunction by the Delhi High Court, Veritas, Mr. Neeraj Monga and Mr. Nitin Mangal filed affidavits in the proceedings before the Ontario Superior Court. Accordingly, we filed a contempt petition in the Delhi High Court against Mr. Neeraj Monga and Mr. Nitin Mangal, claiming, inter alia, that in their affidavits, Mr. Neeraj Monga and Mr. Nitin Mangal had made certain defamatory and contemptuous statements, as well as indicated their intention to violate the terms of the anti-suit injunction. The Delhi High Court has therefore vide order dated July 29, 2015 and April 15, 2015 issued a notice on the contempt petition against Veritas, Mr. Neeraj Monga and Mr. Nitin Mangal. Applications for challenging the jurisdiction of the Delhi High Court and application for dismissal of the suit on lack of cause of action have been filed by Nitin Mangal.

Veritas and Mr. Neeraj Monga were initially abstaining from appearing before the Indian courts or joining investigations being conducted by Indian agencies. On October 2, 2015, Ontario Superior Court of Justice dismissed application filed by Veritas and Neeraj Monga seeking anti suit injunction from the Ontario Court against suit for damages filed by IHFL before Delhi High Court. In its order dated October 2, 2015, the Ontario Superior Court of Justice made adverse remarks on Veritas and Neeraj Monga. The order of rejection of stay motion was followed by order dated November 4, 2015, whereby cost of USD 27,500 was awarded in our favour. Post the adverse order dated October 2, 2015, Veritas and Neeraj Monga started appearing in court proceedings before the Delhi High Court. Mr. Nitin Mangal approached various courts in India including the Supreme Court and has been appearing before the Indian courts in the proceedings initiated by IREL and our Company.

Our Company has also filed a civil proceeding (CS(OS) No. 1474/2015) against Veritas and Mr. Neeraj Monga before the Delhi High Court claiming, inter alia, (i) damages amounting to ₹2,000 million; (ii) a decree declaring the affidavits of Veritas and Mr. Neeraj Monga filed before the Ontario Superior Court to be set aside; and (iii) a decree for permanent injunction restraining Veritas and Mr. Neeraj Monga from circulating, referring to or relying upon any defamatory materials in the Ontario Superior Court. Veritas and Neeraj Monga have entered appearance in this suit.

In addition to these proceedings in India and Canada, we also initiated proceedings against an Editor for the Wall Street Journal ("WSJ") and Dow Jones & Company ("Dow Jones"), the publisher of WSJ, seeking to restrain them from publishing contents of the affidavits filed before the Superior Court of

Justice, Ontario. We believe these affidavits contain false and misleading allegations and derogatory statements relating to the Indian judicial and state mechanism, as well as Indiabulls. In April 2015, the Delhi High Court passed an injunction restraining the WSJ Editor, Dow Jones, Veritas and the authors of the Veritas report from publishing, disseminating or broadcasting reports pertaining to and arising out of the Veritas report or other connected reports. The Delhi High Court has since modified its order and has allowed the WSJ Editor involved to make a publication subject to compliance with the norms of journalistic conduct as issued by the Press Council of India (2010 edition) ("**Norms of Journalistic Conduct**"). In June 2015, Dow Jones and WSJ Editor filed appeals against the injunction passed in April 2015 before the Delhi High Court. Subsequently, on September 7, 2015 the Delhi High Court disposed the appeals on the consent of the parties involved with a direction that both Dow Jones and the WSJ reporter would adhere to the Norms of Journalistic Conduct in making any publications. Further, we were also directed by the Delhi High Court to respond to Editor of WSJ's queries in relation to the affidavits filed in the Superior Court of Ontario. Subsequent to this, articles on us may be published by the WSJ reporter or Dow Jones, which WSJ has since published in relation to the Veritas report.

4. We have received a notice dated July 18, 2016 (the "Notice") under rule 4 of the SEBI (Procedure for Holding Inquiry and Imposing Penalties by Adjudicating Officer) Rules, 1995, in relation to certain irregularities with the filing of shareholding patterns by our Company (between 2010 and 2012) with the stock exchanges pursuant to the erstwhile equity listing agreement that all listed entities in India were required to enter into with the stock exchanges. Pursuant to the notice, it has been alleged that an employee welfare trust created for the benefit of our employees primarily to hold our equity shares issued pursuant to employee stock option plans should have been disclosed in the list of public shareholder holding more than 1% of the share capital of the Company under applicable laws. Based on the opinions received from a former judge of the Delhi High Court and a former chief justice of India, we believe that since shares were held beneficially by the trust for the various employees of the Company, and that no one employee beneficially held more than 1%, no disclosure was required to be made under the erstwhile equity listing agreement in relation to publication of shareholding patterns on a quarterly basis. The maximum penalty leviable in relation to the allegations set out in the Notice is ₹10 million.
5. South Asian Agro Industries Ltd ('SAAIL') is a company engaged in the business of power generation, which had purchased land in Chhattisgarh in 2002 for setting up a 9.8 MW biomass power plant, and had, in this regard, obtained a loan of Rs. 28 crores from a consortium of several banks. Pursuant to subsequent discussions between IICL and SGEPL, IICL sanctioned a loan of ₹350 million to SGEPL with Bhuvana Energy & Project Consultants Private Limited ("Bhuvana") being a co-borrower in the said loan, which was used primarily for repaying the existing loan by the consortium as above. The loan sanctioned by IICL was secured by certain assets of SAIL, and also a pledge of shares held by Suryachakra Global Enviro Power Limited ('SGEPL') in SGEPL and personal guarantees from M. Seshavatharam ("MS") and Dr. S M Manepalli ("SMM"). Thereafter, IFSL granted another loan facility to SGEPL for an amount of ₹500 million, which was substantially used to repay the existing loan availed from IICL. Pursuant to the merger of IFSL with our Company, the Company, in its capacity as successor to IFSL, issued demand notices under Section 13 (2) of the SARFAESI Act on July 23, 2013 for a sum of approximately ₹555.8 million by way of Outstanding Principal, Arrears (including accrued late charges) and interest till July 22, 2013 along with future interest at 17.5% per annum and other charges w.e.f. July 23, 2013. Despite objections raised by the borrowers and security providers named above, our Company on October 22, 2013 proceeded to issue a possession notice under Rule 8 (1) of the SARFAESI Rules, 2002 and subsequently a sale notice on November 30, 2015.

Suryachakra Global Enviro Power Limited ("SGEPL"), a company engaged in the business of power generation, which had purchased land in Chhattisgarh in 2002 for setting up a 9.8 MW biomass power plant, and had, in this regard, obtained a loan of ₹250 million from a consortium of several banks. Pursuant to subsequent discussions between IICL and SGEPL, IICL sanctioned a loan of Rs. 35crore to SGEPL with Bhuvana Energy & Project Consultants Private Limited ("Bhuvana") being a co-borrower in the said loan, which was used primarily for repaying the existing loan by the consortium as above. The loan sanctioned by IICL was secured by certain assets of SGEPL, and also a pledge of shares held of Suryachakra Power Corporation Limited ("Suryachakra") in a company owned by it and personal guarantees from M. Seshavatharam ("MS") and Dr. S M Manepalli ("SMM").

Pursuant to several defaults by SGEPL in repayment of the loan taken from IICL, pursuant to discussions, IFSL granted another loan facility to SGEPL for an amount of ₹500 million, which was substantially used to repay the existing loan availed from IICL, and which was secured by an equitable mortgage on

the power plant as well as assignment/ hypothecation of the receivables from the power purchase agreements executed by SGEPL, apart from pledge of 25% of the shares of another company, SAIL (where MS and SMM were directors and the largest shareholders) and a personal guarantee of the promoter shareholders.

Pursuant to the merger of IFSL with our Company, upon the occurrence of a default under the loan agreements, our Company, in its capacity as successor to IFSL, issued demand notices under Section 13 (2) of the SARFAESI Act on July 15, 2013 for a sum of approximately ₹519.5 million. Despite objections raised by the borrowers and security providers named above, our Company on October 22, 2013 proceeded to issue a possession notice under Rule 8 (1) of the SARFAESI Rules, 2002 and subsequently a sale notice on November 30, 2015.

Suryachakra Power Corporation Limited along with others have filed writ petition before High Court of Andhra Pradesh, it has been claimed that the petitioner has 78% shareholding in SGEPL and SAIL. It has been alleged that since IICL and IFSL could not have invoked measures under SARFAESI, therefore IHFL cannot invoke the provisions of SARFAESI Act. The petitioner has also claimed that IHFL had invoked winding up proceedings against SAIL and SGEPL in which Official Liquidator has been appointed, and because the properties vest in the Official Liquidator, IHFL could not have invoked the provisions of SARFAESI Act.

The Hon'ble High Court of Andhra Pradesh has issued notice on the writ petition but refused to interfere with the auction and allowed Our Company to proceed with the sale of the Secured Assets. The Court has clarified that the sale would be subject to final adjudication in the writ petition. Our Company has sold the mortgaged property and has also issued the Certificate of Sale.

In separate proceedings, IDBI has filed applications in disposed off winding up petitions before Andhra Pradesh High Court seeking stay of the auction proceedings conducted by Our Company for sale of SAIL and SGEPL's properties on the ground that the companies whose properties are being sold are under liquidation and the Official Liquidator is yet to take physical possession of the properties. IDBI has stated that if the properties are sold by Official Liquidator then the same would be beneficial for clearing dues of workers, secured and unsecured creditors. The said petitions are yet to be listed.

BASIS OF ALLOTMENT

Basis of Allotment for NCDs

The registrar will aggregate the applications based on the applications received through an electronic book from the stock exchanges and determine the valid applications for the purpose of drawing the basis of allocation.

Grouping of Applications and Allocation Ratio

For the purposes of the Basis of Allotment:

- A. *Applications received from Category I Applicants:* Applications received from Applicants belonging to Category I shall be grouped together (“**QIB Portion**”);
- B. *Applications received from Category II Applicants:* Applications received from Applicants belonging to Category II, shall be grouped together (“**Corporate Portion**”);
- C. *Applications received from Category III Applicants:* Applications received from Applicants belonging to Category III shall be grouped together (“**High Net Worth Individual Portion**”); and
- D. *Applications received from Category IV Applicants:* Applications received from Applicants belonging to Category IV shall be grouped together (“**Retail Individual Investor Portion**”).

For removal of doubt, the terms “QIB Portion”, “Corporate Portion”, “High Net Worth Individual Portion” and “Retail Individual Investor Portion” are individually referred to as a “Portion” and collectively referred to as “Portions”.

For the purposes of determining the number of NCDs available for allocation to each of the abovementioned Portions, our Company shall have the discretion of determining the number of NCDs to be allotted over and above the Base Issue, in case our Company opts to retain any oversubscription in the Issue up to ₹ 35,000 million. The aggregate value of NCDs decided to be allotted over and above the Base Issue, (in case our Company opts to retain any oversubscription in the Issue), and/or the aggregate value of NCDs up to the Base Issue Size shall be collectively termed as the “Overall Issue Size”.

Allocation Ratio

QIB Portion	Corporate Portion	High Net Worth Individual Portion	Retail Individual Investor Portion
20% of the Overall Issue Size	20% of the Overall Issue Size	30% of the Overall Issue Size	30% of the Overall Issue Size

Basis of Allotment for NCDs

- a. Allotments in the first instance:

Applicants belonging to the Retail Individual Investor Portion, in the first instance, will be allocated NCDs up to 30% of Overall Issue Size on first come first served basis which would be determined on the basis of upload of their Applications on daily basis in to the electronic book with Stock Exchange;
- b. Allotments, in consultation with the Designated Stock Exchange, shall be made on date priority basis i.e. a first-come first-serve basis, based on the date of upload of each Application in to the Electronic Book with Stock Exchange, in each Portion subject to the Allocation Ratio. However, on the date of oversubscription, the allotments would be made to the applicants on proportionate basis.

Specific attention is drawn to the circular (No. CIR/IMD/DF/18/2013) dated October 29, 2013 issued by SEBI, which amends the provisions of circular (No. CIR./IMD/DF-1/20/2012) dated July 27, 2012 to the extent that it provides for allotment in public issues of debt securities to be made on the basis of date of upload of each application into the electronic book of the Stock Exchange, as opposed to the date and time of upload of each such application. In the event of, and on the date of oversubscription, however, allotments in public issues of debt securities is to be made on a proportionate basis.

c. Under Subscription:

Under subscription, if any, in any Portion, priority in allotments will be given in the following order:

- i. Retail Individual Investor Portion
- ii. High Net worth Individual Portion
- iii. Corporate Portion

- d. For each Portion, all Applications uploaded in to the Electronic Book with Stock Exchange would be treated at par with each other. Allotment would be on proportionate basis, where NCDs uploaded into the Platform of the Stock Exchange on a particular date exceeds NCDs to be allotted for each Portion respectively.
- e. Minimum allotment of 1 (one) NCD and in multiples of 1 (one) NCD thereafter would be made in case of each valid Application.
- f. Allotments in case of oversubscription: In case of an oversubscription, allotments to the maximum extent, as possible, will be made on a first-come first-serve basis and thereafter on proportionate basis, i.e. full allotment of NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior to the date of oversubscription and proportionate allotment of NCDs to the Applicants on the date of oversubscription (based on the date of upload of each Application into the Electronic Book with Stock Exchange, in each Portion).

ALM profile as on March 31, 2016 was comfortable with cumulative positive mismatches across all time buckets. Short-term borrowing as a proportion of total debt remains stable at 7.2% at FY16-end compared with 6.6% at the end of FY15. Cash & cash equivalent (investment in mutual funds and CDs) constitutes 16.4% of the total assets as on March 31, 2016 (FY15: 16.0%). IBHFL's policy to have 15-20% of its total assets in cash & cash equivalent helps it in better liquidity management and overcome any temporary liquidity crisis in the market.

Good asset quality

The asset quality remained at a comfortable level with Gross and Net NPA ratios at 0.95% and 0.39% as on March 31, 2016 (FY15: GNPA ratio – 0.96%, NNPA ratio – 0.41%). Net NPA to net-worth ratio was 2.24% as on March 31, 2016 as compared to 2.83% as on March 31, 2015. Following is asset quality snapshot over the last 5 years:

The company has stopped fresh loan disbursement for CV financing from Q3FY14 onwards. Excluding the CV portfolio, GNPA ratio would have been 0.59% as on March 31, 2016 (0.64% as on March 31, 2015). Asset quality parameters for other asset classes remained relatively stable during the year.

Risk associated with big ticket size corporate mortgage loans

IBHFL also has a corporate mortgage loan portfolio which is mainly lease rental discounting, residential construction finance and other corporate loans. High borrower concentration and relatively riskier nature of the corporate credit portfolio can put stress on asset quality in times of economic turbulence in the future. The top 10 corporate loan accounts (on a group basis) constituted 56% of tangible net-worth as on March 31, 2016 as compared to 84% of tangible net-worth as on March 31, 2015. Good security cover mitigates this risk to some extent.

Prospects

The housing finance segment in India has emerged as one of the most secured and resilient asset classes witnessing healthy growth rates and low delinquencies. As a result, housing finance has continued to be a focus segment for both banks as well as housing finance companies registering a robust CAGR growth of roughly 19% during 2011-2016. Owing to the stress in their corporates portfolios, banks have been increasingly shifting their focus towards retail asset classes such as

mortgage finance. As per CARE estimates, the size of mortgage finance market stood at over Rs.12.4 trillion as of March 2016 of which HFCs accounted for roughly 40% and banks for the remaining 60%. Although banks continue to dominate the housing finance space in India given their extensive reach and access to low cost funds which has resulted into a rise in balance transfers from HFCs to banks; HFCs continue to mark their presence with their focus, systems as well as specialization in their target segment and geographies.

During FY16, HFC's witnessed portfolio growth of around 18-19% y-o-y. Continued healthy portfolio growth, stable margins and operating efficiencies as well as low credit costs have contributed to healthy profitability parameters of HFCs. As per performance estimates of select large players, HFCs registered net interest margin and Return on Total Assets (ROTA) of over 3.0% and 2.2% respectively during FY16 while GNPA ratio stood at 0.7%. One year lagged GNPA ratios continue to be stable and are estimated at 0.8%. While some of the players are witnessing rising NPA levels in their loans against property (LAP) and non- housing loans portfolio; the fact that individual housing loans (excluding LAP) account for bulk of the total mortgage finance portfolios of HFCs, the overall delinquencies are still low.

Over the last few years, many new HFCs backed by private equity players and or strong promoters with a focus on affordable housing have started operations. Recent initiatives such as lowering of risk weights for housing loans between Rs. 30 lakhs to Rs.75 lakhs having LTVs of upto 75% has been reduced from 50% to 35% (risk weight for individual housing loans of upto Rs.30 lakhs with LTVs of upto 80% has been reduced from 50% to 35%), revision in interest rates and on-lending spread caps under Rural Housing Fund by NHB in addition to Housing for All by 2022 are expected to boost credit growth in the affordable housing segment. Further, initiatives such as Real Estate Act, 2016, 100% tax exemption to developers on profits from building affordable housing and services tax exemption are expected to help transparency and supply side issues.

HFCs are expected to maintain their good profitability on the basis of strong business growth and stable asset quality over the medium term. However, rising competition and the resultant possible dilution in credit underwriting norms, long term funding and asset quality are the key challenges for the sector.

Asset quality, profitability and capitalization are the key rating sensitivities for IBHFL.
